Narrative Report

1. Introduction

Effective planning, management and scrutiny of the use of public funds are a key part of a local authority's responsibilities. The financial statements (commonly known as the accounts) are a vital part of the accountability framework, as they demonstrate how much money was spent and for what purpose, and how cash needs were met. They also record assets used, and liabilities incurred, in delivering services.

However, local authority financial statements are complex and can be difficult to understand: they must comply with the Chartered Institute of Public Finance & Accountancy's (CIPFA) "Code of Practice on Local Authority Accounting in the United Kingdom 2019/20", which is based on International Reporting Standards (IFRS), and also the requirements of accounting and financing regulations of central government.

This narrative report will provide the reader with:

- An understanding of the council, its strategic priorities, and the local and national context in which it operates.
- A summary of the council's financial performance for 2019/20 along with information on how well the Council delivered its key priorities during the year.
- The response and future challenges related to Covid-19.

- An overview of the council's medium term financial plans, future outlook, and key risks going forwards.
- A guide to the key features of the primary statements and notes that make up the financial statements.

The council is required to publish an Annual Governance Statement to accompany the Statement of Accounts. This sets out the arrangements the council has put in place to manage and mitigate the risks it faces when meeting its responsibilities. The 2019/20 Annual Governance Statement can be found at:

https://www.norwich.gov.uk/downloads/download/1978/statement_of_accounts

2. Norwich City Council

Norwich City Council is a district city council. It delivers services to the heart of the city, approximately 60% of the urban area, covering a population of some 141,137 (Source: 2018-based population projections, Office of National Statistics, March 2020). These services include:

<ul style="list-style-type: none"> • Housing services • Waste & recycling collections • Street cleansing • Car parking • Parks and open spaces • Cultural, tourism and leisure services 	<ul style="list-style-type: none"> • Electoral Registration • Housing and Council Tax Benefits • Local Planning • Public protection services including licensing and environmental health
---	---

The council has 39 Councillors representing 13 Wards (three Councillors for each Ward), each serving a four year term.

The political make-up of the city council during the 2019/20 civic year was as follows:

- Labour 27 seats,
- Green Party 9, and
- Liberal Democrats 3.

Labour had a majority of the seats and therefore had overall control. The Cabinet for the 2019/20 civic year consisted of eight members of the Labour group including the Leader of the Council, as follows:

Portfolio	Councillor
Leader of the council	Councillor Alan Waters
Deputy leader and social housing	Councillor Gail Harris
Safe and sustainable city environment	Councillor Kevin Maguire
Social inclusion	Councillor Karen Davis
Safer, stronger neighbourhoods	Councillor Beth Jones
Resources	Councillor Paul Kendrick
Sustainable and inclusive growth	Councillor Mike Stonard
Health and wellbeing	Councillor Matthew Packer

The Council employs 540.62 full time equivalent (FTE) employees (as at 31 March 2020). The actual number of employees is 640 of whom 399 are full time and 241 are part-time employees.

The Council delivers some of its services in partnership with other organisations, the most significant of these being Norse Property Services Norwich Ltd (land and property management), Norwich Norse Environmental Ltd (street and other cleansing, grounds maintenance and tree work), Norwich Norse Building Ltd (housing and non-housing repairs and maintenance), CNC Building Control, LGSS (provision of finance, internal audit, insurance and IT services) and NPLaw (legal services).

The council insourced the LGSS joint venture contracts on 1 April 2020. It also intends to insource the Norse joint venture contracts back into council control, with a view of the first transfer of services from April 2021.

3. Strategic direction of the Council

The corporate plan 2019-2022 sets out the overall strategic direction of the council including its vision, priorities and values. This guides everything the council will do for the city and its residents and visitors for the period. A copy of the Corporate Plan can be downloaded by following: https://www.norwich.gov.uk/info/20277/performance_and_open_data/1859/corporate_plan

Our vision: overall this is what as a council we aim to achieve for the city and its citizens.

Our vision: to make Norwich a fine city for all.

Our mission: this is the fundamental purpose of the council – so basically what we are here for.

Our mission: put people and the city first.

Our priorities: these are the key things we aim to focus on achieving for the city and its residents to realise our vision over the next five years. These are:

- People living Well
- Great neighbourhoods, housing and environment
- Inclusive economy

Our core values: these drive how we will all work and act as teams and employees of the council. Taken together, these summarise what we promise to do and be as a council for the city and its residents. These are:

P Pride: We will take pride in what we do and demonstrate integrity in how we do it.

A Accountability: We will take responsibility, do what we say we will do and see things through.

C Collaboration: We will work with others and help others to succeed.

E Excellence: We will strive to do things well and look for ways to innovate and improve.

4. Local context

Norwich is a success story. It seamlessly combines the modern with the historic and is a vibrant city with a thriving economy and cultural scene. There is much to celebrate, but as with any city, it has some challenges. These issues include poor educational attainment and poor health. The severity of these varies considerably between different wards of the city.

Detailed statistical information about the city can be found in The State of Norwich report found at https://www.norwich.gov.uk/downloads/file/6623/state_of_norwich

The 2019-22 Corporate Plan was developed in the light of the wider city vision work, which was undertaken under the 'Norwich 2040' banner. This started with a significant piece of resident and stakeholder engagement during 2016/17 and 2017/18 to identify consensus about what the strengths and challenges of Norwich are. It then continued with analysis of the findings to shape a vision for Norwich in 2040 which provides a shared set of aspirations for Norwich.

The city vision is therefore the starting point for this new corporate plan. This has been combined with information and analysis including:

- Analysing information on levels of need in the city such as looking at demographics, economic, environmental and equalities data.
- Assessing the current environment the council operates in, including the national and local economic climate and policy and legislation for local government.
- Understanding how other local authorities are responding to similar challenges.
- Looking at the potential future factors that may impact on Norwich and the council.
- Discussions with councillors and officers.
- Reflecting the Medium Term Financial Strategy and transformation programme which helps plan resource allocation.

Running alongside this is a review of the Council's whole operating model to make sure we are "Fit for the Future" and can deliver the services that our residents, visitors, businesses and partner organisations want and need, within the resources we have. This work has informed the new corporate plan for the Council for 2019/20 and onwards. The 'Fit for the Future' programme is continuing to take forward plans that will enable the council to better serve its city in challenging times, whilst also ensuring its financial sustainability.

5. National Context & Future Outlook

Norwich City Council is working in the context of the most challenging and uncertain financial times that local government has ever faced.

Covid-19

Since setting the 2020-21 budget in February 2020, the global economic environment has fundamentally shifted in light of the Covid-19 pandemic. It has not had a dramatic impact on the financial outturn for 2019/20 as the pandemic only started to make a notable impact on the public's and businesses' behaviour in the last two weeks of March. However, the true scale of its impact on the Council's finances will be felt during 2020/21.

Council's Response

Using the established business continuity planning process, the council has been able to suspend certain non-essential services and re-deploy staff into areas and activities that have been critical to our emergency response. Key elements of the response have included:

- Ensuring the IT capabilities to allow staff to work from home;
- Establishing the Norwich Community Response Hub (NCR) which was set up to support the most vulnerable in the city. This has provided emergency food and supplies and made welfare calls;
- Changing the way many services delivered – for example customer contact services are have been delivered over the phone and via the norwich.gov.uk website;
- Continuing to meet statutory requirements with regards to homelessness and providing emergency housing support;
- Working hard to administer grants to thousands of small and retail businesses who are eligible under the government's scheme.

The council has already begun to consider areas of focus for how the council might operate moving forwards and some of the emerging key themes which will drive the wider city recovery plan.

https://www.norwich.gov.uk/news/article/358/ambitious_covid-19_recovery_plan_for_norwich_now_published

Financial Implications

The impacts of the pandemic on the council's financial position will be far-reaching. The full extent of Covid-19 on the council's finances will only become clear as the financial year unfolds. However, it is already apparent that there will be significant adverse impacts on the council's income budgets including from council tax payments, business rates, car parking fees, and rental income from commercial property investments. Initial estimates suggest the combined financial loss to the council could be up to £14m across both the general fund and housing revenue account over the next two years; however this position is constantly being refined as new information emerges. The pace of the economic recovery and level of financial support for local authorities will be key to determining the scale of the impact on the council.

The Government has provided some additional funding to Local Authorities to support them in responding to coronavirus, in particular playing a key role in maintaining critical frontline services, assisting vulnerable people and supporting businesses and individuals. To date, the council has been awarded £1.5m in covid-19 funding. This falls significantly short of the budget pressures the council is facing.

The recovery plan includes the following key financial actions:

- Continue to closely monitor and update budget impact analysis and regularly update members and senior officers;
- Continue to lobby Government to ensure the council and local government more widely is fully compensated for increased spending and loss of income associated with Covid-19;
- Corporate review of all 2020-21 revenue budgets to identify areas for immediately reducing in-year expenditure through additional controls on non-essential spend and recruitment;
- Review of the capital programme to ensure that the schemes still reflect the council's current priorities and that these are affordable in the new financial landscape;
- Update the council's Medium Term Financial Strategy, to understand the short to medium implications for the council's savings requirements and use of reserves. This work will feed into the 21/22 budget setting process.

Alongside these actions the council will need to draw on reserves during 2020-21 to balance its budget and then build them back up over future years. In the longer term, there will be a need to rebase our Medium Term Financial Plan in recognition of the impact of the pandemic and the council's strategic objectives.

Government Funding and Reforms

The financial year 2020/21 is the tenth year of austerity and government-imposed funding cuts. The city council has

already made efficiency savings, including the generation of new income streams, of some £37.4m over these ten years and further gross savings/increased income of £2.1m proposed in 2020/21.

The financial settlement covered only 2020/21, with the government implementing a 'roll forward' finance settlement. A further one year delay has been recently announced to the longer-term local government financial reforms including the Fair Funding review, reset of business rates baselines, and changes to the business rates retention system. These all have critical implications for the distribution of funding across local government. At the same time, the council awaits the results of the 2020 Spending Review as this will affect the total level of funding available to local government as a whole from April 2021.

In light of the ongoing uncertainty, local authorities still have no reliable basis on which to appropriately plan their budgets as it is unclear how much funding there will be from April 2021, how it will be distributed, and the means of delivery.

6. Medium Term Financial Plans and Risks

The latest general fund Medium Term Financial Strategy (MTFS), Housing Revenue Account (HRA) Business Plan, and capital, investment & treasury management strategies were approved by Council in February 2020 and can be found at this link: [The council's 2020/21 budget and medium term financial strategy](#).

The medium term financial plans outlined in the budget papers were developed prior to the Covid-19 pandemic. It is

unclear at this stage what the final impact of this will be on the financial position of the council and how future savings requirements may be impacted. These will continue to be refined and updated as more information becomes available.

Before the pandemic there was already a significant medium to longer term pressure on the general fund which remains and may be exacerbated by any longer term economic impacts of the pandemic.

General Fund

The council's General Fund (GF) revenue budget comprises the annual day-to-day costs and income of providing all of the council's services except social housing which is in a separate budget called the Housing Revenue Account (HRA).

The Medium Term Financial Strategy (MTFS) for the General Fund shows that forecast income is insufficient to fund forecast expenditure over the next five years. This is a result of cost pressures, such as inflation and Pension Fund deficit contributions, growth in demand for services, and reducing grants from central government (in particular Revenue Support Grant (RSG) and New Homes Bonus).

The forecasts in the MTFS, given the caveat that local government still does not know how intended changes to local government funding will impact on individual councils, show that a further £10m of gross savings will need to be found over the four year period from 2021/22. This quantum of savings represents 17% of the 2020/21 proposed gross expenditure budget (excluding the housing benefits budget,

which is fully funded via central government housing subsidy).

General Fund MTFS 2020/21 to 2023/24

	2021/22	2022/23	2023/24	2024/25
Budget Requirement	20,789	23,129	25,414	27,474
Budget Resources	(16,149)	(16,580)	(17,024)	(17,479)
Budget Gap	4,640	6,549	8,390	9,995
Funding the budget gap:				
Cumulative gross savings needed	(2,490)	(4,980)	(7,470)	(9,960)
Planned use of reserves	(2,150)	(1,569)	(920)	(35)

The council will plan to implement these savings in a controlled manner and by taking a strategic and medium-term rather than a short-term approach. It can do this because it has built-up significant general fund reserves in recent years, both purposefully and through in-year underspending of the approved budget. These will be used to partially fund the budget in a planned way over the next four financial years whilst key Fit for the Future savings programmes are delivered.

There are a number of key themes of work that are being advanced to meet the savings challenge, which are thought

at this initial stage, to be able to cover 30% to 40% of the medium term “budget gap”. These include:

- Increasing our income from commercial property and other sources
- Increasing the efficiency of our IT and services
- Supporting people to self-serve where they can
- Bringing some of our external contracts back into the council

The council’s intention however is to protect all services currently provided for as long as possible whilst meeting the statutory need to set a balanced budget each year, maintaining financial stability over the medium term, and managing significant financial risks.

However, difficult decisions will be required and it is almost inevitable that this council will need to review the nature and level of the services provided from 2021/22. The outcomes of the central government funding review will be critical in understanding the longer-term funding levels for the Council. A significant reduction in funding could require the council to move towards the provision of core statutory services only.

Housing Revenue Account (HRA)

The Housing Revenue Account (HRA) is a ring-fenced account, containing the costs arising from the provision and management of the council’s housing stock, offset by tenant rents, service charges and other HRA income.

The HRA does not face the same financial pressures as the council’s general fund, although the account has lost significant income over the past 4 years from the government’s enforced rent reduction. Additionally, there are significant risks to rental income streams arising from

the COVID-19 pandemic along with the roll out of Universal Credit and the continuing Right-to-Buy legislation.

The HRA is forecast to make a surplus of income over expenditure of £6.7m in 2020/21 and it is proposed to use £2.1m of this surplus to fund capital investment in the housing stock. The remainder being transferred to reserves to finance new and replacement stock over the medium term.

Following a four year period of enforced rent reduction, the Council was able to increase rent annually by up to CPI (Consumer Price Index) plus 1% from April 2020. This has increased the average weekly HRA rent to £78.91.

Longer term financial strategy for the HRA is based upon a 60 year business plan, which models the revenue costs of intended capital investment alongside other forecasts of revenue expenditure and income to determine the resultant surplus or deficit over the life of the plan.

The longer-term perspective is crucial to ensure that the service and its primary assets, the housing stock, are fit for purpose and that intended investments in the stock are affordable and sustainable for the whole of the plan.

The council has developed a Housing Strategy which will help guide future investment decisions. The lifting of the HRA debt gap combined with the council's long term business planning approach and recent experience of house building mean that the council, through its HRA account, will seek to build more affordable homes in the city in the future. It has significant reserves that could be used for this purpose and the HRA Business Plan demonstrates significant "headroom" for the HRA to borrow whilst still ensuring the borrowing is prudent and affordable.

Ability to repay HRA borrowing

Capital Strategy

The council owns and maintains an extensive range of assets including commercial property, HRA dwellings, a market, heritage assets, walkways and paths and lighting columns. Major investment in these and in new assets is funded from the capital programme which in turn is resourced from the disposal of surplus assets, revenue budget contributions, grants, and external borrowing.

The council's proposed capital programme for 2020/21 is £65.5m. In addition further capital ambition projects may seek approval from council later in the year, subject to viable Business Cases.

Unlike the HRA, the general fund has insufficient capital resources to meet investment needs for the future. The existing maintenance backlog on the council's existing general fund assets is estimated at some £21m. Borrowing money to tackle this backlog is not an option for most of the

properties requiring the expenditure, as the borrowing incurs financing costs that put extra costs onto the revenue budget whilst many of the improvements required will not generate any new income streams, or sufficient budget savings, to cover these costs. Capital grants are not often readily available for the work needing to be undertaken and capital receipts (income from asset assets), which have traditionally been used in the past to fund this type of expenditure, are reducing.

The council is planning a comprehensive review of all of its non-HRA land and property assets to prioritise those that need investment, are not financially performing, or are surplus to service needs.

The council's overall financial position

The council has a strong balance sheet and owns some £1 billion of long term assets (mostly land and property). In addition, it has significant general reserves both for the general fund (£9.47m) and HRA (£33.97m) as at 31 March 2020.

CIPFA has produced financial stress indicators for the council which show that it is not currently "at risk" (further detail provided in Section 8 of the [budget report](#)).

The council's general fund services are under the most financial pressure, both for revenue and capital expenditure. The huge uncertainties surrounding the economic environment post the Covid-19 pandemic plus the changes in the local government finance regime from 2021/22 hinder robust forward financial planning for the general fund.

Like many others, this council undertakes commercial activities which both contribute to its corporate priorities as well as generate income streams to help fund front line services. These activities are classified as non-financial investments.

The council holds £105.68m of investment properties which generate a revenue stream for the council. 14% of the General Fund's gross expenditure budget for 2020/21 will be funded from commercial income (investment property income and interest from lending to the council's wholly owned housing development company). A proportion of the income is set aside into earmarked reserves to mitigate against the risks associated with these commercial activities.

In March 2020 the government commenced a consultation on the Public Works Loan Board (PWLB) future funding terms. The consultation aims to work with local authorities and sector representatives to develop a targeted intervention to stop debt-for-yield activity while protecting the crucial work that local government does on service delivery, housing, and regeneration. The proposals, if implemented, would mean that the Public Works Loan Board would not be a source of lending to local authorities investing in commercial properties to generate income.

The council's 2020-21 capital budget contains £25m for asset investments (for either new properties or investment in the existing portfolio) with the aim of generating additional rental income. The council will await the outcome of the consultation before deciding whether to take forward any further investment.

The funding of non-financial investments along with the proposed capital programme and capital ambition projects

will significantly increase the council's capital funding requirement (its indebtedness or underlying need to borrow). If projects and programmes proceed to plan, then the capital financing requirement will increase by £133m from 2018/19 to 2022/23, a 47% increase. The total indebtedness compared to the value of the council's assets (gearing ratio) increases from 27% in 2018/19 to 36% in 2022/23.

The council currently has £72m of cash holdings and will therefore need to borrow externally at some point to fund the capital financing requirement. The strategy for switching from internal to external borrowing is set out in the Capital Strategy approved by Council in February 2020.

The council's policy for using borrowing as a means of funding capital expenditure is also described in the Capital Strategy. Essentially the council will only borrow money (increase its capital financing requirement) in cases where there is a clear financial benefit, such as a new income stream or budget saving, that, at the very least, will fund the costs arising from the borrowing (interest and MRP (Minimum Revenue Provision) costs).

The overall proposed direction of travel means more focus is being given to enhanced options appraisal, Business Case preparation, financial modelling, and commercial awareness so that robust decisions can be made.

Financial Risks

Financially the Council faces a large number of challenges in the coming years. The 2020/21 Budget Report identified the key financial risks facing the Council which include:

- **Medium term financial uncertainty:** Given the lack of clarity on future local government funding post March 2021 it is currently not possible to undertake meaningful and robust medium term financial planning for the financial year 2021/22 and onwards.
- **Scale of general fund budget savings required over the medium term:** The proposals show a need, based on current financial planning assumptions, for the council to achieve gross savings totalling £10m over the 4 year period 2021/22 to 2024/25. Current savings and income generation plans, including the fit for the future programme, are thought at this initial stage, to be able to cover 30% to 40% of the medium term "budget gap".
- **Economic environment:** At the moment there is huge uncertainty surrounding the scale of the direct financial impact of the Covid-19 pandemic on the council's finances. The pace and manner of the economic recovery as well as the UK's future relationship with the EU give rise to significant financial uncertainty in the next few years.
- The economic downturn is having adverse impacts on the council's income budgets ranging from council tax payments, Business Rates, car parking fees, and rental income from commercial property investments. The full extent of the impact on the council's budgets will become apparent as the 2020-21 financial year progresses.
- In addition, any long term decrease in private house sales and prices will be financially challenging for the council's wholly owned subsidiary, Norwich Regeneration Limited. From the Council's perspective,

there is a risk that the company is unable to repay its loan financing in full.

- **An increase in interest rates:** The council's underlying need to borrow will increase over the medium term financial period and the council will need to enter into new external borrowing to fund its capital ambition plan and non-financial investments. An interest rate rise could both (a) make an investment financially unviable and (b) could increase the cost of servicing the debt to the revenue budget.
- **Business Rates income:** This is a highly volatile source of revenue and various factors, including business closures, successful appeals against rateable values, changes in property usage from office/industrial to residential, and changes to the health of the local and national economy can cause reductions in business rate revenue. Norwich City Council currently collects some £76m of business rates income and is budgeted to retain some £6.7m in 2020/21. Central government have used Business Rates as a key mechanism to help business in light of the Covid-19 pandemic. As a result of additional reliefs announced, the rates income collected by the council will reduce but it will be compensated through a government grant.
- **Increasing reliance on commercial income and fees and charges:** The council's General Fund revenue budget contains some £7.5m of rental income from investment properties as well as £0.5m generated by lending to Norwich Regeneration Limited. This income currently funds 14% of the General Fund gross revenue budget. In addition, the council receives significant income from car parking and there is a risk associated with such a reliance on a single source of income.

7. Performance against our priorities

To help us improve and demonstrate progress, we use a performance management framework. This helps us to:

- Focus on the council priorities set up in the corporate plan
- Set targets aimed at improving services and measure progress
- Be accountable to our residents

The corporate plan 2019-22 established three corporate priorities: people living well; great neighbourhoods, housing and environment; and inclusive economy. It also contained the objective of maintaining a healthy organisation. The performance framework aims to measure progress against these through over 100 outcome and output measures or key performance indicators (KPIs).

The below table summarises the number of KPIs under each corporate priority which are RAG rated red, amber or green and the number where data is not available or is not due to be reported this quarter. Green is on target, amber provides an early warning for possible intervention and red suggests intervention is necessary.

Corporate priority	Number of KPIs RAG rated			Data not available to date	Data not due for reporting in Q4
	Red	Amber	Green		
People living well	1	1	6	9	0
Great neighbourhoods, housing and environment	3	2	6	3	2
Inclusive economy	0	0	2	12	0
Healthy organisation	0	1	4	9	0

Areas to highlight from the performance reporting include:

- Volunteer hours in parks and open spaces has significantly exceeded its target for quarter four, totalling over 16,000 hours for the year. This reflects work to form and support new groups and to develop the skills and confidence of existing groups so that they are enabled to deliver tasks independently.
- The proportion of food premises moving from compliant to non-compliant remains above target at 88% for quarter four. The food safety team has continued to support businesses with advice and training and taking enforcement measures where it has been necessary.

- The proportion of planning appeals won has remained high and significantly above target at 87%; this is also above the national average for planning authorities which varies year on year between 66-70%.
- The digital inclusion project continued with high levels of customers reporting increased skills and confidence for the period January to March 2020.
- Norwich City Council has made an additional 2.5% reduction in its carbon emissions for 19-20 (slightly under the target range of 3-6%) but taking the total reduction to 59.6% saving against its target of 40% by 2019.
- A combination of more complex case work, including HMO enforcement work and a major appeal case, combined with the impact of Covid-19 has meant that the number of private rented sector homes made safe is under target in quarter 4. This area of work and the KPI for it will be reviewed for 2020-21.
- The proportion of council homes rated at energy efficiency rating C or higher stands at 79.84% for 19-20, with the insulation upgrade programme continuing.
- It has not been possible to gather quarter four data for several KPIs as a result of disruption due to Covid-19. Where possible, quarter four data will be included in upcoming Cabinet reporting for 2020-21.

For full details and further information on the Council's performance, please see the report to Cabinet on 8 July which can be accessed [here](#).

8. 2019/20 Financial Performance

Revenue Expenditure

2019/20 actual against budget for each service area

Cost of Services	Budget £000	Actual £000	Variance £000
Business Services	(12,718)	(14,319)	(1,601)
Chief Executive	368	252	(117)
Communications & Culture	1,731	1,768	37
Neighbourhoods	12,935	12,311	(624)
Regeneration & Growth	(2,316)	(3,393)	(1,077)
Housing Revenue Account	0	(1,889)	(1,889)
Net revenue expenditure	0	(5,271)	(5,271)

2019/20 underspends (£000) for each service area

2019/20 General Fund outturn

General Fund	Budget £000	Actual £000	Variance £000
Expenditure	152,594	152,338	(256)
Income	(57,955)	(58,798)	(843)
Grants and subsidies	(94,639)	(96,922)	(2,283)
Total in year variance	0	(3,382)	(3,382)
Budgeted reserves used in year			1,458
Transfer to NRL from general reserve			730
Transfer to commercial property reserve			989
Transfer to NRL reserve			1,578
Transfer 19-20 repairs underspend to repairs reserve			257
Transfer 19-20 underspend to invest to save reserve			557
Total movement in GF reserve (as shown in the EFA & the movement in reserves statement)			2,188

The final outturn for the General Fund is a surplus of £3.4m which represents 2.2% of the gross expenditure budget reflecting sound financial management and good budgetary control.

Detailed information on how service areas performed against budget in 2019/20 is provided in the outturn report to Cabinet on 8 July 2020.

Significant key variances are as follows:

- £1.06m underspend on budgeted external borrowing costs relating to commercial property acquisitions and lending to the Council's wholly owned subsidiary Norwich Regeneration Ltd. This expenditure has been funded in the short term from internal cash resources, with the expectation that external borrowing will be required in the short to medium term.

- £1.04m underspend on revenue contribution to capital as a higher proportion of capital spend has been funded from capital receipts
- £0.40m unrequired corporate contingency budget
- £0.39m underspend on employee costs as a result of staff turnover
- £0.36m unbudgeted dividend from Legislator 1656 Ltd in relation to the sales of shares in Norwich Airport Ltd
- £0.26m underspend due to implementation of a revised and more accurate method of calculating recharges between the GF & HRA
- £0.26m underspend on building repair costs; this will be earmarked to address asset maintenance requirements in 2020/21.
- £0.12m underspend on minimum revenue provision due to later acquisition of investment properties than originally anticipated

The overall underspend was partially offset by:

- £0.53m overspend on housing benefit due to slightly lower than anticipated recovery rates

The Council continues to conduct regular analysis of budget outturns and where there are consistent underspends assessment is made of whether budgets can be reduced.

The underspends relating to minimum revenue provision and a proportion of the external borrowing costs have been transferred into the Council's Commercial Property earmarked reserve. This was established to reduce the risks associated with holding commercial property by providing funding for any future void and rent free periods as well as repairs and upgrades to the investment property portfolio. Building up this reserve is a key element of the risk

management strategy associated with increased commercial activity.

The following pie charts show how the money was spent (excluding housing benefit payments) and where the money came from in 2019/20.

General Fund – how the money was spent in 2019/20 (£57.67m)

General Fund - where the money came from in 2019/20 (£61.05m)

2019/20 Housing Revenue Account outturn

HRA	Budget £000	Actual £000	Variance £000
Expenditure	68,202	66,277	(1,926)
Income	(68,202)	(68,166)	36
Total in year variance	0	(1,889)	(1,889)
Budgeted contribution to reserves			(2,175)
Transfer to HRA invest to save reserve			1,000
Total movement in HRA reserve (as shown in the EFA & the movement in reserves statement)			(3,064)

The final outturn position for the HRA is a surplus of £1.89m which represents 2.8% of the total expenditure budget.

The underspend is largely a result of the reduced need for responsive repairs on HRA dwellings and reduced revenue

contribution to capital, totalling £0.8m. The other significant area of underspending was in HRA general management including staffing costs and the HRA contingency budget along with reduced recharge expenditure from the GF.

Reserves position

This is shown in the 2019/20 Statement of Accounts section of this narrative report in section 9.

HRA – how the money was spent in 2019/20 (£66.30m)

HRA- where the money came from in 2019/20 (£68.19m)

Other Capital Receipts	1,972
City Cycle Ambition Grant	1,780
Grants & Contributions funding	2,695
CIL (Community Infrastructure Levy) Strategic Pool	789
Section 106	37
Leaseholder Contributions	445
Funding of 2019/20 Capital Programme	77,505

For 2019/20, a sum of £25m was approved in the General Fund capital budget for commercial property acquisition, along with an additional £20.6m that was carried forward from the previous year. This has enabled the council to continue its programme of upgrading and growing its investment property portfolio by selling smaller, less valuable assets and/or assets that take a lot of management time, and replacing them with better quality and higher yielding investment property.

Capital Expenditure

2019/20 capital outturn

Fund	Budget £000	Actual £000	Variance £000
General Fund capital	59,253	48,760	(10,492)
HRA capital	54,953	28,744	(26,209)
Total	114,206	77,505	(36,702)

2019/20 funding of the capital programme

Source of Funding	£000
Borrowing	42,316
Revenue Contribution (RCCO)	5,797
Major Repairs Reserve (MRR)	16,750
Retained One for One RTB (Right To Buy) Capital Receipts	4,924

During the year, a total of £42.1m was spent on acquiring five new investment properties and substantially upgrading four others. This investment has continued to increase the commercial rental income which has more than achieved the net commercial rental income target set in the MTFS of £500k in 2019/20.

During the 2019/20 financial year, the housing capital programme delivered upgrades to over 4,870 council homes, including heating upgrade works to over 750 properties, over 370 new kitchens, 680 new bathrooms and 590 replacement doors. Additionally, over 1,000 properties have benefitted from structural or roofing upgrades whilst 150 properties received renewable energy installations or additional insulation.

The development of council homes has continued, with the completion of the final 50 new Passivhaus homes at the award winning Goldsmith development. In addition, 35 new homes have been completed at Rayne Park by Norwich Regeneration Ltd and purchased by the HRA and 6 new homes created from former council offices at Bullard Road.

Grants of Right to Buy receipts to Registered Providers totalling £2.18m have also enabled the development of further new affordable homes in the city.

Detailed information on 2019/20 performance against the capital budget is provided in the outturn report to Cabinet on 8 July 2020.

New HRA homes at Bullard Road development

9. 2019/20 Statement of Accounts

The Statement of Accounts sets out the financial performance of the Council for the year ended 31 March 2020 and its financial position at that date.

It comprises core and supplementary statements together with disclosure notes.

The format and content of the financial statements are prescribed by the Chartered Institute of Public Finance & Accountancy (CIPFA) Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

The Code requires that the accounts give a true and fair view of the financial position of the Council and are prepared on the basis that the Council is a going concern. In line with the Code, suitable accounting policies have been applied, and where necessary, prudent judgements and estimates have been made.

The Statement also includes the financial performance and position of the Council's wholly owned company, Norwich Regeneration Limited.

The purpose and key figures to note for each of the key statements are described in the following sections of this narrative report.

Expenditure and Funding Analysis

The Expenditure and Funding Analysis essentially reconciles the figures given in the budget outturn position to those included in the Comprehensive Income and Expenditure Statement (CIES) which follows the Analysis.

The CIES shows the accounting cost for the year of providing the Council's services. This is not the same as the budget outturn information. The accounting cost is determined in accordance with generally accepted accounting principles (contained within the Code) whilst the budget, and the year-end outturn against the budget, has to comply with local government legislation.

The Code requires that councils make a number of adjustments to the budget outturn results to determine the accounting costs and income shown in the Statement of Accounts. For example, large adjustments are made for the accounting treatment of fixed assets (depreciation) and pension costs. These costs, whilst shown in the CIES because they are required under accounting standards, are not included in the Council's annual budget nor funded from Council Tax.

The inclusion of such costs in the CIES is to enable comparison of a council's Statement of Accounts with other organisations, both public and private sector.

The Expenditure Funding Analysis allows a link to be made between year-end outturn against the budget to the financial position as set out in the financial statements.

Key figures to note:

Net (Surplus) / Deficit on General Fund and HRA balance in year	<p><i>This part of analysis shows how annual expenditure is used and funded from resources (government grants, fees & charges, council tax and business rates).</i></p> <p>For the General Fund the year-end outturn position is a surplus of (£1.72m), alongside total transfers to</p>
--	--

	<p>reserves of £3.91m in line with the proposed approach to managing reserves set out in the Medium term financial Strategy.</p> <p>For the HRA the year-end outturn is a surplus of (£4.34m), alongside total transfers to reserves of £1.27m. This results in an overall increase in HRA general reserves of £3.07m.</p>
Adjustments between the funding & accounting basis	<p><i>This part of the analysis shows the adjustments that have been made in order to comply with generally accepted accounting practices.</i></p> <p>These total £11.9m and comprise:</p> <ul style="list-style-type: none"> • Depreciation & Impairment • Revaluation gains/losses • Capital grants and contributions credited to the CIES • Reversal of the HRA depreciation charge • Pension reserve adjustments • Collection fund adjustment account adjustments.
Net expenditure in the CIES	<p><i>This shows the accounting cost of providing each service (shown also in the CIES) after adding together the year-end outturn position against the budget with the adjustments required under accounting standards.</i></p> <p>It is a deficit of £5.83m.</p>

Comprehensive Income and Expenditure Statement (CIES)

The CIES records all of the Council's income and expenditure for the year and has two parts:

- The first part reflects the accounting cost of providing the Council's services with the results summarised at the Surplus or Deficit on the Cost of Services line. In the private sector this would be equivalent to the profit or loss of a company.
- The second part, showing other comprehensive income and expenditure, shows the gains or losses in the measurement of the council's assets and liabilities. These gains and losses arise as a result of changes in market valuations, interest rates or changes in measurement assumptions in relation to pension liabilities.

Key figures to note:

Cost of Services	<p><i>This shows expenditure on continuing operations analysed by service area (based on the way the Council operates and manages its services). These lines are reconciled to the budget outturn position in the Expenditure & Funding Analysis.</i></p> <p>The 2019/20 cost of services is a deficit of £18.07m compared to a deficit of (£10.38m) in 2018/19.</p>
-------------------------	--

	<p>The main reason for the movement is an in-year revaluation loss on the Council's HRA dwellings compared to the prior year where there was a revaluation gain.</p>
Other operating income & expenditure	<p><i>This includes the surplus or deficit from the sale of property, plant or equipment.</i></p> <p>Total other operating income and expenditure is a (£5.57m) surplus largely arising from gains on the disposal of HRA dwellings (against the carrying value of the properties) and a profit on the long lease of the airspace above council owned land.</p>
Financing and investment income and expenditure	<p><i>Includes interest receivable and payable, net rental income on the properties held purely for investment purposes; and the interest element of the pension fund liability.</i></p> <p>The net costs have increased from 2018/19 due an impairment of £4m on the council's loan to its wholly owned subsidiary. This is based on an assessment of how much of the current loan balance may not be recoverable from the company.</p>
Other income & expenditure	<p><i>This includes surplus/deficit on revaluations of non-current assets and actuarial gains/losses on the local government pension scheme. These are both calculated annually by our property valuers and actuaries. These items are</i></p>

non-cash transactions and do not impact on the general fund reserve balances, being reversed out through the Movement in Reserves Statement.

- Include: general fund, HRA, earmarked reserves, capital receipts reserve, major repairs reserve, and capital grants unapplied

Movement in Reserves Statement (MIRS)

The MIRS shows the movement from the start of the year to the end on the different reserves held by the council. It shows how the movements are broken down between gains and losses incurred in accordance with the Code and the statutory adjustments required to return to the amounts chargeable to the budget as required under local government legislation.

Reserves are important to local authorities as, unlike central government, they cannot borrow money over the medium-term, other than for investment in assets, and they are required to balance their budgets on an annual basis. They are therefore a vital part of prudential financial management and help reduce the financial risks mentioned earlier in this narrative report.

Reserves are analysed into two categories: usable and unusable.

Usable reserves

- Result from the Council's activities
- Members are involved in deciding on the levels maintained and their use
- Can be spent in the future

Unusable reserves

- Derive from accounting adjustments
- Cannot be spent
- Include: revaluation reserve and capital adjustment account

Key figures to note:

Opening Balances	<i>These are the same as the previous year's closing balances.</i>
Total comprehensive income	This is £5.83m and agrees with the Comprehensive Income and Expenditure Account.
Adjustments between accounting basis & funding basis under regs.	<p><i>These are made as the result of regulation and are adjustments that are required by accounting standards or statute.</i></p> <p><i>For example, accounting standards require depreciation to be charged to the general fund to represent the cost of assets used in the delivery of services. Statute however requires that these are removed from the general fund in order to calculate the</i></p>

	<p><i>amount of useable general fund reserves.</i></p> <p>Overall net adjustments of (£16.46m) have been made to the useable reserves.</p>
Transfers to/from earmarked reserves and between reserves (voluntary transfers)	<p><i>These are made as a result of the authority's decisions.</i></p> <p><i>Voluntary transfers include the earmarking of reserves, which is the setting aside of cash to fund specific longer-term objectives & spend.</i></p> <p>The main transfers in year have been into the general fund and HRA invest-to-save reserves, NRL reserve, general fund repairs reserve, commercial property reserve and the insurance reserve.</p>
Closing Balances	<p>These agree with the figures shown in the Balance Sheet with total usable reserves of £123.38m and unusable reserves of £580.73m.</p>

A description of each of the Council's useable reserves and the amount held in the reserve as at the end of 2019/20 is shown below.

Reserve	Purpose	Amount as at 31/3/20 (£000)
GENERAL FUND RESERVES		
General reserve	This is a usable reserve which has not been earmarked for a specific future use. However, the agreed MTFS strategy is to use this reserve over the next 4 years to part fund the annual budget.	9,464
Invest to save reserve	The reserve has been set up to support the delivery of savings and efficiencies. The reserve is expected to be utilised to support the implementation of a new ways of working and IT investment over the next 2-3 years.	3,010
Revenue grants unapplied reserve	This holds the grants and contributions received which have yet to be applied to meet expenditure. The use of the balance is restricted and can only be used to fund the specific expenditure/service area awarded the grant income.	1,840
S31 Earmarked reserve	This holds the unutilised balance of the S31 grant monies received from central government to fund Business Rates relief. These monies will be transferred to the General Fund Reserves as and when required to offset any future Business Rates deficit.	2,045

Norwich City Council - 2019-20 Statement of Accounts

Insurance reserve	This is to cover the excesses carried in respect of claims under various insurance policies and is subject to annual review.	1,085
Commercial property reserve	Has been established to reduce the risks associated with holding commercial property by providing funding for any future void and rent free periods as well as repairs and upgrades to the investment property portfolio.	2,047
Elections reserve	This is to provide funding for future elections, the cost and funding of which varies each year depending on the type of elections being held.	113
Mousehold Conservators Reserve	Set aside for use on Mousehold Heath.	19
NRL reserve	This reserve has been established to smooth any fluctuations in net income received by the Council from lending to NRL. It will provide a buffer in case the income is lower than anticipated due to the company not borrowing as much or as early from the council as planned (e.g. due to delays in construction). It has been increased in year to also provide a buffer in case the company is unable to repay the loan balance in full.	4,000

General Fund Repairs Reserve	This is to provide future funding for required maintenance on general fund properties, the costs of which can vary each year according to the differing repairs requirements.	444
HOUSING REVENUE ACCOUNT (HRA) RESERVES		
General reserve	This is also a usable reserve which has not been earmarked for a specific future use. The use of this is incorporated into the HRA business plan.	33,968
Invest to save reserve	This will fund the HRA's share of implementing the Fit for the Future programme (see above).	2,500
CAPITAL RESERVES		
Major Repairs Reserve (MRR)	The MRR is a statutory reserve which can only be used to fund new capital investment in HRA assets or the financing of historical capital expenditure by the HRA.	8,307
Capital Receipts Reserve	The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which can only be used to fund capital expenditure. Some of this reserve will already be committed for schemes that are progressing or have been approved in the future capital programme.	51,069

	<p>The breakdown of the reserve is as follows:</p> <ul style="list-style-type: none"> £6.9m General Fund – earmarked to fund the 5 year capital programme £23.2m HRA - included within HRA Business Plan funding (in line with forthcoming housing strategy) for specific schemes £21m HRA Retained One for One receipts - earmarked for new build social housing but can only fund 30% of total cost of scheme. 	
Capital grants unapplied	<p>This holds the grants and contributions received towards capital projects which have yet to be applied to fund expenditure. The use of the balance is restricted and can only be used to fund the specific capital projects awarded the grant income.</p>	3,462
TOTAL USEABLE RESERVES		123,373

Balance Sheet

The Balance Sheet provides a “snapshot” of the Council’s position at a specific point in time showing what it owns and owes as at 31 March 2020. It is very similar to other public sector or private sector balance sheets.

The Balance Sheet is always divided into two halves that should, as the name suggests, balance:

- Net Assets (the top half), and

- Reserves (the bottom half).

The Council continues to maintain a strong balance sheet with net assets of £704.16m. With a current ratio (current assets/current liabilities) of 1.7:1, the Council is able to pay all its short term liabilities with current assets and is holding cash and cash equivalents of £35.99m.

Key figures to note:

<p>Non-current assets including:</p> <ul style="list-style-type: none"> Property, plant & equipment Heritage assets Intangible assets Investment property Long term debtors 	<p><i>Non-current assets have a life of more than one year. For most authorities, including Norwich City Council, the biggest balance by far is property, plant and equipment. These are tangible (i.e. physical) assets that are used to deliver the authority’s objectives and services.</i></p> <p><i>With some exceptions they need an existing use value. Any changes in valuations are matched by changes in reserves (generally the unusable revaluation reserve).</i></p> <p>Plant, property and equipment has been valued at £930m as at 31 March 2020 – a decrease of £1m the prior year. This is mainly driven by asset additions of £28m, disposals of £9m and downward revaluations of £17m. The Council dwelling valuations are undertaken annually by qualified valuers.</p> <p>As at 31 March 2020 there were 14,657 HRA council dwellings, which is a reduction of 72 units from 2018/19. This includes the loss 162 dwellings mainly</p>
--	--

	<p>through Right to Buy sales and the addition of 90 mainly new build dwellings.</p> <p>Although much smaller in value than property, plant and equipment, the Council has continued to grow its investment property portfolio during 2019/20. There were additions during the year of £43.1m. This is largely due to the acquisition of five new commercial properties (£41.2m) and investment in upgrading four existing properties (£0.9m).</p> <p>Long term debtors total £11.2m at 31 March. This includes the loan balance with the Council's wholly-owned subsidiary Norwich Regeneration Ltd of £9.4m along with a £4.0m provision for doubtful debt to reflect the fact that the company is unlikely to be able to repay the balance in full.</p> <p>Another significant debtor balance relate to Housing Benefit overpayments (£1.5m).</p>
Current assets	<p><i>These are assets that are either held as cash or other assets that, in the normal course of business, will be turned into cash within a year of the balance sheet date.</i></p> <p>Cash & cash equivalents total £36m at 31 March 2020. The balances have</p>

	<p>increased by £11.8m from the prior year. Short term investments however total £9m, which is a decrease of £17m from the prior year.</p> <p>The Council has continued to be able to fund a significant proportion of its commercial investment property purchases from existing cash and investments balances. The returns from these activities are higher than the interest income obtainable in the market for short term cash investments.</p> <p>Short term debtors includes housing rent debt, VAT recovery claim, collection fund debtors and trade receivables.</p>
Current Liabilities	<p><i>Short term creditors include trade creditors, collection fund shares for central government and Norfolk County Council and year end expenditure accruals. These are amounts which are anticipated to be settled within 12 months.</i></p> <p>The short term creditors balance has increased by £3.2m from 18/19 due in part to a higher adjustment for housing rents received in advance of the year end.</p>
Long term liabilities & provisions	<p><i>Includes borrowings, any amounts owed for leases and an estimate for the cost of meeting the council's pensions</i></p>

obligations earned by past and current members of the pension scheme.

Borrowing - Overall borrowing (long term and short term) has increased from £201m to £221m due to a new loan being taken out to fund capital expenditure. The Council has not repaid any borrowing during the year. Long term borrowing is disclosed and analysed in Note 18.

Provisions – represent future liabilities over how much the authority owes or when it will have to pay.

The Council's provision relates to Business Rates valuation appeals. Following localisation in 2013, the Council has to set aside a provision for any future successful ratepayer appeals against rateable valuations. Norwich has a high degree of exposure to risk in this regard due to the number and size of rateable properties in the area. The Council currently has 108 rating appeals outstanding from the 2010 rating list.

The provision allowance has been increased in 2019/20 to continue to provide coverage of the new 2017 ratings list. To date only a small number of rating challenges have been received and a provision has therefore been created based on historic appeals trends until further information is available.

Pension Liabilities - The Council has net pension liabilities of £170m in the Balance Sheet. This reflects the value of pension liabilities which the Council is required to pay in the future as they fall due, offset by the value of assets invested in the pension fund.

The Council's pension has to be revalued every three years to set future contribution rates. The latest triennial valuation took place at 31 March 2019.

Statutory arrangements are in place for funding the deficit, which will be by increased employer contributions over the remaining working life of the employees. Details of the Council's pension liability calculated under IAS19 are shown at note 45 of the core financial statements.

Cash Flow Statement

This shows the reason for changes in the Council's cash balances during the year, and whether that change is due to operating activities, new investment, or financing activities (such as repayment of borrowing and other long term liabilities).

The statement also includes "cash equivalents" which are short term investments that are readily convertible into cash and which are subject to only insignificant risks of changes in value.

Cash flows are related to the income and expenditure seen in the CIES but are not the same as them. The difference arises from the accruals concept, whereby income and expenditure are recognised in the CIES when the transactions occurred, and not when the cash was paid or received.

Key figures to note:

The statement shows that the Council has increased its cash and cash equivalents by £11.79m over the year to give a closing balance of £35.99m.

The cash flow adjusts the CIES net surplus for the impact of non-cash transactions including asset revaluations and impairments of £14m, depreciation of £18m, and the movement in debtors and creditors. After adjustments there was a net cash inflow of £28.5m from operating activities.

Within the investing activities the main cash outflows related to the purchase of plant property and equipment (£28m) and the purchase of investment properties (£43m). This was offset by the receipt of £14m of capital proceeds.

The main movement in the financing activities was a cash inflow arising from additional borrowing from the Public Works Loan Board of £20m. This was taken to support capital expenditure incurred.

Housing Revenue Account (HRA)

This Statement shows the income and expenditure incurred by the Council as a provider of social housing under the Local Government & Housing Act 1989. It is a ring-fenced

account, so it cannot subsidise or be subsidised by other Council activities.

Key figures to note:

The statement shows that the HRA surplus for the year has decreased from £17m in 2018/19 to £8m in 2019/20. This has arisen due to a revaluation loss on local authority housing dwelling compared to a revaluation gain in the previous year.

Collection Fund

The Collection Fund shows the total income received by the Council from Business Rates and Council Tax and how the redistribution of some of that money to Norfolk County Council, Norfolk Police Authority, and central government.

Key figures to note:

In 2019/20 a total of £79.1m was raised in Business Rates and £70.9m in Council Tax (after council tax reduction scheme).

Overall the non-domestic rates element of the collection fund is in a £2.4m surplus position. This is due to resulting from higher than anticipated gross rateable values and a lower required contribution to the appeals provision. This surplus will be shared across the relevant bodies (Norwich City Council, Central Government and Norfolk County Council) in 2020/21 and 2021/22.

The council tax element of the collection fund is showing a £3.4m surplus. This will be distributed to the relevant bodies in future years.

Group Financial Statements

Group accounts need to be prepared if the council has a significant subsidiary such as a trading company. The Group Accounts report the full extent of the assets and liabilities of the Council and the companies and similar entities which the Council either controls or significantly influences.

The Council is presenting Group Accounts by consolidating the financial performance and position of Norwich Regeneration Limited (NRL) into the overall group.

NRL is a private limited company wholly owned by Norwich City Council. It was incorporated on 13 November 2015.

The company's vision and over-arching objective is to deliver sustainable and balanced communities primarily in Norwich. Its aims are to:

- Accelerate housing delivery in the City
- Catalyse regeneration opportunities
- Generate a return for the council's General Fund.

NRL's first project is a housing development at Rayne Park in Threescore. This commenced on site in May 2017 and to date 79 homes have been completed in Section 1 of the site. In April 2019, 31 units from the site were sold to the HRA for social letting.

Overall however, the first phase of the development has been built at a loss to the company, due partly to lower than

expected property sales values and private sector rental returns. This has led to revisions to sections 2-4 of Rayne Park, this is currently under construction and expected to deliver a further 74 homes over the next 12 months.

Alongside this, NRL also managed a renovation scheme for the HRA at Bullard Road to deliver 6 social homes, this completed in July 2019.

The retained losses in Norwich Regeneration Limited are £3.57m at the end of 2019/20. The company however has long term assets - property that it is renting on the private sector market valued at £2.95m and work in progress assets of £5.76m.

Rayne Park Development

In order to finance the development, NRL borrows money at commercial interest rates from the Council. As at 31 March 2020 the company has a loan outstanding with the Council of £9.4m.

Further lending and equity will be required in 2020-21 to meet the company's on-going cash flow requirements to complete Sections 2-4 of Rayne Park. This requirement has been impacted by the Covid-19 pandemic and there are clear risks that sales of properties may not proceed at the pace or value originally forecast.

An increased to the maximum loan facility of up to £21m was approved by Full Council in June 2020 to enable the company to cover all remaining contractual costs and company overheads. Loan financing will only be drawn down as required by the company; and both NRL and the council will continue to work closely to monitor the cash position and reduce costs where appropriate.

The company's Business Plan for the next five years includes further housing development at the Threescore site, and other potential developments on Council-owned land. The Business Plan sets out what is required for the company to grow and return an annual profit over the next five years. This business plan will continue to be kept under review in light of the impact of Covid-19 on the housing market as well as the council approach to commissioning development.

A draft Statement of Accounts for Norwich Regeneration Limited has been prepared and will be subject to audit by Aston Shaw. The accounts will be presented to the company's Board of Directors in July 2020 for approval.

Additional disclosures

The notes to the financial statements include important information and provide the context and detail for the figures in the primary financial statements.

Accounting Policies	<p><i>These set out the accountancy rules the Council has followed in preparing the financial statements.</i></p> <p><i>They are largely specified by International Financial Reporting Standards and CIPFA's Code of Practice.</i></p> <p>There have been no changes made to the accounting policies in the year.</p>
Critical Judgements	<p><i>Show the key areas where officers and third party experts have made judgements about the application of accounting policies.</i></p> <p><i>The aim is to highlight key areas of the accounts where others may have made different judgements about the accounting treatment.</i></p> <p>These are set out in note 3.</p>
Property, plant & equipment	<p><i>The notes gives a lot of detail about assets acquired and disposed of during the year, whether they have been revalued, the impact of any changes in value, and the amount of depreciation charged.</i></p> <p>These are set out in note 14.</p>

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NORWICH CITY COUNCIL

Opinion

We have audited the financial statements of Norwich City Council for the year ended 31 March 2020 under the Local Audit and Accountability Act 2014. The financial statements comprise the:

- Authority and Group Movement in Reserves Statement,
- Authority and Group Comprehensive Income and Expenditure Statement,
- Authority and Group Balance Sheet,
- Authority and Group Cash Flow Statement;
- the Expenditure Funding Analysis to the Authority Accounts;
- the related notes 1 to 48 to the Authority Accounts and notes 1 to 18 to the Group Accounts;
- the Housing Revenue Account Income and Expenditure Statement and the related notes 1 to 13; and
- the Collection Fund Revenue Accounts and the related notes 1 to 4.

The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20.

In our opinion the financial statements:

- give a true and fair view of the financial position of Norwich City Council and Group as at 31 March 2020 and of its expenditure and income for the year then ended; and
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the Authority and Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and the Comptroller and Auditor General's (C&AG) AGN01, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Chief Finance Officer's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Chief Finance Officer has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Authority's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The other information comprises the information included in the "Statement of Accounts for the year ending 31 March 2020", other than the financial statements and our auditor's report thereon. The Chief Finance Officer is responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matters prescribed by the Local Audit and Accountability Act 2014

Arrangements to secure economy, efficiency and effectiveness in the use of resources

In our opinion, based on the work undertaken in the course of the audit, having regard to the guidance issued by the Comptroller and Auditor General (C&AG) in April 2020, we are satisfied that, in all significant respects, Norwich City Council put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020.

Matters on which we report by exception

We report to you if:

- in our opinion the annual governance statement is misleading or inconsistent with other information forthcoming from the audit or our knowledge of the Council;
- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014;
- we make written recommendations to the audited body under Section 24 of the Local Audit and Accountability Act 2014;
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014;
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014; or
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014.

We have nothing to report in these respects.

Responsibility of the Chief Finance Officer

As explained more fully in the "*Statement of Responsibilities for the Statement of Accounts*" set out on page 32, the Chief Finance Officer is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20, and for being satisfied that they give a true and fair view.

In preparing the financial statements, the Chief Finance Officer is responsible for assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Authority either intends to cease operations, or have no realistic alternative but to do so.

The Authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General (C&AG) in April 2020, as to whether Norwich City Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined this criterion as that necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether Norwich City Council put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, Norwich City Council had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the National Audit Office (NAO) requires us to report to you our conclusion relating to proper arrangements.

We report if significant matters have come to our attention which prevent us from concluding that the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Certificate

We certify that we have completed the audit of the accounts of Norwich City Council in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice issued by the National Audit Office.

Use of our report

This report is made solely to the members of Norwich City Council, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and for no other purpose, as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's members as a body, for our audit work, for this report, or for the opinions we have formed.

Statement of Responsibilities for the Statement of Accounts

The Council's Responsibilities

The Council is required to:

- make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In Norwich City Council that officer is the Chief Finance Officer;
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- approve the Statement of Accounts;

The Chief Finance Officer's Responsibilities

The Chief Finance Officer is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ('the Code of Practice').

In preparing this Statement of Accounts, the Chief Finance Officer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code of Practice.

The Chief Finance Officer has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate of Chief Finance Officer

I certify that the Statement of Accounts presents a true and fair view of the financial position of Norwich City Council as at 31 March 2020 and its income and expenditure for the year then ended.

Signed:

Date: 12 January 2021

Annabel Scholes
Interim Director of Resources (S.151 Officer)

Certificate of Approval of the Statement of Accounts

Signed:

Date: 12 January 2021

Councillor Ben Price
Chair of Audit Committee

Expenditure Funding Analysis 2019/20

The Expenditure and Funding Analysis is a note to the Financial Statements, however, it is positioned here as it provides a link from the figures reported in the Narrative Report to Comprehensive Income and Expenditure Statements (CIES). The Note shows how the Council has used available funding in providing services, in comparison with those resources that the Council has consumed or earned in accordance with generally accepted accounting practices.

accepted accounting practices.

Signed:

Date: 12 January 2021

Annabel Scholes

Interim Director of Resources (S.151 Officer)

Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the reporting period.

The Statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing or financing activities.

The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council.

Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing by the Council).

Cash is represented by cash in hand and deposits with financial institutions repayable on notice of not more than 24 hours demand without material penalty. Cash equivalents are highly liquid investments that mature in no more than months and that are readily convertible to known amounts of cash with low risk of change in value.

		£'000	£'000
Net surplus or (deficit) on provision of services		(5,827)	2,119
Adjustments to net surplus or deficit on provision of services for non-cash movements	30	50,750	42,937
Adjustments for items included in the net surplus or deficit on the provision of services that are investing and financing activities	30	(16,401)	(17,622)
Net cash flows from Operating Activities		28,522	27,434
Investing Activities	31	(36,082)	(33,472)
Financing Activities	32	19,349	1,881
Net Increase or (decrease) in cash and cash equivalents		11,789	(4,157)
Cash and cash equivalents at the beginning of the reporting period	23	24,199	28,356
Cash and cash equivalents at the end of the reporting period	23	35,988	24,199

Notes to the Accounts

1. Accounting Policies

General Principles

The Statement of Accounts summarises the Council's transactions for the 2019/20 financial year and its position at 31 March 2020. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015. These regulations require the Statement of Accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 and the Service Reporting Code of Practice 2019/20, supported by International Financial Reporting Standards (IFRS) and statutory guidance issued under section 12 of the 2003 Act.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

The statement of accounts has been prepared on a going concern basis.

Accruals of Income & Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Council transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Rental income from the Council's housing stock is accounted for on the basis of a full year, i.e. 365 or 366 days as appropriate.

Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet; the de Minimis for accruals is £5,000. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

Cash & Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature within three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

Prior Period Adjustments, Changes in Accounting Policies & Estimates & Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e., in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

There are no changes in the accounting policies in the year.

Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- depreciation attributable to the assets used by the relevant service.
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off.
- amortisation of intangible non-current assets attributable to the service.

The Council is not required to raise Council tax to fund depreciation, revaluation and impairment losses or amortisations. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement, this provision known as the Minimum Revenue Provision (MRP), is equal to an amount calculated on a prudent basis determined by the Council in accordance with statutory guidance (England and Wales). Depreciation, revaluation and impairment losses and amortisations are therefore replaced by the contribution in the General Fund Balance (Minimum Revenue Provision), by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two. No MRP is currently charged on HRA debt, as the debt acquired in relation to the HRA, as it is outside the scope of this regime.

Events after the Balance Sheet Date

Events after the balance sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events
- those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

Exceptional Items

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expense Statement or in the notes to the account.

Government Grants & Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ring-fenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Community Infrastructure Levy

The Authority has elected to charge a Community Infrastructure Levy (CIL). The levy will be charged on new builds (chargeable developments for the Authority) with appropriate planning consent. The Council charges for and collects the levy, which is a planning charge. The income from the levy will be used to fund a number of infrastructure projects (these include transport, flood defences and schools) to support the development of the area.

CIL is received without outstanding conditions; it is therefore recognised at the commencement date of the chargeable development in the Comprehensive Income and Expenditure Statement in accordance with the accounting policy for government grants and contributions set out above. CIL charges will be largely used to fund capital expenditure. However, a small proportion of the charges may be used to fund revenue expenditure.

Investment Property

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value. As a non-financial asset, investment properties are measured at highest and best use.

Properties are not depreciated but are revalued on a five year rolling programme according to market conditions with the exception of properties with a brought forward value in excess of £500,000 as these are valued every year. Based on consultation with the valuers, any other assets which may have significant volatility in fair value are also included in the assessment. Carrying values are reviewed annually to ascertain if materially different from market values for those assets not valued in year.

Revaluation gains and losses are recognised in the Financing and Investment Income and Expenditure line within the Comprehensive Income and Expenditure Statement. However, regulations do not permit unrealised gains and losses to impact the General Fund balance. Therefore, gains and losses are reversed via the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve

Rental income is recognised in the Financing and Investment Income and Expenditure line within the Comprehensive Income and Expenditure Statement on a straight-line basis.

Group Accounts

The Code requires local authorities to consider all their interests (including those in local authorities and similar bodies) and to prepare a full set of group financial statements where they have material interests in subsidiaries, associates or joint ventures. The Council has gone through a process in line with the Code guidance flowcharts and concluded Group Accounts are required in 2019/20. Further detail on the Group boundary judgement is included in note 3 and the Group Financial statements.

Leases

The Council as Lessee

Finance Leases

Leases are classified as finance leases where the terms of the agreement transfer substantially all the risks and rewards of ownership of the leased asset. Key factors considered include the length of the lease term in relation to the economic life of the asset, present value of the minimum lease payments in relation to the asset's fair value and whether the Council obtains ownership of the asset at the end of the lease term.

For leases of land and buildings, the land and building elements are considered separately for classification.

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period).

The interest element of finance leases is charged to Financing and Investment Income and Expenditure within the Comprehensive Income and Expenditure Statement. The amount of the finance lease payment to write down the liability is included within the Minimum Revenue Provision in line with statutory guidance.

Operating Leases

All other leases are treated as operating leases.

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefiting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g., there is a rent-free period at the commencement of the lease).

The Council as Lessor

Finance Leases

Where the Council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal and replaced by a long-term debtor in the Balance Sheet valued on the future income due under the finance lease.

Operating Leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is recognised in the Comprehensive Income and Expenditure Statement on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease).

Overheads & Support Services

From 2016/17 the Code of Practice on Local Authority Accounting in the United Kingdom introduced the requirement for local authorities to report their service segments based on the way in which they operate and manage services, thereby allowing the reporting on the face of the Comprehensive Income and Expenditure Statement to align with how a local authority reports its performance internally to its management.

Corporate overhead allocations are made at the year-end and shared between users in proportion to the benefits received. However, during the year the authority reports to budget holders and members the financial performance without the impact of the corporate recharges. In deference to the intentions of CIPFA's review, the 2019/20 accounts have been reported without support cost recharges, showing support and overhead costs within their respective portfolio lines.

Fair Value Measurement

The council measures some of its non-financial assets such as surplus assets and investment properties at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability

The council measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The council uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the council's financial statements are categorised within the fair value hierarchy, as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the council can access at the measurement date
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 – unobservable inputs for the asset or liability.

Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against Council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, and retirement and employee benefits, and do not represent usable resources for the Council – these reserves are explained in the relevant policies.

Revenue Expenditure Funded from Capital under Statute (REFCUS)

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of Council tax.

The Collection Fund

The Collection Fund shows the transactions of the billing authority in relation to the collection from taxpayers and the distribution to local authorities and the Government of council tax and non-domestic rates. The Council, as a billing authority, is statutorily required to maintain a separate agency Collection Fund account, into which all transactions relating to collection of business rate and council tax income from taxpayers and distribution to local government bodies and central government are made. The Collection Fund account is accounted for separately from the General Fund.

The Council's share of council tax and business rates income is reflected in the Comprehensive Income and Expenditure Statement on an accruals basis in line with the Code. However the amount to be reflected in the General Fund is determined by regulation. Therefore there is an adjustment for the difference between the accrued income and the statutory credit made through the Movement in Reserves Statement and the Collection Fund Adjustment Account.

The cash flow statement only includes in revenue activities cash flows relating to its own share of council tax and business rates income collected. The difference between the government and the preceptors' share of the net cash collected and the net cash paid to them is included as a net movement in other liquid resources.

There are a number of Business Rates reliefs available to rate payers which are mandatory, the government funds these reliefs in full (except for Small Business Rate relief which it funds in part) via s31 grant to each authority. The s31 grant included in the CIES for the year that which is equal to the original NNDR1 estimate. Any excess over this amount is transferred to a S31 earmarked reserve and distributed in subsequent years against any deficit amounts.

Under the Business Rate Retention Scheme the government has calculated the Funding Baseline which each authority needs to fund its business as well as a Business Rate Baseline which relates to the collectable NNDR, the difference between the two will either result in an individual authority paying a tariff to, or receiving top-up from the government. In a two tier authority the County Council will be in a top-up position and the billing authority in a tariff position. The tariff or top-up is reflected in the authority's individual CIES i.e. does not go through the Collection Fund.

The authority is required to calculate whether it is in a levy or safety net position at year end. If the authority's income from NNDR and the s31 grant less the tariff paid is greater than the funding baseline then a levy is payable according to the levy formula, the percentage of levy is capped at 50%. If the authority's income from NNDR and the s31 grant less the tariff paid is less than 92.5% of the funding baseline then the authority is entitled to a safety net payment. Any levy/ safety net amounts are accrued and included in the CIES and in creditors/debtors as appropriate in the Balance Sheet.

2. Accounting Standards that have been issued but have not been adopted

At the balance sheet date, the following new standards and amendments to existing standards have been published but not yet adopted by the Code of Practice of Local Authority Accounting in the UK.

- IAS19 Employee Benefits: Amendments on the treatment of curtailment or settlements for defined pension obligation schemes. The effect of these amendments will depend on future actuarial assessments so it is not possible to determine if there will be a material impact on the Council's accounts.
- IAS28 Investments in Associates and Joint Ventures: Clarification that IFRS9 applies to long term interests in an associate or joint venture that forms part of the net investment in the associate or joint venture but to which the equity method is not applied.
- IFRS 16 Leases: This standard will require local authorities that are lessees to recognise most leases on their balance sheets as right-of-use assets with corresponding lease liabilities (there is recognition for low-value and short-term leases). CIPFA/LASAAC have deferred implementation of IFRS16 for local government to 1 April 2021. It is too early to give an accurate estimate but this is likely to have a material impact on the council's balance sheet.
- Annual Improvements to IFRS Standards 2015–2017 Cycle

3. Critical Judgments in Applying Accounting Policies

In applying the accounting policies set out in Note 1, the Council has had to make certain judgments about complex transactions or those involving uncertainty about future events. The critical judgments made in the Statement of Accounts are:

- There is a high degree of uncertainty about future funding for local government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.
- Note 18 Financial Instruments details the authority's Investment Strategy and approach to managing risk. None of the authority's investments are impaired;
- The Council has undertaken an analysis to classify the leases it holds, both as a lessee and lessor, as either operating or finance leases. The accounting policy for leases has been applied to these arrangements and assets are recognised or derecognised (as appropriate) as Property, Plant and Equipment in the Council's Balance Sheet
- The Council has reviewed all property assets in accordance with the policy for Investment Properties and classified as appropriate
- The Council has reviewed all property assets in accordance with the policy for Assets Held for Sale and reclassified as appropriate
- Insurance fund levels are maintained on advice from the council's insurance manager

The preparation of financial statements also requires management to exercise judgement in applying the council's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions or estimates are significant are disclosed below:

Property, Plant and Equipment

In determining the useful economic life of property, plant and equipment, judgement needs to be exercised in estimating the length of time that assets will be operational. Judgements are also required regarding the classification of specialist/non-specialist assets and in determining residual values.

Valuers also make a range of judgements when determining the values of assets held at fair value.

The significant assumptions applied in estimating the fair values are:

- For income producing properties, the Valuers adopted an investment approach where they applied a capitalisation rate, as a multiplier, against the current and, if any, reversionary income streams. Following market practice they construct their valuations adopting hardcore methodology where the reversions are generated from regular short-term uplifts of market rent. They would normally apply a term and reversion approach where the next event is one which fundamentally changes the nature of the income or characteristics of the investment. Where there is an actual exposure or a risk thereto of irrecoverable costs, including those of achieving a letting, an allowance is reflected in the valuation;
- The assessment of rental values is formed purely for the purposes of assisting in the formation of an opinion of capital value and is generally on the basis of Market Rent, as defined in “the Red Book”. Where circumstances dictate that it is necessary to utilise a different rental value in the capital valuation, the valuers will generally set out the reasons for this in their report;
- Vacant buildings, in addition to the above methodology, may also be valued and analysed on a comparison method with other capital value transactions where applicable; and
- Owner-occupied properties are valued on the basis of existing use value, thereby assuming the premises are vacant and will be required for the continuance of the existing business. Such valuations ignore any higher value that might exist from an alternative use.

Investment Properties

IAS 40 *Investment properties* (“IAS 40”) requires that properties are classified as investment properties where they are held for the purpose of capital appreciation or to earn rentals. To comply with IAS 40, judgement needs to be exercised in determining whether these properties should be classified as investment properties in accordance with IAS 40. As investment properties are valued at fair value with movements in the fair value being recorded in the income statement this could have a significant effect on the reported surplus or deficit of the Council.

Post Retirement Benefits

Pensions liability – the estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. Actuaries are engaged to provide the Authority with expert advice about the assumptions to be applied. The assumptions made and sensitivity analyses are provided in note 45.

Group Boundaries

The Code of Practice requires local authorities with interests in subsidiaries, associated and joint ventures to prepare group accounts in addition to their own single entity financial statements, unless the interest is not material.

The group boundaries have been estimated using criteria associated with the Code of Practice and the following relationships determined:

Norwich Regeneration Limited	Subsidiary	Consolidated
NPS Norwich Ltd	Associate	Consolidated
Norwich Norse (Environmental) Limited	Associate	Consolidated
Norwich Norse (Building) Limited	Associate	Consolidated
Three Score Open Space Management Limited	Subsidiary	Not Material
Norwich City New Co Ltd	Subsidiary	Not Material

Due to the material levels of transactions going through Norwich Regeneration Ltd (NRL) in 2019-20, consolidated group accounts have been prepared. As a subsidiary, the accounts of NRL have been consolidated with those of the Council on a line by line basis, and any balances and transactions between parties have been eliminated in full.

4. Assumptions made about future and other major sources of estimation uncertainty

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for the revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates.

Covid-19 and Valuation Uncertainty

In applying the Royal Institute of Chartered Surveyors (RICS) Red Book Global, the valuer has declared a 'material valuation uncertainty' in the valuation report used in carrying out this assessment. This is on the basis of uncertainties in markets caused by COVID-19. With the valuer having declared this material valuation uncertainty, the valuer has continued to exercise professional judgement in providing the valuation and this remains the best information available for Norwich City Council.

The council holds other land and buildings with a net book value of £129m – of which £31m are specialised assets on depreciated replacement cost (DRC) basis and the remainder non-specialised assets on either an existing use value (EUV) or fair value (FV) basis. The council holds investment property with a net book value of £106m – all of which is valued on a fair value basis.

EUV is an estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction, after proper marketing, DRC refers to specialised assets which are valued on a depreciated replacement cost basis e.g. community centres. Here the valuer bases their assessment on the cost to replacing the service potential of the assets, whereas Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In order for the valuer to arrive at their conclusions, the valuer has undertaken a full portfolio review of all investment properties and other land and building within the following categories:

- Offices
- Other
- Parking
- Community centres
- Industrial
- Retail
- Residential
- Development Land

It is the opinion of the valuer that there has been little change in the office sector as there is a sense of 'wait and see', material effects as a result of Covid-19 on the residential sector are considered to be minimal and having no significant impact as at 31st March 2020, within the residential and industrial, time will indicate what impact Covid-19 has had on the rental market and therefore in the opinion of the valuer there has been no change in the short time period to 31st March 2020. There has been no significant reduction in the occupancy, use and demand for Norwich City Council properties as a result of Covid-19.

The review by the valuers has assessed the material valuation uncertainty classification still applies to some properties in the retail and leisure sectors. This is because the use of these premises is still currently restricted and there is an absence of relevant/sufficient market evidence on which to base the judgements. Based on the portfolio review, the conclusion of the valuer and council is that MVU clause is still applied to properties valued at £29.4m.

The other key judgements and estimation uncertainty that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year are:

Items	Uncertainties	Effect if Actual Results differ from Assumptions
Business Rates	<p>Since the introduction of the Business Rates retention Scheme in April 2013, Local Authorities are liable for successful appeals against business rates charged to business in 2019/20 and earlier financial years in their proportionate share. As at the 31 March 2020 108 appeals remain outstanding relating to the 2010 rating list. A provision has been recognised for the best estimate of the amount that businesses have been overcharged for the period totalling £2.2m.</p> <p>Following the 2017 revaluation, a new check, challenge and appeal process has been introduced by the Valuation Office Agency; the impact of which is highly uncertain with only 90 challenges lodged to date (of which 60 are outstanding at 31 March 2020). A provision has been made for the estimated success of future appeals from the 2017 list of £5.15m which equates to 6.5% of annual net rates payable. A 1% increase in the coverage for the 2017 list would increase the provision by £0.8m.</p>	Should the outstanding appeals be successful, the amount owed to businesses may be more than estimated, in which case the proportionate share of this would require an increase to the provision. However there may be appeals that are not successful or they may be successful but the amount owed to businesses be less than estimated, which would result in a reduction in the appeals provision.
Property, Plant and Equipment (excluding Housing Stock) £146.5m	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Council will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.	If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls. It is estimated that the annual depreciation charge for assets would increase by £0.319m for every year that useful lives had to be reduced.
Property, Plant and Equipment (excluding Housing Stock) £146.5m	<p>Apart from infrastructure, community and assets under construction, the basis of value for all assets is Current Value. Current value may be either the Existing Use Value, Depreciated replacement Cost or Fair Value depending on the property type and classification.</p> <p>Of the balance £30.936m (21%) of assets are held at depreciated replacement cost (DRC). This method is used where there is no established property market which would enable a reliable valuation by any other method.</p>	Property values are affected by a number of factors and a 1% change in the assumed valuation of other land and buildings and surplus assets totalling £128.698m would equate to £1.28m.

Items	Uncertainties	Effect if Actual Results differ from Assumptions
Pensions Liability £169.6m	<p>Estimation of the net liability to pay pensions depends on a number of complex judgments relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets.</p> <p>A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.</p> <p>The liability valuation includes a past service cost for the estimated impact of legal rulings on Transitional Protection Arrangements and Guaranteed Minimum Pension (GMP). Further details are provided in Note 45.</p> <p>The ongoing impact of the Covid-19 pandemic has created uncertainty surrounding illiquid asset values. As such, the Pension Fund property and infrastructure allocations as at 31 March 2020 are difficult to value according to preferred accounting policy. As such values have been rolled over from the end of February with an adjustment and may be inaccurate to the true 31 March 2020 position.</p>	The sensitivities resulting in an impact on the Council's finances are disclosed in Note 45.
Arrears	At 31 March 2020, the Council had a balance of sundry debtors for £3.9m. A review of significant balances suggested that an impairment of doubtful debts ranging from 10% to 100% was appropriate. However, in the current economic climate it is not certain that such an allowance would be sufficient.	If collection rates were to deteriorate, an increase in the amount of the impairment for doubtful debt would be required.
Housing Stock £783.5m	The housing stock is not individually componentised, for valuation purposes a beacon approach is used with the assumption that the beacon property is fully upgraded. Each property in that beacon is then reduced by percentages for each component that is not upgraded.	<p>The percentages used to reduce the value may not reflect the true depreciated value of the individual components.</p> <p>The valuation of housing stock may be under or overstated Property values are affected by a number of factors - a 1% change in the assumed valuation would equate to £7.835m.</p>

Items	Uncertainties	Effect if Actual Results differ from Assumptions
Housing Stock £783.5m	The housing stock is not individually componentised, for depreciation purposes council dwellings have their individual components identified as to date of upgrade and using the asset life as advised by the council's valuers, the depreciation associated with each properties components is calculated.	The use of standard lives to calculate components and assumption of full depreciation on components not upgraded may not be valid. The depreciation of council dwellings may be under or overstated The depreciation charge is £14.729m. It is estimated that the annual depreciation charge for assets would increase by £0.359m for every year that useful lives had to be reduced.
Fair value measurement of investment property	The Council's external valuers use valuation techniques to determine the fair value of investment property. This involves developing estimates and assumptions consistent with how market participants would price the property. The valuers base their assumptions on observable data as far as possible, but this is not always available. In that case, the valuers use the best information available. Further information about the valuation techniques and inputs used in determining the fair value of the council's assets and liabilities is disclosed in Note 16.	The total value of investment properties is £105.7m. Of this £83.4m (79%) is a Level 2 valuation and £22.3m (21%) Level 3 valuation. Level 3 valuations use significant unobservable inputs to determine the fair value measurements. Significant changes in any of the unobservable inputs would result in a significantly lower or higher fair value measurement for investment properties and financial assets A 1% change in the assumed valuation of investment property would equate to £1.057m
Britain leaving the European Union: asset values and pension liabilities	There is still uncertainty about the implications of Britain's departure from the European Union. At the current time it is not possible to predict the agreement that will be reached at the end of the transition period. The assumption has been made that this will not significantly impair the value of the Council's assets or change the discount rate. However, this assumption needs to be revisited and reviewed regularly.	Higher impairment allowances may need to be charged in the future if asset values fall. If the discount rate changes, the size of the net pension liability will also vary.

5. Material Items of Income and Expense

During 2019/20 NRL repaid loans of £0.9m and £5.1m (2018/19: £0), and the Council loaned a further £3.0m to NRL (2018/19: £0.9m), leaving a net balance of £9.4m outstanding at the end of the financial year (2018/19 £12.4m).

The Council has made five material purchases of commercial investment properties during the 2019/20 financial year. The total acquisition costs for the three purchases totalled £41.2m. During the period the Council has finished an extension to one of its commercial properties, the costs included with Investment Property additions is £0.8m.

During April 2019 the Council's Housing Revenue Account purchased 31 dwellings at Rayne Park at a cost of £7.0m. The properties were purchased from the Council's wholly-owned subsidiary Norwich Regeneration Limited and will be used as social housing.

6. Expenditure and Income by Nature

The authority's expenditure and income is analysed as follows:		
	2019/20	2018/19
Income	£000	£000
Fees, charges and other service income	(92,631)	(91,543)
Interest and investment income	(6,132)	(5,077)
Authority's share of income from Council Tax and Non-Domestic Rates	(41,981)	(40,332)
Government grants and contributions	(8,495)	(7,405)
Gain on disposal of non-current assets	(6,242)	(3,365)
Housing Benefit contributions and allowances	(49,073)	(56,798)
Total	(204,553)	(204,521)
Expenditure		
Employee benefits expenses	27,190	30,729
Pension Interest cost and expected return on assets	4,912	4,995
Other service expenses	60,258	55,001
Depreciation, amortisation, revaluation and impairment	30,904	19,453
Interest payments	8,236	8,161
Payments to Housing Capital Receipts Pool	1,097	1,097
Housing Benefit expenditure	49,604	56,745
Non-Domestic rates levy	28,181	26,221
Total	210,382	202,402
(Surplus) or deficit on the Provision of services	5,829	(2,119)

7. Segmental Income

Income received on a segmental basis is analysed below:		
	2019/20	2018/19
	£000	£000
Revenue from External customers	(97,563)	(95,384)
Other Income	(106,990)	(109,137)
Total Income	(204,553)	(204,521)

8. Events after the Reporting Date

The statement of accounts were authorised for issue by the Interim Director of Resources (S.151 Officer) on 12 January 2021. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2020, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

Joint Ventures

On 8 July 2020 Norwich City Council took the decision not to extend the current joint venture arrangements with NPS Norwich and Norwich Norse Building beyond March 2022. The property and estates management service will be transferred into the council and the housing and non-housing repairs and maintenance service to be provided through a contract with the wholly owned council company - Norwich City Services Ltd. The total annual value of the spend with the two joint ventures is £15.7m. This follows the decision in 2018-19 to end the joint venture arrangement with Norwich Norse Environmental in March 2021.

Norwich City Services Ltd was incorporated on 9 June 2020. The company will deliver environmental services and repairs and maintenance services. The environmental service operations are due to commence from 1 April 2021.

Loans to Wholly Owned Companies

Since 1 April 2020 the Council has advanced additional loan finance to its wholly owned company, Norwich Regeneration Ltd, of £5.85m. This is to support the construction of new homes at the Threescore development. This increases the overall loan balance with the company to £15.25m.

On 21 July Council approved a loan to Norwich City Services Ltd of £1.140m to create a depot facility, this is yet to be drawn down by the company. A working capital loan facility of £0.7m between Norwich City Council and the company has also been agreed, of which £0.5m has been drawn down by the company.

Equity Investment in Wholly Owned Companies

Since 1 April 2020 the Council has provided additional cash equity to Norwich Regeneration Ltd of £1.55m. This is to support the construction of new homes at the Threescore development. This increases the overall long term equity investment in the company to £4.27m.

On 21 July Council approved a cash equity investment into Norwich City Services Ltd of £0.37m. This payment was made to the company in August 2020.

9. Adjustments between Accounting Basis and Funding Basis under regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure

The following sets out a description of the reserves that the adjustments are made against.

General Fund Balance

The General Fund is the statutory fund into which all the receipts of an authority are required to be paid and out of which all liabilities of the authority are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year— however, the balance is not available to be applied to funding HRA services.

Housing Revenue Account Balance

The Housing Revenue Account Balance reflects the statutory obligation to maintain a revenue account for local authority council housing provision in accordance with Part VI of the Local Government and Housing Act 1989. It contains the balance of income and expenditure as defined by the 1989 Act that is available to fund future expenditure in connection with the Council's landlord function or (where in deficit) that is required to be recovered from tenants in future years.

Major Repairs Reserve

The Authority is required to maintain the Major Repairs Reserve. The MRR is restricted to being applied to new capital investment in HRA assets or the financing of historical capital expenditure by the HRA. The balance shows the MRR that has yet to be applied at the year-end.

Capital Receipts Reserve

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for

Capital Grants Unapplied

The Capital Grants Unapplied Account (Reserve) holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

Norwich City Council - 2019-20 Statement of Accounts

2019/20	General Fund Balance	Housing Revenue Account	Capital Receipts Reserve	Major Repairs Reserve	Capital Grants Unapplied	Movement in Usable Reserves	Movement in Unusable Reserves

10. Transfers to/from Earmarked and Other Reserves

This note sets out the amounts set aside from the General Fund and HRA balances in earmarked reserves to provide financing for future expenditure plans and the amounts posted back from earmarked reserves to meet General Fund and HRA expenditure in 2019/20 and 2018/19

The following sets out a description of the reserves;

Insurance Reserve

The Insurance Reserve was established to cover the excesses carried in respect of claims under various insurance policies, particularly public and employers' liability, subject to periodic review of the appropriate level at which any 'stop-loss' arrangements apply.

An evaluation of the balance on the Insurance Reserve has been undertaken and the amount set aside to cover the uninsured risks at 31 March 2020 is based on the assessed liability. Included within this balance is an amount to cover potential liabilities following the trigger of the Municipal Mutual Insurance Limited (MMI) Scheme of Arrangement.

S31 Earmarked Reserve

Central government compensates local authorities for changes to business rates reliefs. This compensation is made outside of the rate retention scheme by means of a Section 31 (S31) grant directly to the general fund. The S31 Earmarked Reserve holds the unused balance of the S31 grant monies received in 2018/19 and 2019/20. These monies will be transferred to the General Fund Reserves in future years to mitigate the delayed impact of deficits on the NNDR Collection Fund as properly accounted for under regulation.

Similar transfers in and out of the reserve will take place each year whilst the S31 grant is received.

Revenue Grants Unapplied Reserves

This reserve is the balance of revenue grant income received that has no conditions applied to it, but where the grant has yet to be applied and there are restrictions as to how the monies are to be applied. This ensures that amounts are set aside from the General Fund and the Housing Revenue Account balances to provide financing to meet the requirements of the grant. The amounts set aside will be transferred back to meet General Fund and Housing Revenue Account expenditure in future years, the transfer being accounted for in the Movement in Reserves Statement within the transfers to/or from Earmarked reserves line.

Invest to Save Reserves

The Invest to Save Reserves for both the General Fund and Housing Revenue Account were set up to support the delivery of savings and efficiencies through the Transformation Programme. The reserve is expected to be utilised to support the implementation of a new operating model and IT investment over the next 2-3 years.

Commercial Property Reserve

The Council has a significant and increasing investment property portfolio. The Commercial Property Reserve has been created using a proportion of the net income generated from the investment properties during the year and will be used to provide funding for any future void and rent free periods as well as any repairs/upgrades required to the property. The reserve will help to safeguard the future value of the investment properties and the rental income stream, thereby minimising the risk of holding these assets and of fluctuations in the income return. It is planned that the reserve will continue to be built up as the investment portfolio grows.

Norwich Regeneration Ltd Reserve

The Council has a commercial loan of £9.4m (2018/19 £12.4m) with its wholly-owned subsidiary Norwich Regeneration Ltd (NRL). The company is using the loan to finance its house building at the Three Score site and the Council receives an income stream through the loan interest payments.

An earmarked reserve has been set up to smooth any fluctuations in net income received by the Council from the lending to NRL. It will also provide a buffer in case the company is unable to repay the loan balance in full and the council is then required to make minimum revenue provision payments.

Elections Reserve

This is to provide future funding for council election costs which vary each year according to the differing local and national elections cycles.

General Fund Repairs Reserve

This is to provide future funding for required maintenance on general fund properties, the costs of which can vary each year according to the differing repairs requirements.

	Balance at 31 March 2018	Transfers Out 2018/19	Transfers In 2018/19	Balance at 31 March 2019	Transfers Out 2019/20	Transfers In 2019/20	Balance at 31 March 2020

	£'000	£'000
Council tax income	(9,714)	(9,401)
Non domestic rates income and expenditure	(32,266)	(30,931)
Non-ring fenced government grants	(4,368)	(4,760)
Capital grants and contributions	(4,127)	(2,646)
Business Rates - Tariff & Levy	28,181	26,221
Total	(22,294)	(21,517)

14. Property Plant and Equipment

Accounting Policy

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e., repairs and maintenance) is charged as an expense when it is incurred.

The de minimis level for accounting for expenditure as capital is £5,000.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management

The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e., it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure, community assets and assets under construction – depreciated historical cost
- dwellings – fair value, determined using the basis of existing use value for social housing (EUV-SH)
- all other assets – fair value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV)

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Gains are credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Componentisation

The 2019/20 CIPFA Code of Practice on Local Authority Accounting states that each part of an item of Property, Plant and Equipment (PP&E) with a cost that is significant in relation to the total cost of the item shall be depreciated separately, applied from 1 April 2010 onwards. Where there is more than one significant part of the same asset which has the same useful life and depreciation method, such parts may be grouped in determining

the depreciation charge. In adopting the Code, the Authority has developed the following Componentisation Policy using the approach set out in LAAP bulletin 86:

- Assets within PP&E, excluding Council dwellings with a carrying value of £1m and below, will be disregarded for componentisation as the impact upon the reported cost of service is not considered material.
- Assets, excluding Council dwellings that are above the £1m de-minimis threshold will be componentised where the cost of the component:
 - i) Is significant in relation to the overall total cost of the asset and
 - ii) Has a different useful life and/or method of depreciation to the main asset.

This policy excludes land assets which are already identified separately.

Council dwellings are not individually componentised. The valuation of dwellings is based on a beacon approach using the assumption that the beacon property is fully upgraded. Each property in that beacon has a reduction in value, as a percentage, for each component that is not upgraded.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e., assets under construction).

Depreciation is calculated on the following bases:

- Dwellings – from 1st April 2012 depreciation is calculated based on the useful life of the individual components of the dwelling (30-60 years)
- Other buildings – straight-line allocation over the useful life of the property as estimated by the valuer (30-100 years)
- Vehicles – a percentage of the value of each class of assets in the Balance Sheet, as advised by a suitably qualified officer (25% carrying amount)
- Infrastructure – straight-line allocation of between 25-40 years.
- Plant, furniture & equipment – straight line allocation over the useful life of asset (3-25 years)

Where an item of Property, Plant and Equipment assets has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals & Non-Current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale.

The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previous losses recognised in the Surplus or Deficit on Provision of Services.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal.

Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals (75% for dwellings, 50% for land and other assets, net of statutory deductions and allowances) is payable to the Government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against Council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Valuations

The Council operates a 5-year rolling programme of revaluations in relation to land and buildings except for revaluation of Housing Revenue Account Assets which is carried out on an annual basis. The assets are valued by our external valuers NPS Property Consultants Ltd.

Current year valuations were carried out by:

Gillian Knox MRICS (NPS)

Deborah O'Shea MRICS (NPS)

Grant Brewer MRICS (NPS)

HRA Dwellings

The date of valuation is 31 March 2020.

The valuers undertook a full revaluation at 31 March 2016. The valuations were undertaken in accordance with the RICS Valuation – Professional Standards 2012 as published by the Royal Institution of Chartered Surveyors.

For each operational asset, that is, those held, occupied and used by the Council in the direct delivery of services for which the Council has either a statutory or a discretionary responsibility, a Current Value Existing Use Value (EUV) has been provided, except in the case of housing stock where Existing Use Value for Social Housing is appropriate (EUV-SH). EUV-SH assumes the property is let for its existing use as social housing.

EUV-SH valuations are arrived at by means of a beacon approach. The beacons are valued on the additional assumptions that there is no potential residential redevelopment of the site or intensification of use. They are then adjusted by a regional adjustment factor, in this case for the Eastern region at 62% (2017/18 62%), to arrive at EUV-SH to reflect the fact that sitting tenants enjoy rents lower than market rents and tenants' rights including Right to Buy.

Any reference to Existing Use Value is not recognised under International Financial Reporting Standards and the use of Existing Use Value (Social Housing) is a departure from International Accounting Standards. This departure is in accordance with current CIPFA and DCLG guidance

Under paragraph 4.1.2.40 of the Code, if an item of property comprises two or more significant components with substantially different useful lives, then each component is treated separately for depreciation purposes and depreciated over its individual lives.

Due to the onerous amount of work that would be involved in componentising all the council dwellings, this has not been done. However for valuation purposes, the property used as the beacon in each beacon type, are fully upgraded. For all other dwellings in the beacon; a percentage reduction is made for each component that has not been upgraded. The percentage reduction is that advised by the Council's valuers.

The valuations are made on the following assumptions:

- That no high alumina cement, asbestos, or other deleterious material was used in the construction of any property and that none has been subsequently incorporated.
- That the properties are not subject to any unusual or especially onerous restrictions, encumbrances or outgoing and that good title can be shown.
- That the properties and their values are unaffected by any matters which would be revealed by a local search or inspection of any register and that the use and occupation are both legal.
- That inspection of those parts which have not been inspected would not cause us to alter our opinion of value.
- That the land and properties are not contaminated, nor adversely affected by radon.

- That no allowances have been made for any rights obligations or liabilities arising from the Defective Premises Act 1972.

HRA Non-Dwellings

The date of valuation is 31 March 2020.

The valuers undertook a full revaluation at 31 March 2016. The valuations were undertaken in accordance with the RICS Valuation – Professional Standards 2012 as published by the Royal Institution of Chartered Surveyors.

Apart from infrastructure, community and assets under construction, the basis of value for all assets is Current Value. Current value may be either the Existing Use Value, Depreciated replacement Cost or Fair Value depending on the property type and classification.

EUV is used only for valuing property that is owner-occupied. Fair value is used to value property held as surplus assets or properties held for sale.

In accordance with changes brought about by the HRA item 8 post- transition outcomes, Impairment and valuation losses not covered by revaluation reserve in relation to HRA non-dwellings can now be reversed in the same way as losses for dwellings. This is a change, as under transition any such losses for non-dwellings could not be reversed and therefore impacted on the HRA balance in full.

As with dwellings, valuation gains for non-dwellings, where taken to the HRA income and expenditure statement, can also be reversed under the new Determination, again by a transfer to the CAA via the movement in reserves statement. Note that this change has been applied prospectively from 1 April 2017 only.

General Fund Assets

The date of valuation is 1 April 2019.

The Council carries out a rolling programme that ensures that all Property, Plant and equipment required to be measured at current value is revalued at least every five years. Valuations are carried out by the Council's external valuers, NPS Property Consultants Ltd, in accordance with the methodologies and bases for estimation set out by the Royal Institution of Chartered surveyors.

Apart from infrastructure, community and assets under construction, the basis of value for all assets is Current Value. Current value may be either the Existing Use Value, Depreciated replacement Cost or Fair Value depending on the property type and classification.

EUV is used only for valuing property that is owner-occupied. Fair value is used to value property held for investment purposes, surplus assets or properties held for sale.

The valuation cycle fluctuated due to asset reclassifications, disposals and additions and any additional revaluations which occur due to the portfolio review and impairment review.

Norwich City Council - 2019-20 Statement of Accounts

15. Heritage Assets

Heritage assets are assets with historic, artistic, scientific, technological, geophysical or environmental qualities which are held and maintained principally for their contribution to knowledge & culture.

Museums collections

The museums are run by the Norfolk Museums & Archaeology Service (NMAS) which is regarded as one of the leaders in the museum sector.

The Council's heritage assets are relatively static, and significant acquisitions and donations are rare. Where they do occur acquisitions are initially recognised at cost and subsequently at valuation where available.

Material disposals are rare. However, any disposals are accounted for in accordance with the Council's accounting policies on property, plant and equipment. The proceeds of disposals, if any, are accounted for in accordance with the Council's general provisions relating to the disposal of property, plant and equipment.

Heritage Buildings

There are a number of buildings within the city which are considered to be of significant historical value.

Where the buildings have an operational use, as offices or museums for instance, they are classified as operational assets and are depreciated and valued on a rolling five year program.

Four of the buildings are considered to be heritage assets and in the category of National Treasures. These are assets which are incapable of meaningful valuation, in that there is no recognised method of traditional valuation which gives any degree of accuracy. Therefore these assets are held at nil value.

Civic Plate & Regalia

The Council owns a large collection of Civic Plate and Regalia which date back to the 19th century. This collection is stored, managed and cared for on behalf of the Council by NMAS in line with County Council and National Museums standards. The collection of Civic Plate and Regalia is reported in the Balance Sheet at market value. Individual items in the collection are periodically revalued by an external valuer with any surplus being credited to the revaluation reserve. Any deficit on revaluation, after utilisation of any revaluation reserve in respect of the individual asset, is reported in the Comprehensive Income and Expenditure Statement. The Civic Plate and Regalia collection are deemed to have indeterminate lives and a high residual value; hence the Council do not consider it appropriate to charge depreciation.

Paintings

The Council owns a collection of paintings which are stored, managed, insured, valued and cared for on behalf of the Council by NMAS in line with County Council and National Museums standards. The collection of paintings is reported in the Balance Sheet at insurance value. Individual items in the collection are periodically revalued by an external valuer with any surplus being credited to the revaluation reserve. Any deficit on revaluation, after utilisation of any revaluation reserve in respect of the individual asset, is reported in the Comprehensive Income and Expenditure Statement. The collection of paintings is deemed to have indeterminate lives and a high residual value; hence the Trustees do not consider it appropriate to charge depreciation.

Sculptures and Bronzes

The Council owns 25 sculptures and bronzes which are situated in external locations around the city. The Sculptures and Bronzes are reported in the Balance Sheet at insurance value and are periodically revalued by an external valuer with any surplus being credited to the revaluation reserve. Any deficit on revaluation, after utilisation of any revaluation reserve in respect of the individual asset, is reported in the Comprehensive Income and Expenditure Statement.

Statues, Architectural Ornamentation, Plaques, Fountains etc

The Council owns 60 of the above which are situated in external locations around the city. The assets are reported in the Balance Sheet at insurance value and are periodically revalued by an external valuer with any surplus being credited to the revaluation reserve. Any deficit on revaluation, after utilisation of any revaluation reserve in respect of the individual asset, is reported in the Comprehensive Income and Expenditure Statement

31st March 2020	8,078	4,675	6,930	2,457	3,413	25,553

Valuations

The Council's external valuer (Christopher Hartop and Juliet Nusser) carried out a full valuation of the collection of civic plate and regalia as at 31 January 2014. The valuations were based on commercial markets, including recent transaction information from auctions where similar types of silverware are regularly being purchased. . A review of these valuations was completed as at 31 January 2019 to ensure that they remain current, in accordance with the code requirements. No changes to the valuations were required.

There are two particularly significant exhibits within the collection which are:

- The Reade Salt - A rare and important Elizabeth I silver-gilt standing or drum salt (William Cobbold I 1568), valued by our external valuers as £2.5m

- The Howard Ewer and Basin - An early 17th century silver-gilt ewer and basin or rosewater dish (1617), valued by our external valuers as £2.0m

At any time approximately 50 percent of the collection of regalia and civic plate are on display in Shirehall museum, 34 percent in the Castle Museum and 15 percent in public meeting rooms at City Hall.

The Council's external valuer (Bonhams Fine Art Valuer and Auctioneers) carried out a full valuation of the collection of paintings, sculptures, bronzes, statues, plaques, fountains, memorials etc as at 31 March 2012.

In accordance with the accounting code a full valuation every five years is not required as there is no prescribed minimum period between valuations however, the code includes a requirement that authorities review the carrying amounts of these heritage assets carried at valuation with sufficient regularity to ensure they remain current.

In 2016-17 a review of the valuations was carried out by Bonhams who advised that the only piece that would need updating at this stage would be the Barbara Hepworth which was last valued at £1.3m. The Modern British Art specialists have provided an up-to-date auction estimate of £3.0m - £5.0m and for insurance suggested £6.0m.

A particularly significant exhibit within the collection is the portrait of Sir Harbord Harbord by Gainsborough. The portrait has been valued by an external valuer at £2.5m.

At any time approximately 17 percent of the collection of paintings are on display in the Castle Museum, 19 percent in Blackfriars Hall, 10 percent in public meeting rooms at City Hall, 9 percent in St Andrews Hall and 5 percent in Strangers Hall. The remaining items are held in storage but access is permitted to scholars and others for research purposes.

The Heritage buildings valuations were also reviewed by NPS in 2016 -17 who advised that no revaluations were required

In 2017/18 a review of the specialist valuation for the Gurney Clock was completed by Michlmayr Clock and Watchmakers Ltd. As a result of this the valuation is now £490k.

16. Investment Properties

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement

	2019/20	2018/19
	£000	£000
Rental income from investment property	(4,932)	(3,841)
Direct operating expenses arising from investment property	1,285	1,187
Net (gains)/losses from fair value adjustments	3,594	2,697
Total	(53)	43

There are no restrictions on the Authority's ability to realise the value inherent in its investment property or on the Authority's right to the remittance of income and the proceeds of disposal. The Authority has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance or enhancement. The following table summarises the movement in the fair value of investment properties over the year:

	2019/20	2018/19
	£000	£000
Balance at start of the year	65,931	56,729
Additions	43,112	19,722
Disposals	-	(4,061)
Net gains / (losses) from fair value adjustments	(3,594)	(2,697)
Transfers (to) / from Property, Plant & Equipment	228	(3,871)
Transfers (to) / from Long Term Debtors	-	109
Balance at end of year	105,677	65,931

The Additions figure in the table above includes expenditure on new investment property and on an extension to a current investment property Barnet House, Corby.

The revaluation gains are reversed out in the movement in Reserve Statement so as to have no impact on Council Tax requirement.

The introduction of IFRS 13 fair value measurement from 1 April 2015 resulted in a change in the classification of properties into different 'levels' which are based on the relevant fair value hierarchy.

Investment Property Fair Value Hierarchy

Details of the authority's investment properties and information about the fair value hierarchy as at 31 March 2020

	Other significant observable inputs (level 2)	Significant unobservable inputs (level 3)	Fair value as at 31 March 2020
	£000	£000	£000
Recurring fair value measurements using:			
Industrial	30,632	10,226	40,858
Offices	12,622	3,583	16,205
Other	26,144	6,799	32,943
Residential	1,131	-	1,131
Retail	12,869	1,672	14,541
Total	83,398	22,280	105,678

Investment Property Fair Value Hierarchy			
Details of the authority's investment properties and information about the fair value hierarchy as at 31 March 2019			
Recurring fair value measurements using:	Other significant observable inputs (level 2)	Significant unobservable inputs (level 3)	Fair value as at 31 March 2019
	£000	£000	£000
Industrial	7,568	10,186	17,754
Offices	6,285	920	7,205
Other	21,863	3,610	25,473
Residential	1,131	-	1,131
Retail	14,302	66	14,368
Total	51,149	14,782	65,931

There were no transfers between Levels 1 and 2 during the year.

Valuation techniques used to determine Level 2 and 3 Fair values for Investment Properties

Valuation techniques used to determine Level 2 fair values for Investment Properties

The fair value of Level 2 investment property has been measured using a market approach, which takes into account comparable evidence for similar transactions, for similar properties in similar locations, with yields chosen by comparison to similar transactions adjusted to allow for factors such as lease terms, strength of covenant, rent review periods and other lease clauses, voids, etc.

There are significant observable inputs, including physical inspection of location, size, accommodation, facilities, suitability etc. detailed lease terms, strength of covenant, general repair and condition together with yield evidence from comparable transactions.

Valuation techniques used to determine Level 3 fair values for Investment Properties

The fair value of level 3 investment property, valuations have been based on comparable transactions to calculate gross development costs and gross development values to arrive at a residual land value.

The following factors have been also been taken into account: location and topography, title and legal constraints, planning advice, access and ground conditions.

The authority's Investment properties categorised as Level 3 in the fair value hierarchy due to the fact that the measurement technique uses significant unobservable inputs to determine the fair value measurements (and there is no reasonably available information that indicates that market participants would use different assumptions).

Highest and Best use of Investment Properties

In estimating the fair value of the Authority's investment properties, the highest and best use of the properties is deemed to be their current use.

Valuation Techniques

There has been no change in the valuation techniques used during the year for investment properties.

Reconciliation of fair value measurements (using significant observable inputs) categorised within Level 2 of the fair value hierarchy

	2019/20					
	Industrial	Offices	Other	Residential	Retail	Total
Investment Properties Level 2	£000	£000	£000	£000	£000	£000

Additions	29	-	819	-	-	848
Disposals	(281)	-	-	-	-	(281)
Balance at end of year	10,186	920	3,610	-	66	14,781

Gains or losses arising from changes in the fair value of the investment property are recognised in surplus or deficit on the provision of services – financing and investment income and expenditure line.
The transfers into level 3 followed reassessment by the valuers.

Valuation process for Investment Properties

The fair value of the council's investment property is valued in a five year rolling programme; except for the year ended 31 March 2016 the whole portfolio was valued as at 1 April 2015 following the introduction of IFRS13. All valuations are carried out by our external valuers NPS Property Consultants Ltd. All valuations are carried out in accordance with methodologies and bases for estimation set out in the professional standards of the Royal Institute of Chartered Surveyors.

Current year valuations were carried out by:

Gillian Knox MRICS (NPS)
Deborah O'Shea MRICS (NPS)

17. Intangible Assets

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets are purchased software and licenses. The software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Council.

The carrying amount of intangible assets is amortised on a straight-line basis. Of the amortisation of £167,967 charged to revenue in 2019/20, £159,199 related to software and all charges were made to the General Fund.

The movement on Intangible Asset balances during the year is as follows:

	2019/20	2018/19
	£000	£000
Balance at the start of the year		
· Net carrying amount	573	603
· Additions	218	227
· Disposals	(2)	-
Amortisation for the period	(168)	(257)
Disposals	-	-
Net Carrying amounts at the end of the year	621	573
Comprising:		
· Gross carrying amount	2,150	1,934
· Accumulated amortisation	(1,529)	(1,361)
	621	573

18. Financial Instruments

Accounting Policy

Financial instruments are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument. They are classified based on the business model for holding the instruments and their expected cashflow characteristics.

Financial Liabilities

Financial liabilities are initially measured at fair value and subsequently measured at amortised cost. For the Council's borrowing this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest).

Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument.

Financial Assets

To meet new Code requirements, financial assets are now classified into one of three categories:

- Financial assets held at amortised cost. These represent loans and loan-type arrangements where repayments or interest and principal take place on set dates and at specified amounts. The amount presented in the Balance Sheet represents the outstanding principal received plus accrued interest. Interest credited to the CIES is the amount receivable as per the loan agreement.
- Fair Value Through Other Comprehensive Income (FVOCI) – These assets are measured and carried at fair value. All gains and losses due to changes in fair value (both realised and unrealised) are accounted for through a reserve account, with the balance debited or credited to the CIES when the asset is disposed of.
- Fair Value Through Profit and Loss (FVTPL). These assets are measured and carried at fair value. All gains and losses due to changes in fair value (both realised and unrealised) are recognised in the CIES as they occur.

The authority's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

Expected Credit Loss Model

The authority recognises expected credit losses on all of its financial assets held at amortised cost or where relevant FVOCI, either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the authority.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

The authority has a portfolio of a significant number of Decent Homes Loans and Home Improvement Loans to local residents. It does not have reasonable and supportable information that is available without undue cost or effort to support the measurement of lifetime expected losses on an individual instrument basis. It has therefore assessed losses for the portfolio on a collective basis.

Financial Assets Measured at Fair Value through Other Comprehensive Income

At initial recognition, an authority may make an irrevocable election to present in Other Comprehensive Income and Expenditure subsequent changes in the fair value of an investment in an equity instrument within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which IFRS 3 applies. These equity instruments shall be described as being designated to fair value through other comprehensive income.

Movements in amortised cost are debited/credited to the Surplus or Deficit on the Provision of Services, but movements in fair value debited/credited to Other Comprehensive Income and Expenditure. Cumulative gains/losses on fair value are transferred to the General Fund Balance on de-recognition.

Financial Assets 2019-20

	Non-Current		Current		Total
	Investments	Debtors	Investments	Debtors	
	£000	£000	£000	£000	£000

Total financial liabilities	199,900	902	806	17,684	219,292
Non-financial liabilities	-	1,787	-	12,852	14,639
Total	199,900	2,689	806	30,536	233,931

Soft Loans

The Council has made a number of loans to residents in respect of decent home loans and home improvement loans at less than market rates (soft loans). There are a number of small loans making up the balance owing of £2.793m.

When soft loans are made, a loss is recorded in the Comprehensive Income and Expenditure Statement (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Interest is credited at a marginally higher effective rate of interest than the rate receivable from the voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the Comprehensive Income and Expenditure Statement to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account. The detailed decent home loans information is as follows:

Decent Homes Loans

	31-Mar-20	31-Mar-19
	£000	£000
Opening Balance	642	2,240
Remeasured carrying amounts at 1 April 2018 under IFRS 9	-	(1,500)
Fair value Adjustments	8	20
Loans Repaid	(45)	(118)
Balance Carried Forward	605	642
Nominal Value carried forward	2,547	2,592

The home improvement loans carrying value after fair value adjustments (minus £43K) total £203k.

Valuation Assumptions

The interest rate at which fair the fair value of this soft loan had been made is arrived at by taking the authority's prevailing cost of borrowing (5%). A review of the assets has identified a collective impairment required on the loans. These are shown within the Amounts Arising from Expected Credit Losses section of the Note.

Investments in equity instruments designated at fair value through other comprehensive income

The Council holds shares in Norwich Airport Limited and in two other companies associated with the Airport (Legislator 1656 and Legislator 1657) which originated through a policy initiative with other authorities to promote economic generation and tourism. As the asset is not held for trading or income generation, rather a longer term policy initiative the equity has been designated as fair value through comprehensive income.

The Authority has a shareholding in the Municipal Bonds Agency. The shares were subscribed to in order to fund the mobilisation and implementation phase of the Agency. As the asset is not held for trading or income generation, rather a longer term policy initiative the equity has been designated as fair value through comprehensive income. The shares are carried at cost of £100k as a proxy for fair value given the immaterial nature of the investment.

No financial assets measured at fair value through other comprehensive income have been impaired by a loss allowance.

The Council's investment in Norwich Regeneration Ltd, its wholly-owned subsidiary, remains at amortised costs as the company is included in the Council's group accounts.

	Nominal	Fair Value	Change in fair value during 2019/20	Dividends
	£000	£000	£000	£000
Norwich Airport Ltd shares	-	-	-	-
Legislator 1656 Ltd shares	-	2,028	634	365
Legislator 1657 Ltd shares	-	-	-	-
Municipal Bonds Agency shares	100	100	-	-
	100	2,128	634	365

The dividend relates to the sale of Legislator 1656's shareholding in Norwich Airport during 2019/20 and has been treated as other investment income.

Items of income, expense, gains or losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments are made up as follows:

	2019/20		2018/19	
	Surplus or Deficit on the Provision of Services	Other Comprehensive Income and Expenditure	Surplus or Deficit on the Provision of Services	Other Comprehensive Income and Expenditure
	£000	£000	£000	£000
<i>Net gains/losses on:</i>				
financial assets measured at amortised cost	(1,199)	-	(1,237)	-
investments in equity instruments designated at fair value through other comprehensive income	-	(1,198)	-	569
financial liabilities measured at amortised cost	8,236	-	8,161	-
Total net gains/losses	7,037	(1,198)	6,924	569
<i>Interest revenue:</i>				
financial assets measured at amortised cost	(1,199)	-	(1,237)	-
Total interest revenue	(1,199)	-	(1,237)	-
<i>Interest expense:</i>				
financial liabilities measured at amortised cost	8,236	-	8,161	-
Total interest expense	8,236	-	8,161	-

Fair Value of Financial Assets

Some of the authority's financial assets are measured at fair value on a recurring basis and are described in the following table, including the valuation techniques used to measure them.

Recurring fair value measurements	Input level in fair value hierarchy	Valuation technique used to measure fair value	31-Mar-20	31-Mar-19
Fair Value through Other Comprehensive Income				
Norwich Airport Ltd shares	Level 3	Market approach – earnings based		260
Legislator 1656 Ltd shares*	Level 3	Market approach – adjusted net assets	2,028	1,394
Legislator 1657 Ltd shares	Level 3	Market approach – adjusted net assets	-	-
Total			2,028	1,654

The Council's shareholding in Norwich Airport and legislator companies are not traded in an active market. The fair value of £1.654m has been based on valuation techniques that are not based on observable current market transactions or available market data. The valuation has been made by an independent third party based on an analysis of the assets and liabilities in the companies' latest audited accounts.

There have been no transfers between levels of the Fair Value Hierarchy and no changes in valuation techniques used during the year.

Except for the financial assets carried at fair value (described in the table above), all other financial liabilities and financial assets represented by amortised cost and long-term debtors and creditors are carried on the balance sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments, using the following assumptions:

- For loans from the PWLB payable, PWLB premature repayment rates/prevaling market rates (choose which one is being used) have been applied to provide the fair value under PWLB debt redemption procedures. An additional note to the tables sets out the alternative fair value measurement applying the premature repayment/borrowing rates (the alternative to the above), highlighting the impact of the alternative valuation;
- For non-PWLB loans payable, PWLB premature repayment rates/prevaling market rates (choose which one is being used) have been applied to provide the fair value under PWLB debt redemption procedures;
- For loans receivable prevailing benchmark market rates have been used to provide the fair value;
- No early repayment or impairment is recognised;
- Where an instrument has a maturity of less than 12 months or is a trade or other receivable the fair value is taken to be the carrying amount or the billed amount;
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

The fair values calculated are as follows:

Financial instruments measured at amortised cost

Financial Liabilities	31-Mar-20		31-Mar-19	
	Carrying amount	Fair value	Carrying amount	Fair value
	£000	£000	£000	£000
Long term PWLB debt	214,107	236,515	194,107	227,223
Long term non-PWLB debt	6,029	8,823	5,793	8,724
Short term Borrowing	886	0	806	806
Short term creditors	18,369	18,369	17,583	17,583
Short term finance lease liability	107	107	101	101
Long term creditors	-	-	-	-
Long term finance lease liability	794	794	902	902
Total Liabilities	240,292	264,608	219,292	255,339

The fair value of the liabilities is greater than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the balance sheet date.

Financial Assets	31-Mar-20		31-Mar-19	
	Carrying amount	Fair value	Carrying amount	Fair value
	£000	£000	£000	£000
Short term investments	44,300	44,331	49,710	49,779
Long term investments	2,128	2,128	1,754	1,754
Short term debtors	8,146	8,146	8,259	8,259
Long term debtors	14,371	14,371	16,790	16,790
Total Assets	68,945	68,976	76,513	76,582

The long-term investment classified as Amortised Cost has not been included in the table above. This is because as the Council has no immediate plans to sell its subsidiary, the Council believes that the cost of obtaining valuations for this investment would be disproportionate to the benefits to users of the financial statements. The investment is fully consolidated into the Group Accounts.

As at 31 March 2020 the Council held £15m in Money Market Funds (shown within the comparative short term investments). At the inception of the investments, the purpose was solely to collect the repayment of interest and principle. The business model for the Money Market Funds is therefore not based on any other objective of generating profit. The investments have therefore been held at amortised cost.

The fair value of the assets is greater than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the balance sheet date.

Short-term debtors and creditors are carried at cost as this is a fair approximation of their value.

Nature and Extent of Risks Arising from Financial Instruments

The Authority's activities expose it to a variety of financial risks. The key risks are:

- **Credit risk** - the possibility that other parties might fail to pay amounts due to the Council;
- **Liquidity risk** - the possibility that the Council might not have funds available to meet its commitments to make payments;
- **Re-financing risk** - the possibility that the Council might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms.
- **Market risk** - the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates or stock market movements.

Overall procedures for managing risk

The Council's overall risk management programme focuses on the unpredictability of financial markets and implementing restrictions to minimise these risks. The procedures for risk management are set out through a legal framework in the Local Government Act 2003 and the associated regulations. These require the Council to comply with the CIPFA Prudential Code, the CIPFA Treasury Management in the Public Services Code of Practice and Investment Guidance issued through the Act.

These are required to be reported and approved at or before the Council's annual Council Tax setting budget or before the start of the year to which they relate. These items are reported with the annual treasury management strategy which outlines the detailed approach to managing risk in relation to the Council's financial instrument exposure. Actual performance is also reported at annually to Members.

The annual treasury management strategy which incorporates the prudential indicators was approved by Council on 13 February 2019. The key issues within the strategy were:

- The Authorised Limit for 2019/20 was set at £373.9m. This is the maximum limit of external borrowings or other long term liabilities.
- The Operational Boundary was expected to be £343.9m. This is the expected level of debt and other long term liabilities during the year.
- The maximum amounts of fixed and variable interest rate exposure were set at 100% and 20% based on the Council's net debt.
- The maximum and minimum exposures to the maturity structure of debt are shown within this note.

Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers. This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet minimum credit ratings from the three major credit ratings agencies. The Annual Investment Strategy also imposes a maximum sum to be invested with a financial institution located within each rating category and country. The Annual Investment Strategy is contained within the Council's approved Treasury Management Strategy.

The Annual Investment Strategy also considers maximum amounts and time limits in respect of each financial institution. Deposits are not made with banks and financial institutions unless they meet the minimum requirements of the investment criteria outlined above. Additional selection criteria are also applied after this initial criterion is applied. The key areas of the Investment Strategy are that the minimum criteria for investment counterparties include:

- Credit ratings of Short Term of F1, Long Term A, Support C and Individual 3 (Fitch or equivalent rating), with the lowest available rating being applied to the criteria.
- UK institutions provided with support from the UK Government;
- Building societies with assets in excess of £2bn

Norwich City Council - 2019-20 Statement of Accounts

Commercial Tenants are assessed, taking into account their financial position, past experience via trade and bank references, if these are not available then rent deposits may be requested or a guarantor required. Heads of Terms state rent liability and commitments in accordance with parameters set by Norwich City Council.

Norwich City Council has debentures, unquoted equity investments and loans to related parties where there is no observable market or historical experience of default and has assessed the credit risk as nil.

The following analysis summarises the Council's maximum exposure to credit risk:

	Amount	Historical experience of default	Estimated maximum exposure to default	Estimated maximum exposure to default
	£000	%	£000	£000
	31-Mar-20		31-Mar-20	31-Mar-19
Customers	3,855	12%	463	399

No breaches of the Council's counterparty criteria occurred during the reporting period and the Council does not expect any losses from non-performance by any of its counterparties in relation to deposits and bonds.

The Council does not generally allow credit for its customers, such that £3.855m of the balance is past its due date for payment. The past due amount can be analysed by age as follows:

	31-Mar-20	31-Mar-19
	£000	£000
Less than three months	2,194	1,828
Three to six months	508	285
Six months to one year	196	166
More than one year	957	1,043
Total	3,855	3,322

The current provision of £1.285m for sundry debt covers 33% of the balance.

Amounts Arising from Expected Credit Losses

The changes in loss allowance during the year are as follows:

	12mth Expected Credit losses	Lifetime Expected Credit Losses – simplified approach	Total
	£000	£000	£000
Opening balance as at 1 April 2019	-	(6,385)	(6,385)
Movement in loss allowance	-	(4,432)	(4,432)
Other changes	-	-	-
As at 31 March 2020	-	(10,817)	(10,817)
Opening balance as at 1 April 2018	-	(6,290)	(6,290)
Movement in loss allowance	-	(95)	(95)
Other changes	-	-	-
As at 31 March 2019	-	(6,385)	(6,385)

Liquidity risk

The Council has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. If unexpected movements happen, the Council has immediate access to liquid investments as well as ready access to borrowings from the money markets and the Public Works Loans Board. There is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. The maturity analysis of financial liabilities is as follows:

	2019/20	2018/19
	£000	£000
Repayable between:		
less than one year	44,300	49,710
Between 1 & 2 years	-	-
	44,300	49,710

Refinancing & Maturity Risk

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer term financial liabilities and longer term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits placed on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters. This includes:

- monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and
- monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs, and the spread of longer term investments provide stability of maturities and returns in relation to the longer term cash flow needs.

The maturity analysis of financial liabilities is as follows, with the maximum and minimum limits for fixed interest rates maturing in each period (approved by Council in the Treasury Management Strategy):

	Approved Maximum Limit	Approved Maximum Limit	Actual	Actual
			31-Mar-20	31-Mar-19
			£000	£000
Less than 1 year	0%	10%	886	806
Between 1 & 2 years	0%	10%	2,552	-
Between 2 & 5 years	0%	40%	57,642	57,459
Between 5 & 10 years	0%	70%	115,200	117,700
10 years and above	0%	70%	44,231	24,231
			220,511	200,196
Perpetually irredeemable loan stock	0%	10%	510	510
			221,021	200,706

Market risk

Interest rate risk - The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

- borrowings at variable rates – the interest expense charged to the Income and Expenditure Account will rise;
- borrowings at fixed rates – the fair value of the borrowing will fall (no impact on revenue balances);
- investments at variable rates – the interest income credited to the Income and Expenditure Account will rise; and
- investments at fixed rates – the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the balance sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance, subject to influences from Government grants (i.e. HRA). Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in the Other Comprehensive Income and Expenditure Statement.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together Council's prudential and treasury indicators and its expected treasury operations, including an expectation of interest rate movements. From this Strategy a treasury indicator is set which provides maximum limits for fixed and variable interest rate exposure. The central treasury team will monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rates borrowing would be postponed.

If all interest rates had been 1% higher (with all other variables held constant) the financial effect would be:

	£000
Increase in interest payable on variable rate borrowings (all Norwich City Council borrowing is at fixed rate)	-
Increase in interest receivable on variable rate investments	392
Impact on Surplus or Deficit on Provision of Services	392
Decrease in fair value of fixed rate borrowings liabilities (no impact CIES)	(17,591)

The impact of a 1% fall in interest rates on interest receivable would be £ (296)k – where the fall of 1% would take the interest lower than zero, this interest received has been taken as zero. The impact of a 1% fall in interest rates on the fair value of fixed rate borrowing liabilities would be as above, but with the movement being reversed.

Price risk - The Council, excluding the pension fund, does not generally invest in equity shares or marketable bonds. However it does have shareholdings at a cost of £0.824m in Norwich Airport. Whilst these holding are generally illiquid, the Council is exposed to losses arising from movements in the price of the shares.

As the shareholdings have arisen in the acquisition of specific interests, the Council is not in a position to limit its exposure to price movements by diversifying its portfolio. Instead it only acquires shareholdings in return for "open book" arrangements with the company concerned so that the Council can monitor factors that might cause a fall in the value of specific shareholdings.

Foreign exchange risk - The Council has no financial assets or liabilities denominated in foreign currencies at the balance sheet date. It therefore has no exposure to loss arising from movements in exchange rates.

19. Long Term Investments

		2019/20	2018/19
		£000	£000
Norwich Regeneration Ltd		2,724	2,724
Norwich Airport Ltd		-	260
Municipal Bonds Agency		100	100
Legislator 1656		2,028	1,394
		4,852	4,478

Equity Shareholding in Subsidiary

In October 2016 the council disposed of land at Bowthorpe to its wholly owned subsidiary Norwich Regeneration Limited in exchange for 22,000 £100 shares in the company. During 2018/19 the Council invested an additional £0.524m in the form of cash equity into the company.

Norwich Airport Ltd

As part of a Public Private Partnership Agreement, 80.1% of the shares held in Norwich Airport Ltd (NAL) by Norfolk County Council and Norwich City Council were sold in March 2004 to Omniport Ltd., thereby taking NAL out of local Council control. The remaining shares were held by the City Council (6%), the County Council (9%) and a jointly owned Local Authority company, Legislator 1656 (4.9%).

During 2019/20 Norwich City Council, Norfolk County Council and Legislator 1656 sold their remaining shareholding in Norwich Airport Ltd.

A second jointly owned Local Authority Company - Legislator 1657, a wholly owned subsidiary of Legislator 1656 - holds some land associated with the airport which was excluded from the sale to Omniport. The City Council holds 40% of Legislator 1656, with Norfolk County Council holding the other 60%, effectively giving the City Council a further holding of 2% in NAL.

Norwich City Council has an interest in Legislator Companies 1656 and 1657 which has been assessed as out of scope for the purposes of Group Accounts.

In 2018/19, as part of the implementation of IFRS 9, the shareholdings in Norwich Airport Ltd, Legislator 1656 and Legislator 1657 were subject to an independent professional valuation and held in the accounts at fair value. In 2019/20 these valuations have been updated to reflect the latest fair value information available.

20. Long Term Debtors

	2019/20			2018/19
	Debtors	Provision for Bad Debt	Net Debtors	Net Debtors
	£000	£000	£000	£000
Advances for House Purchase: Council Houses Sold	3	-	3	3
Norfolk County Council Transferred Debt	635	-	635	731
Deferred Capital Receipt Sale of Airport Shares	-	-	-	-
Deferred Capital Receipt – Livestock Market	-	-	-	-
Decent Home Loans	605	-	605	642
Finance Lease > 1 year	1,808	-	1,808	1,183
Home Improvement Loans	203	-	203	203
Local Authority Mortgage Scheme	-	-	-	-
Housing Benefit Overpayments	5,947	(4,496)	1,451	2,074
Shared Equity Dwellings	248	-	248	237
SALIX	294	-	294	330
Debts with legal charge over property	207	-	207	42
Wholly owned subsidiary	9,400	(4,000)	5,400	12,400
Other Long Term Debtors	355	-	355	341
Total	19,705	(8,496)	11,209	18,186

Long Term Debtors include:

Wholly Owned Subsidiary Loan – the Council has advanced a loan to its wholly owned subsidiary Norwich Regeneration Ltd. The balance outstanding on the loan at 31 March 2020 was £9.4m. The company is using the loan to finance its house building at the Threescore site.

The authority recognises expected credit losses on all of its financial assets. Current analysis of the company's financial position shows that the council's loan to the company might not be fully recoverable. Under accounting standards an assessment of the expected loss has been estimated and an allowance of £4m has been recognised.

21. Short Term Investments

The amounts invested at 31 March were as follows:

	2019/20	2018/19
	£000	£000
Banks	4,000	11,000
Building Societies	-	3,000
Local Authority	5,000	12,000

Lease Liability	794	902
Rent Prepayments	387	199
SALIX	91	81
Total Long Term Creditors	2,805	2,689

27. Provisions

Accounting Policy

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

Norwich City Council - 2019-20 Statement of Accounts

	2019/20	2018/19
	£000	£000
Balance at 1 April	3,517	2,561
Movement in provisions	(383)	956
Balance at 31 March	3,134	3,517

The provision includes £3.1348m (2018/19: £2.718m) in respect of Non-Domestic Rates appeals following the introduction of Business Rates Retention on 1 April 2013.

The 2018/19 provision balance included £0.8m in respect of Norwich Livestock Market. This was a capital receipt that was paid to the Council in March 2017 following the surrender of the lease on the Norwich Livestock Market. A judicial review concluded that Norwich City Council must have a property interest in a livestock market in order to fulfil its statutory obligations under the Norwich City Council Act 1984. As a result of the judicial review findings the Council's lease with Norwich Livestock Market was re-established. Following the re-establishment of the lease the capital receipt was repaid in 2019/20. No further provision remains in relation to this.

28. Usable Reserves

Movements in the Council's usable reserves are detailed in the Movement in Reserves Statement

29. Unusable Reserves

	2019/20	2018/19
	£000	£000
Revaluation Reserve	76,632	74,600
Financial Instruments Revaluation Reserve	2,028	830
Capital Adjustment Account	669,398	679,756
Financial Instruments Adjustments Account	(822)	(826)
Deferred Capital Receipts	1,635	956
Pensions Reserve	(169,617)	(204,103)
Collection Fund Adjustment Account	1,477	1,507
Total Unusable Reserves	580,731	552,720

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment and Intangible Assets. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date at which the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

Norwich City Council - 2019-20 Statement of Accounts

	2019/20		2018/19
	£000	£000	£000
Balance at 1 April		74,600	73,434
Upward revaluation of assets	8,644		15,444
Downward revaluation of assets & impairment losses not charged to the Surplus/Deficit on the Provision of Services	(5,080)		(13,178)
Surplus or deficit on revaluation of non-current assets not posted to the Surplus/Deficit on the Provision of Services		3,564	2,266
Difference between fair value depreciation & historical cost depreciation	(632)		(749)

Amount written off to the Capital Adjustment Account		(1,334)	(1,100)
Other movements		(198)	-
Balance at 31 March		76,632	74,600

Financial Instruments Revaluation Reserve

The Financial Instruments Revaluation Reserve contains the gains made by the authority arising from increases in the value of its investments that are measured at fair value through other comprehensive income. The balance is reduced when investments with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- disposed of and the gains are realised.

Accumulated gains or losses on assets sold and maturing assets written out to the General Fund Balances for financial assets designated to fair value through other comprehensive income	-		
Balance at 31 March		2,028	830

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains. Note 9 provides detail of the source of all the transactions posted to the Account, apart from those involving the Revaluation reserve.

Norwich City Council - 2019-20 Statement of Accounts

HRA Self Financing Debt		-	-
Other		153	(118)
Balance at 31 March		669,398	679,756

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions. The Council uses the Account to manage premiums paid on the early redemption of loans. Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred, but reversed out of the General Fund Balance to the Account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on Council tax. In the Council's case, this period is the unexpired term that was outstanding on the loans when they were redeemed. As a result, the balance on the Account at 31 March 2018 will be charged to the General Fund over the next 15 years.

	2019/20	2018/19
	£000	£000
<u>Financial Instruments Adjustment Account</u>		
Balance at 1 April	826	919
Proportion of premiums incurred in previous financial years to be charged against the General Fund Balance in accordance with statutory requirements	-	(81)
	826	838
Amount by which finance costs charged to the Comprehensive Income & Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	(4)	(12)
Balance at 31 March	822	826

Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of noncurrent assets but for which cash settlement has yet to take place. Under statutory arrangements, the Council does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

	2019/20	2018/19
	£000	£000
<u>Deferred Capital Receipts Reserve</u>		
Balance at 1 April	956	1,433

Balance at 1 April	956	1,034
Transfer of deferred sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	2,250	-
Transfer to the Capital Receipts Reserve upon receipt of cash	(1,571)	(78)
Balance at 31 March	1,635	956

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the

Norwich City Council - 2019-20 Statement of Accounts

resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2019/20	2018/19
	£000	£000
<u>Pensions Reserve</u>		
Balance at 1 April	(204,103)	(177,895)

Cash receipts of short and long term borrowing	20,262	-
Repayments of short- & long-term borrowing	-	(2,000)
Other receipts /(payments) for financing activities	(812)	3,977
Net cash flows from financing activities	19,349	1,881

33. Trading Operations

The Authority has established various trading units where the service manager is required to operate in a commercial environment and balance their budget by generating income from other parts of the authority or other organisations. The financial results for which are disclosed below:

	2019/20			2018/19
	Expenditure	Income	(Surplus) / Deficit	(Surplus) / Deficit
	£000	£000	£000	£000
Car Parks	3,853	(6,042)	(2,189)	(3,398)
Industrial Estates	(72)	(589)	(661)	(925)
Corporate Estates	3,404	(4,806)	(1,402)	311
Civic Halls	533	(209)	324	805
Markets	701	(827)	(126)	708
Net (Surplus) / Deficit	8,419	(12,473)	(4,054)	(2,499)

The decrease in surplus on Car Parks during 2019/20 is related to higher capital charges.

The increase in surplus on Corporate Estates in 2019/20 is related to a reduction in capital charges and the increase of income due to new acquisitions during the year.

The higher deficit in 2018/19 on Markets was the result of the prior year provision detailed in note 27.

34. Associates

Norwich City Council has three associate companies; NPS Norwich Limited, Norwich Norse Environmental Limited and Norwich Norse Building Limited– see disclosure of services produced in note 47. In line with the service level agreements, Norwich City Council is entitled to an amount equivalent to 50% of any pre-tax profits as a discount on charges. An estimate of the pre-tax discounts has been accrued in the accounts. There is no other entitlement to the Council in terms of dividends or rights to retained earnings. The performance of the associates is shown below.

	NPS (Norwich) Ltd		Norwich/Norse Environmental Ltd		Norwich Norse Building Ltd	
	2019/20	2018/19	2019/20	2018/19	2019/20	2018/19

Profit & Loss reserve c/f	945	885	604	508	491	390

35. Agency Services

Where the Council is acting as an agent for another party (e.g. in the collection of business rates and Council Tax), income and expenditure are recognised only to the extent that commission is receivable by the Council for the agency services rendered or the Council incurs expenses directly on its own behalf in rendering services.

The City Council is a member of four Joint Committees – Norfolk Joint Museums and Archaeology Committee, Norfolk Joint Records Committee, Norfolk Highways Joint Committee and CNC Building Control Consultancy Joint Committee (Building Control Partnership).

The Norwich Highways Joint Committee oversees the operation of the Highways Agency Agreement providing the services for highways, traffic management and on-street car parking. The Council acts as agent for the County in relation to the work governed by the Joint Committee. The amounts of income and expenditure for 2019/20 and 2018/19 are as follows:-

Highways	2019/20	2018/19
	£000	£000
Expenditure	2,342	2,426
Income	(2,223)	(2,384)
(Surplus) / Deficit	119	42
On-Street Car parking	2019/20	2018/19
	£000	£000
Expenditure	1,267	1,101
Income	(1,334)	(1,448)
(Surplus) paid over to Norfolk County Council	(67)	(347)

The non-agency elements of the Norwich Highways Joint Committee are not material.

The Council's interest in the Norfolk Joint Museums and Archaeology Committee and the Norfolk Joint Records Committee are not material.

On 1st November 2012 the Norwich Business Improvement District was launched. A Business Improvement District (BID) is a defined area within which businesses pay an additional tax or fee in order to fund projects within the district's boundaries.

On 1st November 2017 a new five year BID agreement was launched, covering an expanded geographic area.

The council acts as agent for Norwich BID by billing and collecting the additional tax.

Business Improvement District	2019/20	2018/19
	£000	£000
Billed	907	913
Collected	(889)	(938)
Paid over to Norwich BID	881	876

36. Members' Allowances

The total of members' allowances paid in the year was £377,399 (2018/19 £368,445) in accordance with the Members' Allowance Scheme as set out in Appendix 16 of the Council's Constitution.

37. Officers Remuneration

Post Holder	Salary (incl Fees & allowances) £	Expenses £	Compensation for loss of office £	Total Remuneration (excl Pension contributions) £	Pension Contributions £	Total Remuneration (incl Pension contributions) £
Chief executive officer 2019/20 ¹	29,972	-	-	29,972	4,346	34,318

Chief finance officer (S151) 18/19	79,669	-	-	79,669	-	79,669
TOTAL 2019/20	555,580	-	-	555,580	77,865	633,445
TOTAL 2018/19	539,331	-	-	539,331	66,392	605,723

¹ Chief executive officer started full time in January 2020

² Remuneration includes payments made in respect of election duties for the Chief executive and Director of business services

³ Chief executive officer worked 4 days; and retired December 2019.

⁴ Interim Director of place started September 2019.

⁵ Director of regeneration & development retired August 2019.

⁶ Interim chief finance officer (S151) started December 2019, and is employed by LGSS shared services.

⁷ Chief finance officer (S151) officer finished November 2019, and was employed by LGSS shared services.

Norwich City Council - 2019-20 Statement of Accounts

Senior officer's remuneration disclosed on the tables above is included in the bandings in the table below.

The number of employees whose remuneration, excluding pension contributions, was £50,000 or more in bands of £5,000 was:

Remuneration Band		2019/20	2018/19
£50,000 to £54,999		9	5
£55,000 to £59,999		2	1
£60,000 to £64,999		2	1
£65,000 to £69,999		4	5
£70,000 to £74,999		1	-
£75,000 to £79,999		-	-
£80,000 to £84,999		-	3
£85,000 to £89,999		2	-
£90,000 to £94,999		-	1
£95,000 to £99,999		1	-
£100,000 to £104,999		1	-
£105,000 to £109,999		-	-
£110,000 to £114,999		-	-
£115,000 to £119,999		-	1
£120,000 to £124,999		-	-
		22	17

The number of exit packages with total cost per band and total of the compulsory and other redundancies are set out in the table below:-

2019/20					
Exit package cost band (including special payments)		Number of compulsory redundancies	Number of other departures agreed	Total number of exit packages by cost band	Total cost of exit packages in each band
£0 - £20,000		-	-	-	-
£20,001 - £40,000		-	-	-	-
£40,001 - £60,000		-	-	-	-

£100,001 - £150,000		-	-	-	-
Total		1	9	10	59,116

38. External Audit Costs

The Authority has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Authority's external auditors.

In 2019/20 and 2018/19 the following fees were payable by the Council to our external auditors.

	2019/20	2018/19
	£000	£000
Fees payable to the External Auditors with regard to external audit services carried out by the appointed auditor for the year	100	66
Fees payable to external auditors for the certification of grant claims and returns for the year	25	27
Fees payable in respect of any other services provided by external auditors during the year	-	-
Total	125	93

The scale fee set by Public Sector Audit Appointments Ltd (PSAA) for 2019/20 is £62k. An additional £38k has been recognised in year based on likely further costs associated with audit work on the group consolidation and migration to a new accounting system. The final scale fee will be subject to agreement with the external auditors and PSAA.

39. Grants Income

The Authority credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2019/20:

	2019/20	2018/19
	£000	£000
Credited to Taxation & Non-Specific Grant Income		
Revenue Support Grant	-	(982)
Local Strategic Partnership - Second Homes	(12)	(61)

Developers Contributions (S.106)		(1,533)	(1,508)
Total		(2,010)	(1,787)

The council continues to collect a Community Infrastructure Levy in accordance with a charging schedule adopted on the 25th June 2013.

The contributions collected from developments liable to pay the levy are designated to fund both the infrastructure required to support the planned growth in housing and jobs across the Greater Norwich area and improvements to address the demands that development places on local neighbourhoods within the city.

Section 106 agreements and planning conditions will also continue to be used for local infrastructure requirements on development sites, such as site specific local provision of open space, access roads and affordable housing.

40. Capital Expenditure & Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PFI contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Authority, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The CFR is analysed in the second part of this note.

	Notes	2019/20 £000	2018/19 £000
Opening Capital Financing Requirement 1st April		282,779	264,635
Correction of prior years error		-	-
Adjusted Opening Capital Financing Requirement		282,779	264,635
Property, Plant & Equipment	14	27,831	26,731
Assets under Construction	14	152	760
Investment Property	16	43,112	19,722
Heritage Assets	15	8	-
Intangible Assets	17	217	227
Decent Home Loans granted net of repaid		(45)	(118)
Local Authority Mortgage Scheme		-	(1,000)
Transferred debt net of repaid		(96)	(92)
Norwich Regeneration Ltd loan net of repaid		(3,000)	900
Norwich Preservation Trust loan net of repaid		(10)	(13)
Revenue Expenditure Funded from Capital Under Statute		6,190	5,828
Equity Investment in Norwich Regeneration Ltd		-	524
		357,138	318,104
Sources of Finance			
Capital Receipts		(6,897)	(5,607)
Government Grants & Other Contributions		(5,749)	(5,517)
Housing Revenue Account Major Repairs Allowance		(16,750)	(11,805)
Revenue Contributions & Minimum Revenue Provision *		(6,465)	(12,396)
Closing Capital Financing Requirement 31 March		321,277	282,779
Increase (decrease) in underlying need to borrow (unsupported by government financial assistance)		38,498	18,144
Increase (decrease) in Capital financing Requirement		38,498	18,144

Each local Council has a borrowing limit determined by the level of debt which it can afford. The system is governed by CIPFA's 'Prudential Code for Capital Finance in Local Authorities' and the Local Authorities (Capital Finance and Accounting) (England) Regulations 2003.

* The Minimum Revenue Provision 2019/20 is £0.567m (2018/19 £0.316m) and this represents a provision against the Council's underlying debt that has been acquired to finance capital expenditure.

41. Leases

Council as Lessee

Operating Leases

The Council leases cars and equipment to facilitate provision of services. It also leases privately owned properties to provide a decent, affordable housing alternative to those facing homelessness.

The Council's future minimum lease payments due under non-cancellable lease in future years are:

	31-Mar-19		31-Mar-19	
	Vehicles, Plant & Equipment	Land & Buildings	Vehicles, Plant & Equipment	Land & Buildings
	£000	£000	£000	£000
Future Rental Liabilities				
Not later than one year	111	1,438	117	1,281
Later than one year & not later than five years *	211	1,955	303	1,495
Total	322	3,393	420	2,776

* based on Pool Car contract extension to March 2022

The expenditure charged to the Housing Revenue Account, Cultural, Environmental, Regulatory and Planning Services lines in the Comprehensive Income and Expenditure Statement during the year in relation to these leases was £1.880m (2018/19 £1.894m)

	2019/20	2018/19
	£000	£000
Sublease payments receivable	1,931	1,837
Total	1,931	1,837

Finance Leases

The council has acquired communal aeries for its dwellings under a finance lease, these assets are disclosed as Property, Plant and Equipment in the Balance Sheet under Vehicles, Plant and Equipment at the net amount of £0.649m (2018/19 £0.742m)

The Council is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest in the property acquired by the Council and finance costs that will be payable by the Council in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts.

	2019/20	2018/19
	£000	£000
Finance Lease Liabilities		
Current	107	101
Non-Current	794	902
Financing Costs payable in future years	228	288
Minimum Lease Payments	1,129	1,291

The future minimum lease payments payable under non-cancellable leases in future years are:

	2019/20	2018/19
	£000	£000
Future Rental Liabilities		
No later than one year	161	161
Later than one year & not later than 5 years	645	646
Over 5 years	323	484
Total	1,129	1,291

Council as Lessor

Operating Leases

The Council leases out property and equipment under operating leases for the following purposes:

- The provision of community services such as sports facilities, tourism services and community centres
- economic development purposes to provide suitable affordable accommodation for local businesses

The future minimum lease payments receivable under non-cancellable leases in future years are:

	2019/20	2018/19
	£000	£000
Tenants Future Rental Liabilities		
Not later than one year	6,095	4,404
Later than one year & not later than five years	22,733	17,108
Over five years	95,774	60,511
Total	124,602	82,023

In addition to the above, there are 93 properties (85 in 2018/19) where the rent is in perpetuity that amounts annually to £0.311m per annum (2018/19 £0.310m).

The minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews.

Finance Leases

The Council has gross investments in the leases, made up of the minimum lease payments expected to be received over the remaining term and the residual value anticipated for the property when the lease comes to an end. The minimum lease payments are the payments over the lease term that the lessee is or can be required to make, excluding contingent rent. The gross investment is made up of the following amounts

	2019/20	2018/19
	£000	£000
Finance lease debtor (net present value of minimum lease payments):		
Current	15	15
Non-current	1,809	1,184
Unearned finance income	1,844	1,875
Unguaranteed residual value of property	-	-
Gross investment in the leases	3,668	3,074

The gross investment in the lease and the minimum lease payments will be received over the following periods:

	Gross Investment in the Lease		Minimum Lease Payments	
	31-Mar-20	31-Mar-19	31-Mar-20	31-Mar-19
	£000	£000	£000	£000
Future Rental Liabilities				
Not later than one year	123	17	24	24
Later than one year & not later than five years	213	69	95	95
Later than five years	3,332	2,987	3,236	3,236
Total	3,668	3,073	3,355	3,355

42. Impairment Losses

During the year the Council carried out adaptations at a cost of £828,186 (2018/19 £588,050) to a number of council dwellings under Disabled Facilities legislation. As advised by our valuer, these adaptations added no value to the dwellings; therefore this expenditure was impaired as shown in note 14 (combined with the impairments detailed below).

The Council also impaired the cost of works to flats within blocks for which the lease has been sold £632,526, of which structural work constituted £381,830, door access controls £85,839, work to tower blocks £56,243, roofing £84,244 and lift upgrades £17,584.

The Council also impaired the cost of works to district heating boiler houses £619,646, housing alarms £113,912, HRA shops £71,814, lift upgrades £47,307 and enhancement of HRA estates £361,535 as it was deemed not to add value.

Heigham Park tennis pavilion was severely damaged by fire in the year; an impairment of £24,752 was charged on advice of the Valuer, to hold the asset at nil value until such time that repairs can be carried out.

43. Termination Benefits

The Council terminated the contracts of a number of employees in 2019/20, incurring liabilities of £277,796 (2018/19 £59,116). These were payable to 2 (10 in 2018/19) officers who were made redundant as part of the Council's rationalisation of Services and include amounts payable in respect of early retirement to the pension fund.

44. Other Long Term Liabilities

The Council has other long term liabilities as detailed in the table below

	2019/20	2018/19
	£000	£000
Pension Fund Liability	169,617	204,103
Other	123	117
	169,739	204,221

45. Defined Benefit Pension Schemes

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Authority makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Council participates in the Local Government Pension Scheme (LGPS), administered by Norfolk County Council – this is a funded defined benefit final salary scheme, meaning that the Authority and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.

Arrangements for the award of discretionary post-retirement benefits upon early retirement – this is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these pension liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due.

The LGPS pension scheme is operated under the regulatory framework for the Local Government Pension Scheme and the governance of the scheme is the responsibility of the pensions committee of Norfolk County Council. Policy is determined in accordance with the Pensions Fund Regulations. The investment managers of the fund are appointed by the committee which includes the Interim Head of Finance of Norfolk County Council.

The principal risks to the authority of the scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund and Housing Revenue Account the amounts required by statute as described in the accounting policies note.

The liabilities of the Norfolk pension fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc., and projections of projected earnings for current employees.

Liabilities are discounted to their value at current prices, using a discount rate of 5.5% (based on the indicative rate of return on high quality corporate bonds).

The assets of Norfolk pension fund attributable to the Council are included in the Balance Sheet at their fair value:

- quoted securities – current bid price
- unquoted securities – professional estimate
- unitised securities – current bid price
- property – market value.

Transactions relating to Retirement Benefits

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge the council is required to make against council tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund and Housing Revenue Account via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

Discretionary Benefits

The Council provides discretionary post-employment benefits which arise from additional service and are awarded on a discretionary basis. These benefits are unfunded with costs met directly from the Council's revenue account.

	2019/20	2018/19
	£000	£000
Comprehensive Income & Expenditure Statement		
<i>Cost of Services</i>		
Current service cost	8,127	7,413
Past service cost (including curtailments)	110	3,610
Past service cost - effect of business combinations	-	1,500
<i>Financing and Investment Income and expenditure</i>		
Net Interest expense	4,912	4,995
Total Post-employment Benefits Charged to the Surplus or Deficit on the Provision of Services	13,149	17,518
<i>Other post-employment Benefits charged to the Comprehensive Income and Expenditure Statement</i>		
Return on plan assets (excluding the amount included in the net interest expense)	24,902	(10,067)
Actuarial (Gains) and Losses arising on changes in demographic assumptions	(11,718)	-
Actuarial (Gains) and Losses arising on changes in financial assumptions	(33,911)	24,957
Other experience	(19,025)	1,167
Total Post-employment Benefits Charged to the Comprehensive Income and Expenditure Statement	(26,603)	33,575
Reversal of net charges made to the Surplus or Deficit for the Provision of Services for post-employment benefits in accordance with the Code and HRA balances for pensions in the year	(13,149)	(17,518)
Total Remeasurements recognised in Other Comprehensive Income	(39,752)	16,057

The current service cost is an estimate of the true economic cost of employing people in a financial year. It measures the full liability estimated to have been generated in the year.

The past service costs arise from decisions taken in the current year but whose financial effect is derived from years of service earned in earlier years. For 2019/20 the past service costs include bulk transfer of members into the fund from Cambridgeshire County Council and the estimated impact of rulings on Transitional Protection Arrangement and Guaranteed Minimum Pension (GMP). Further details on the impact of the ruling are shown in the section 'Basis for Estimating Assets & Liabilities'.

Interest cost is the amount needed to unwind the discount applied in calculating the defined benefit obligations (liability). As members of the plan are one year closer to receiving their pension, the provisions made at present value in previous years for their retirement costs need to be uplifted by a year's discount to keep pace with current values.

The expected return on assets is a measure of the return on the investment assets held by the plan for the year. It is not intended to reflect the actual realised return by the plan, but a longer term measure based on the value of assets at the start of the year taking into account movements in assets during the year and an expected return factor.

Actuarial gains and losses arise where actual events have not coincided with the actuarial assumptions made for the last valuations (known as experience gains and losses) or the actuarial assumptions have been changed.

The cumulative amount of actuarial gains and losses recognised in the Comprehensive Income and Expenditure Statement to the 31 March 2020 is a loss of £122.660m (31 March 2019 loss of £162.412m)

Pensions Assets and Liabilities Recognised in the Balance Sheet

The amount included in the Balance Sheet arising from the authority's obligation in respect of its defined benefit plans is as follows:

	2019/20		2018/19
	£000		£000
Present Value of funded liabilities	(421,383)		(479,206)
Present Value of unfunded liabilities	(18,281)		(20,741)
Fair Value of plan assets	270,061		295,856
Net Liability arising from defined benefit obligation	(169,603)		(204,091)

	2019/20		2018/19
Reconciliation of present value of the scheme liabilities:	£000		£000
At 1 April	(499,947)		(458,744)

Basis for Estimating Assets & Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels etc. Liabilities have been assessed by Hymans Robertson, an independent firm of actuaries, based on the latest full valuation of the scheme at 31 March 2019.

The principle assumptions used in their calculations have been:

Mortality Assumptions:		2019/20	2018/19
Longevity at 65 for current pensioners			
Men		21.7yrs	22.1yrs
Women		23.9yrs	24.4yrs
Longevity at 65 for future pensioners			
Men		22.8yrs	24.1yrs
Women		25.5yrs	26.4yrs
Rate of inflation		2.30%	2.50%
Rate of increase in salaries		2.60%	2.80%
Rate of increase in pensions		1.90%	2.50%
Rate for discounting scheme liabilities		2.30%	2.40%
Take up of option to convert annual pension into retirement lump			
Pre-April 2008 service		50%	50%
Post-April 2008 service		75%	75%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

Increase in Assumption £000

Rate of increase in salaries (increase by 0.5%)	2,785
Rate of increase in pensions (increase by 0.5%)	33,163
Rate for discounting scheme liabilities (decrease by 0.5%)	36,207

Transition Arrangements Age Discrimination

When the LGPS benefit structure was reformed in 2014, transitional protections were applied to certain older members close to normal retirement age. The benefits accrued from 1 April 2014 by these members are subject to an 'underpin' which means that they cannot be lower than what they would have received under the previous benefit structure. The underpin ensures that these members do not lose out from the introduction of the new scheme, by effectively giving them the better of the benefits from the old and new schemes. In December 2018 the Court of Appeal upheld a ruling ("McCloud/Sargeant") that similar transitional protections in the Judges' and Firefighters' Pension Schemes were unlawful on the grounds of age discrimination. The

implications of the ruling are expected to apply to the LGPS (and other public service schemes) as well. The UK Government requested leave to appeal to the Supreme Court but this was denied.

The impact of the ruling is uncertain. It is looking likely that benefits accrued from 2014 may need to be enhanced so that all members, regardless of age, will benefit from the underpin. However, restitution may be achieved in a different way, for example by paying compensation. In either case, the clear expectation is that many more members would see an enhanced benefit rather than just those currently subject to these protections. In this outcome, there would likely be a retrospective increase to members' benefits, which in turn would give rise to a past service cost for the Fund employers when the outcome is known.

Quantifying the impact at this stage is very difficult because it will depend on the compensation awarded, members' future salary increases, length of service and retirement age, and whether (and when) members withdraw from active service. Salary increases in particular can vary significantly from year to year and from member to member depending on factors such as budget restraint, job performance and career progression. The Government Actuary's Department (GAD) has estimated that the impact for the LGPS as a whole could be to increase active member liabilities by 3.2%, based on a given set of actuarial assumptions. A full description of the data, methodology and assumptions underlying these estimates is given in GAD's paper, dated 10 June 2019.

The Fund's actuary has adjusted GAD's estimate to better reflect the Norfolk Pension Fund's local assumptions, particularly salary increases and withdrawal rates. The council first included the potential additional liabilities, as advised by its actuary Hymans Robertson, in the 2018-19 accounts as a constructive obligation. These numbers are high level estimates based on scheme level calculations and depend on several key assumptions.

In the 2019-20 accounts the council has recognised changes in the liability arising from changes in assumptions within the re-measurement of the defined benefit liability and reported in Other Comprehensive Income and Expenditure Statement within the Comprehensive Income and Expenditure Statement.

Guaranteed Minimum Pension (GMP)

Guaranteed minimum pension (GMP) was accrued by members of the Local Government Pension Scheme (LGPS) between 6 April 1978 and 5 April 1997. The value of GMP is inherently unequal between males and females for a number of reasons, including a higher retirement age for men and GMP accruing at a faster rate for women. However, overall equality of benefits was achieved for public service schemes through the interaction between scheme pensions and the State Second Pension. The introduction of the new Single State Pension in April 2016 disrupted this arrangement and brought uncertainty over the ongoing indexation of GMPs, which could lead to inequalities between men and women's benefits.

As an interim solution to avoid this problem, GMP rules were changed so that the responsibility for ensuring GMPs kept pace with inflation passed in full to pension schemes themselves for members reaching state pension age between 6 April 2016 and 5 April 2021. This new responsibility leads to increased costs for schemes (including the LGPS) and hence scheme employers.

The fund's actuary has carried out calculations in order to estimate the impact that the GMP indexation changes will have on the liabilities of Norwich City Council for financial reporting purposes. The estimate assumes that the permanent solution eventually agreed will be equivalent in cost to extending the interim solution to all members reaching state pension age from 6 April 2016 onwards.

The council first included the potential additional liabilities, as advised by its actuary Hymans Robertson, in the 2018-19 accounts as a constructive obligation. In the 2019-20 accounts the council has recognised changes in the liability arising from changes in assumptions within the re-measurement of the defined benefit liability and reported in Other Comprehensive Income and Expenditure Statement within the Comprehensive Income and Expenditure Statement.

Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The County Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 20 years. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed on 31 March 2022.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31 March 2014 (or service after 31 March 2015 for other main existing public service pension schemes in England and Wales). The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits to certain public servants.

The total contribution expected to be made to the scheme by the Council for the year to March 2021 is £6.781m

The weighted average duration of the defined benefit obligation for scheme members is 17 years, (2018/19 16.2 years)

46. Contingent Assets and Liabilities

Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

NHS Trusts

During January and February 2016, NHS Trusts wrote to local authorities countrywide claiming charitable status and requesting mandatory relief from business rates under s.43(5) and (6) of the Local Government Act 1988, the request being backdated to 2010. If granted this would lead to a backdated payment by Norwich City Council and ongoing reduced business rates going forward as well as impacting the Norfolk business rates pool.

In December 2019 the High Court ruled that NHS Trusts and Foundation Trusts are not eligible for business rates relief. A number of NHS trusts have however applied for permission to appeal the High Court ruling. The view of the council is that the claim is unfounded, but as the decision could be subject to appeal it is appropriate to continue to disclose a contingent liability. The timing, probability and amount of any relief is uncertain at the current time.

Dispute

The Council was in dispute with one of its contractors over some construction costs. The case was referred for adjudication and on 1 May 2018 the Adjudicator ruled in favour of the Council, finding it not to be liable for additional payments to the contractor. Whilst the decision could be referred to the High Court, the Council does not believe there is any liability for these costs.

Water Charges

The Authority has acted as a collection agent on behalf of Anglia Water in respect of Housing Revenue Account (HRA) tenants' water and sewerage charges. In return for this service the Authority has received a commission which has been treated as an income stream to the HRA. The treatment of this arrangement has been called in to question due to a Court ruling (Kim Jones versus London Borough of Southwark). Traditionally this has been

viewed as an agency arrangement, but the Court ruling concluded that the Authority concerned was acting as a water supplier and that amounts could be reclaimed from tenants. In light of the ruling a contingent liability is disclosed while the council assesses any potential impact on its own current and previous arrangements.

Assets

Contractual Rebate

Discussions remain ongoing with a supplier in relation to the level of contractual rebate owed to the council. The council's position is that a rebate is owed to the council as a result of contractual adjustments to the fees. As the discussions have not yet concluded, the final sums owed are still uncertain and have therefore been disclosed as a contingent asset.

47. Related Parties

The council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the council or to be controlled or influenced by the council. Disclosure of these transactions allows readers to assess the extent to which the council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the council.

UK government has significant influence over the general operations of the council– it is responsible for providing the statutory framework within which the council operates, and prescribes the terms of many of the transactions that the council has with other parties (e.g. council tax bills, housing benefits). Grants received from government departments are set out in Note 39 on reporting for resources allocation decisions. Grant receipts in advance outstanding at 31 March 2020 are also shown in Note 39; debtors are shown in Note 22 and creditors in Note 25.

Members of the council have direct control over the council's financial and operating policies. The total of members' allowances paid in 2019/20 and 2018/19 is shown in Note 36. During 2019/20, no works and services (2018/19 £nil) were commissioned from organisations in which any members had an interest. Contracts were entered into in full compliance with the council's standing orders. In addition members approved £264,500 (2018/19 £268,000) and officer working parties a further £4,200 (2018/19 £5,781) as grants to voluntary organisations in which six members had an interest. In all instances, the grants were made with proper consideration of declarations of interest. The relevant members did not take part in any discussion or decision relating to the grants. Details of all these transactions are recorded in the Register of Members' Interests, open to public inspection at City Hall during office hours.

During 2019/20, no grants were made to any organisations (2018/19 £Nil) in which members of senior management had interests.

During 2019/20, there were no works and services commissioned (2018/19 Nil) from entities in which officers had interests.

Several councillors are appointed to represent the Council on various Strategic Partnership boards. During the year there have been a number of transactions with the Strategic Partnerships totalling £472,359 (2018/19 £503,348). There have also been a number of transactions on behalf of the strategic partnerships with the Highways Agency, disclosed in Note 35. These partnership activities are integrated into the council's usual budget setting and management processes.

Companies and joint ventures – the council has interests in:

- I. Two companies, Legislator 1656 and 1657 Ltd, which the Council has shares in and are related to developments at Norwich Airport.
- II. Norwich Norse (Environmental) Ltd – provides a range of facilities, management, and contract services to Norwich and surrounding areas.

- III. Norwich Norse (Building) Ltd – provides maintenance, repairs and upgrades to housing and non-housing buildings for Norwich City Council.
- IV. NPS Norwich Ltd – provides property management services to Norwich City Council.
- V. Norwich Regeneration Ltd – a wholly owned subsidiary company set up by the council to carry out redevelopment projects.
- VI. Norwich City New Co Ltd – a wholly owned subsidiary company set up to manage all private rental sector properties built by Norwich Regeneration Ltd (NRL) or those that the new company may purchase itself as a business opportunity.
- VII. Three Score Open Space Management Ltd – a company set up to manage the open spaces around the Three Score development.

For all the above, the Council has officer and member representatives on the boards of these companies, and relevant information is disclosed in the notes to the accounts about such interests.

Legislator Companies

The 2019/20 accounts include a dividend declared by Legislator 1656 of £364,000. The dividend was declared by Legislator 1656 following the sales of its shareholding in Norwich Airport Ltd in July 2019.

The 2018/19 accounts included a dividend of £567,000. The dividend was declared by Legislator 1656 following the receipt of deferred sale proceeds on the sale of Norwich Airport in 2004.

No amounts of money have been paid to or from Legislator 1657 during 2019/20 (2018/19 £0).

Norse Joint Ventures

£6,026,494 (2018/19 £6,419,045) has been spent with Norwich Norse Environmental Ltd, and £12,223,879 (2018/19 £10,939,818) with Norwich Norse Building Ltd during 2019/20 and £3,532,277 (2018/19 £3,753,150) has been spent with NPS Norwich Ltd.

Amounts due to Norwich Norse Environmental Ltd are £136,305, Norwich Norse Building Ltd are £3,963,860 and NPS Norwich Ltd are £81,771. Amounts due from Norwich Norse Environmental Ltd are £242,908, Norwich Norse Building Ltd are £246,744 and NPS Norwich Ltd are £264,174.

Norwich Regeneration Ltd

Norwich Regeneration Ltd (NRL) issued £2,200,000 of shares to the Council in 2016/17 in exchange for land (at the full market value) upon which the Threescore development has taken place. In 2018/19 the Council invested an additional £524,000 in the form of cash equity into NRL.

During 2019/20 NRL repaid loans of £900,000 and £5,100,000, and the Council loaned £3,000,000 to NRL, leaving a balance of £9,400,000 outstanding at the end of the financial year. During 2018/19 the council loaned NRL £900,000, bringing the total amount loaned to £12,400,000.

During 2019/20 the council's Housing Revenue Account (HRA) purchased properties from NRL for social housing totalling £7,217,831 (2018/19 £1,607,062). The HRA incurred further expenditure with NRL for the redevelopment of a site in Bullard Road into social housing totalling £553,594 (2018/19 £546,406) and consultancy fees in relation to the redevelopment of the former Mile Cross depot site totalling £178,323 (2018/19 £0).

During the year the Council received income from the company of £497,504 relating to the interest on the loan, and £357,264 for services provided by the Council to the company under a service level agreement (2018/19 £779,153 in total). The Council recharged an additional £129,686 to the company for salary costs paid out on the company's behalf (2018/19 £70,386).

As at 31 March 2020, the amount due to NRL was nil (2018/19 £247,656). Amounts due from NRL are short term £486,950 (2018/19 £199,010) and long term £9,400,000 (2018/19 £12,400,000).

Threescore Open Space Management Ltd

The Council's HRA made a payment of £3,688 (2018/19 £2,099) to Threescore Open Space Management Ltd for management fees on the properties purchased at the Threescore development. During the year the Council received no income from the company.

No amounts of money have been paid to or from Norwich City New Co Ltd during 2019/20 (2018/19 £0).

48. Going Concern

The concept of a going concern assumes that an authority's functions and services will continue in operational existence for the foreseeable future. The provisions in the Code in respect of going concern reporting requirements reflect the economic and statutory environment in which local authorities operate. These provisions confirm that, as authorities cannot be created or dissolved without statutory prescription, they must prepare their financial statements on a going concern basis of accounting.

Local authorities carry out functions essential to the local community and are themselves revenue raising bodies (with limits on their revenue raising powers, arising only at the discretion of central government). If an authority were in financial difficulty, the prospects are thus that alternative arrangements might be made by central government either for the continuation of the services it provides or for assistance with the recovery of a deficit over more than one financial year. As a result of this, it would not therefore be appropriate for local authority financial statements to be provided on anything other than a going concern basis. The Council's accounts are therefore produced under the Code and assume that the Council's services will continue to operate for the foreseeable future.

The impact of COVID-19 has substantial implications for the Council's finances. Firstly, the response to the pandemic has required additional expenditure to ensure the Council could continue to deliver its statutory responsibilities. Secondly, it has lost income primarily as a result of the restrictions on public and business activity put in place since mid-March 2020. Finally, COVID-19 is having a significant detrimental impact on the wider economy, with the expectation that there will be a consequent reduction in funding from Council Tax and Business Rates.

Government has sought to address this through the provision of non-ringfenced COVID-19 grants. The Council has received £2.778 million in 2020/21, to support the Council's response to, and recovery from, COVID-19.

The Council's year-end reserve balances, as reported in these statements are as follows.

Date	General Fund	Earmarked Reserves
31 March 20	£9.4m	£17.1m

We have carried out an assessment of the impact of Covid-19 on our future finances and we are satisfied that there is no material uncertainty relating to the Council's going concern. Through our assessment we have identified that we expect in 2020/21:

Reductions in revenue relating to:-

- Car parking charges - £3.6m loss for the year
- Commercial Income – £1.6m relating to lost rent or increases in doubtful debts
- Planning fees – £0.45m loss for the year
- Leisure and recreation income - £0.62m loss for the year
- Housing rents and service charges - £2.2m relating to losses or increases in doubtful debts

The government has introduced a sales, fees and charges reimbursement scheme for 2020/21 which will enable the council to reclaim a portion of losses that meet the scheme eligibility criteria. Based on the expected losses approximately £3.1m is estimated to be claimable as part of the scheme.

A particular area of risk continues to relate to Business Rates and Council Tax income. No change is anticipated in 2020/21 as any impact from a reduction in the collection fund will take effect in 2021/22.

Additional costs relating to Covid-19 have been estimated at £1.7m based on the expectations of the Council's Service leads. This incorporates additional costs in IT home-working provision, rough sleeper accommodation costs, increase recycling costs and additional support to a leisure centre provider.

Based on the latest quarterly budget monitoring (September 2020), the entity is anticipating an overall overspend of £0.785 million in 2020/21. This was prior to the announcement of a further £0.960m of central government funding.

The Council had cash and short-term investment balances of £69.1 million at 31 December 2020. The Council has undertaken cash flow modelling through to 31 January 2021, which demonstrates the Council's ability to work within its Capital Financing Requirement and Cash management framework throughout the period to 31 March 2020.

The Government's Spending Review was announced in Autumn 2020, along with a review of Business Rates which is under consultation until October 2020. Outcomes will be reflected in the 2021/22 budget setting process.

However, given the pandemic is still unfolding, the associated economic impact and service implications remain unclear, and there remains significant uncertainty over the final cost to the Council. However, current estimates indicate that there is a reasonable likelihood that the Council will not need to undertake draw down on its reserves in 2020/21. The Council has sufficient reserves to allow any drawn down to be managed if required.

The General Reserves are projected to remain above the s151 officer's minimum level of £4.3 million through to March 2022, as set out below.

Date	General Fund
31 March 2020	£9.5m
31 March 2021 (estimated and unaudited)	£9.1m
31 March 2022 (estimated and unaudited)	£7.1m

Conclusion

The Council thereby concludes that it is appropriate to prepare the financial statements on a going concern basis, and that the Council will be a going concern, 12 months from the date of approval of these financial statements, based on its cash flow forecasting and the resultant liquidity position of the Council, taking account of the cash and short term investment balances and the ability for borrowing under the Treasury Management Policy.

Housing Revenue Account Income & Expenditure Statement

		2019/20	2018/19

Notes to Housing Revenue Account Income & Expenditure Statement

1. Other Operating (Income) / Expenditure

	2019/20	2018/19
	£000	£000
(Gains)/Losses on the disposal of non-current assets	(3,474)	(2,999)
Total	(3,474)	(2,999)

2. Financing and Investment Income and Expenditure

	2019/20	2018/19
	£000	£000
Interest payable and similar charges	7,311	7,618
Pension interest cost and expected return on pension assets	1,100	1,117
Interest receivable and similar income	(194)	(221)
Total	8,217	8,514

3. Taxation and Non-Specific Grant Income

	2019/20	2018/19
	£000	£000
Capital Grants and contributions	(672)	(87)
Total	(672)	(87)

4. Loan Charges

Under HRA self-financing the Council has adopted a 'two-pool' approach so that HRA self-financing loans and the resultant interest are directly attributable to the HRA. This has led to external interest charges of £7.311m being charged to the HRA in 2019/20 (2018/19 £7.553m).

5. HRA Council Dwellings

At 31 March 2020 there were 14,657 HRA Council dwellings, of which 923 were sheltered housing units.

	31-Mar-20	31-Mar-19
	Total Stock	Total Stock
Parlour houses	297	299
Non-parlour houses	4,963	5,028
Non-traditional houses	627	630
Bungalows	336	336
Cottage properties	188	196
Flats	6,292	6,359
Maisonettes	476	490
Flats in tower blocks	407	407
Sheltered/Good Neighbour housing units	923	923
Passivhaus flats	73	21
Passivhaus houses	75	40
	14,657	14,729
The changes in stock during the year can be summarised as follows		
Stock as at 1 April	14,729	14,807
Right to Buy sales	(156)	(138)
Other Dwelling Sales	(6)	(3)
Conversions	2	2
Housing acquisitions	1	-
New Build Housing	87	61
Stock as at 31 March	14,657	14,729

6. Housing Valuation

	31-Mar-20	31-Mar-19
	£000	£000
Operational Assets:		
Council Dwellings (HRA)	783,494	776,011
Other Land & Buildings	22,710	22,924
Vehicle, Plant & Equipment	809	747
Infrastructure & Community Assets	2,197	2,197
Assets Under Construction	441	6,689
Surplus assets	24	58
Sub Total	809,675	808,626
Assets held for Sale - Current	130	380
Sub Total	130	380
Intangible Assets	(2)	-
Sub Total	(2)	-
Total	809,803	809,006

The above figure for HRA Council dwellings equates to the value for Council dwellings shown in note 14 to the Core Financial Statements.

As set out in the Statement of Accounting Policies, Council dwellings are valued on the basis of Existing Use Value for Social Housing (EUV-SH). This value is less than the Vacant Possession Value to reflect the fact that Local Authority Housing is let at sub-market rents and, in broad terms, is arrived at after applying a regional adjustment factor of 62% (2018/19 62%). The difference between the two values therefore shows the economic cost of providing housing at less than market value.

The Vacant Possession Value of all HRA Dwellings as at 31 March 2020 was £2,021.09m (31 March 2019 £2,001.79m).

7. Major Repairs Reserve

	2019/20	2018/19
	£000	£000
Balance brought forward at 1 April	(9,796)	(7,000)
Depreciation charge for the year	(15,261)	(14,601)
Financing of capital expenditure for the year	16,750	11,805
Balance for the year	1,489	(2,796)
Balance Carried forward	(8,307)	(9,796)

8. HRA Capital Expenditure

	2019/20	2018/19
	£000	£000
Capital Investment		
Opening Capital Financing Requirement 1st April	205,716	205,716
Operational Assets	26,269	24,629
Other Land & Buildings	72	327
Vehicles, Plant & Equipment	73	-
Assets under Construction	152	627
Revenue Expenditure Financed as Capital	2,179	804
Appropriation to General Fund	-	-
	234,461	232,103
Sources of Finance		
Capital Receipts	(5,143)	(3,351)
Government Grants & Other Contributions	(1,262)	(87)
Major Repairs Allowance	(16,750)	(11,805)
Revenue Contributions	(5,590)	(11,144)
Closing Capital Financing Requirement 31 March	205,716	205,716

9. HRA Capital Receipts

In 2019/20 total capital receipts from the disposal of HRA assets were:

	2019/20	2018/19
	£000	£000
Land	50	93
Council dwellings	13,070	10,961
Total	13,120	11,054

10. Depreciation

From 1st April 2012 depreciation of the Council's housing stock is calculated by reference to the value at the previous 31st March. Council dwellings have their individual components identified as to the date of upgrade, and using the asset life as advised by the Council's valuers, depreciation associated with each properties components is calculated. The amount of depreciation charged for the year was £15.357m (2018/19 £14.699m).

	2019/20	2018/19
	£000	£000
<u>Operational Assets</u>		
Council dwellings	14,731	14,060
Other land & buildings	532	545
Vehicles, Plant & Equipment	94	94
Intangible Assets	-	-
Total	15,357	14,699

11. Impairment Costs

During the year there were £2.680m of impairment costs (2018/19 £2.800m) relating to HRA assets, which are detailed in the table below.

	2019/20	2018/19
	£000	£000
Council Dwellings	(2,604)	(2,304)
Other Property	(76)	(496)
Total	(2,680)	(2,800)
Disabled Facilities adaptations not adding value	(828)	(588)
Lift installations not adding value	(47)	-
Housing alarm upgrades not adding value	(114)	-
Upgrades to District Heating schemes not adding value	(620)	(918)
Enhancement of HRA estates not adding value	(362)	(195)
Structural work to flats where lease has been sold not adding value	(382)	(312)
Other work to flats where lease has been sold not adding value	(251)	(291)
Other	(76)	(496)
Total	(2,680)	(2,800)

12. Pensions Reserve

As set out in the Statement of Accounting Policies at Note 1, the Council has restricted the accounting entries for the purposes of IAS19 'Retirement Benefits' to current service cost only for the HRA. This is reflected in the Net Cost of Services and a compensating adjustment is made to the Pensions Reserve in order that there is no impact on either the Surplus/ (Deficit) for the year or subsequent rent levels.

13. Rent Arrears

Rent arrears at 31 March 2020 were £5.63m (2018/19 £5.03m). The provision for doubtful debts (rents) at 31 March 2020 was £3.34m (2018/19 £3.08m). Amounts written off during the year amounted to £0.45m (2018/19 £0.58m).

The Collection Fund Revenue Account

The Collection Fund shows the transactions of the billing authority in relation to the collection from taxpayers and the distribution to local authorities and the Government of council tax and non-domestic rates.

	31-Mar-20			31-Mar-19

Collection Fund Balance c/fwd at 31 March	2,445	3,408	5,853	7,181

Notes to the Collection Fund Statement

1. Income from Business Rates

Since 1 April 2013 and the introduction of the Business Rates Retention Scheme, the Council collects national non-domestic rates (NNDR) for its area, which are based on local rateable values controlled by the Valuation Office multiplied by a uniform rate controlled by Central Government. The total amount, less certain reliefs and other deductions is paid to Central Government, Norwich City Council and Norfolk County Council in accordance with legislated percentages of 50%, 40% and 10% respectively. However, for 2019/20, Norwich was part of the 75% Norfolk Pilot Scheme and so, for this year only, the percentages are 25%, 42.5% and 32.5% respectively.

The total non-domestic rateable value on 31 March 2020 was £200,536,024 (31 March 2019 £200,208,594). The national non-domestic rate multiplier for 2019/20 was 50.4p in the £ (2018/19 49.3p in the £). The small business multiplier for eligible businesses in 2019/20 was 49.1p in the £ (2018/19 48.0p in the £).

2. Council Tax

The calculation of the tax base, i.e. the number of chargeable dwellings in each Valuation Band (adjusted for dwellings where discounts apply) converted to an equivalent number of Band D dwellings, is shown below:

Property Value	Band	2019/20 Calculated Number of Properties in Band	2018/19 Calculated Number of Properties in Band
Up to £40,000	A	10,321.30	10,013.96
£40,001 to £52,000	B	13,060.64	12,642.31
£52,001 to £68,000	C	6,192.58	6,085.91
£68,001 to £88,000	D	3,066.95	3,058.75
£88,001 to £120,000	E	2,381.13	2,391.77
£120,001 to £160,000	F	1,180.76	1,160.83
£160,001 to £320,000	G	953.92	941.83
Over £320,000	H	99.00	99.50
		37,256.28	36,394.86
Collection Rate		0.975	0.975
Tax Base		36,325.00	35,485.00

The tax rate per Band D property was £1879.45 (2018/19 £1,808.33).

3. Council Tax Contribution to Collection Fund Surpluses & Deficits

The Council Tax surplus/deficit on the Collection Fund will be distributed in subsequent financial years between Norwich City Council, Norfolk County Council and Norfolk Police Authority in proportion to the value of the respective precept made on the Collection Fund.

	2019/20	2018/19
	£000	£000
Norfolk County Council	2,477	3,815
Norfolk Police Authority	460	709
Norwich City Council	471	740
Surplus Carried Forward	3,408	5,264

4. NNDR Contribution to Collection Fund Surpluses and Deficits

The NNDR surplus/deficit on the Collection Fund will be distributed in subsequent financial years between Central Government, Norwich City Council and Norfolk County Council in accordance with legislated percentages of 50%, 40% and 10% respectively. These percentages apply to any prior year surplus. However, for 2019/20, Norwich was part of the 75% Norfolk Pilot Scheme and so, for current year surplus only, the percentages are 25%, 42.5% and 32.5% respectively.

	2019/20	2018/19
	£000	£000
Central Government	935	958
Norwich City Council	1,007	767
Norfolk County Council	503	192
Surplus /(deficit) Carried Forward	2,445	1,917

Group Financial Statements

1. Introduction

The Code of Practice requires local authorities with interests in subsidiaries, associates and/or joint ventures to prepare group accounts in addition to their own single entity financial statements, unless their interest is not considered material.

The Group Accounts contain the core statements similar in presentation to the Council's single entity accounts but consolidating the figures of the Council with Norwich Regeneration Ltd.

The following pages include:

Group Movement in Reserves Statement
Group Comprehensive Income and Expenditure Statement
Group Balance Sheet
Group Cash Flow Statement
Notes to the Group Accounts

These statements are set out on the following pages, together with accompanying disclosure notes.

2. Basis of Identification of the Group Boundary

In its preparation of these Group Accounts, the Council has considered its relationship with the entities that fall into the following categories:

Subsidiaries – where the Council exercises control and gains benefits or has exposures to risks arising from this control. These entities are included in the group.

Associates – where the Council exercises a significant influence and has a participating interest. These entities are included in the group.

Jointly Controlled Entities - where the Council exercises joint control with one or more organisations. No entities identified to be included in the group.

No Group Relationship – where the body is not an entity in its own right or the Council has an insufficient interest in the entity to justify inclusion in the group financial statements. These entities are not included in the group.

In accordance with this requirement, the Council has determined its Group relationships as follows:

Norwich Regeneration Limited (NRL)	Subsidiary	Consolidated
NPS Norwich Ltd	Associate	Consolidated
Norwich Norse (Environmental) Limited	Associate	Consolidated
Norwich Norse (Building) Limited	Associate	Consolidated
Three Score Open Space Management Ltd	Subsidiary	Not material
Norwich City New Co Ltd	Subsidiary	Not material

3. Norwich Regeneration Limited (NRL)

Norwich Regeneration Limited (NRL) was incorporated on 13 November 2015. It is wholly owned by Norwich City Council. It was set up to develop more housing for affordable rent (to be purchased by the HRA upon completion from NRL) and also to develop housing for private sale and market rent.

The company accounts are subject to audit by Aston Shaw. Copies of the accounts may be obtained from Companies House or by request to the Council.

As a subsidiary, the accounts of NRL have been consolidated with those of the Council on a line by line basis, and any balances and transactions between parties have been eliminated in full. NRL expenditure and income,

adjusted for transactions with the council, is shown within the Norwich Regeneration Limited line in the Comprehensive Income and Expenditure Statement. As the NRL performance is not reported alongside the Council's to management, the figures have been shown as a separate service line. Balance sheet values are incorporated into the relevant heading of the Balance Sheet, removing balances owed between the two parties.

NRL has prepared 2019/20 accounts using accounting policies consistent with those applied by the Council, and no adjustments have been required to align accounting policies. Both entities have a financial year end of 31 March.

4. NPS Norwich Ltd

This is a company owned by NPS Property Consultants Limited (a subsidiary of Norfolk County Council) and Norwich City Council. The principle activity of the company is the provision of property management services for NCC, which is managed under a service agreement.

NPS Property Consultants hold eight A shares and NCC hold two B shares in NPS Norwich Ltd. Two senior officers of NCC are Directors of NPS Norwich Ltd whilst NPS Property Consultants have three representatives on the board. In line with the Service Level Agreement, Norwich City Council is entitled to an amount equivalent to 50% of any pre-tax profits as a discount on charges, with NPS Property Consultants Limited retaining the remaining 50%.

NPS Norwich Ltd has been included within the Group due to the nature and extent of activities carried out by the associate for the council.

An estimate of the pre-tax discount is accrued at the year-end within the Council's accounts. The company results are disclosed in Note 34 of the Council's single entity accounts.

Apart from the discount on charges, there is no other entitlement to NCC e.g. dividends or rights to retained profits and therefore no financial equity asset to be disclosed in the Group Accounts.

5. Norwich Norse (Environmental) Limited

This is a company owned by NPS Norwich Limited (NPSN) and Norwich City Council. The principle activities of the company are provision of streets, buildings and other cleaning, grounds maintenance, arboriculture and associated services for NCC, which is managed under a service agreement.

NCS hold eight A shares and NCC hold two B shares in Norwich Norse (Environmental) Limited. A senior officer of NCC and the portfolio holder are Directors of Norwich Norse (Environmental) Limited whilst NCS have three representatives on the board. In line with the Service Level Agreement, Norwich City Council is entitled to an amount equivalent to 50% of any pre-tax profits as a discount on charges, with Norse Commercial Services Limited retaining the remaining 50%.

Norwich Norse (Environmental) Ltd has been included within the Group due to the nature and extent of activities carried out by the associate for the council.

An estimate of the pre-tax discount is accrued at the year-end within the Council's accounts. The company results are disclosed in Note 34 of the Council's single entity accounts.

Apart from the discount on charges, there is no other entitlement to NCC e.g. dividends or rights to retained profits and therefore no financial equity asset to be disclosed in the Group Accounts.

6. Norwich Norse (Building) Limited

This is a company owned by NPS Norwich Limited (NPSN) and Norwich City Council. The principle activities of the company are provision of reactive and proactive maintenance and refurbishments, repairs and upgrades for both housing revenue and general fund non-housing buildings.

NPSN hold eight A shares and NCC hold two B shares in Norwich Norse (Building) Limited. A senior officer of NCC and the portfolio holder are Directors of Norwich Norse (Building) Limited, whilst Norfolk County Council appoints two Directors to the board, the fifth Director is the company Managing Director whom is jointly appointed by NPSN & NCC. In line with the Service Level Agreement, Norwich City Council is entitled to an amount equivalent to 50% of any pre-tax profits as a discount on charges, with NPS Norwich Ltd retaining the remaining 50%.

Norwich Norse (Building) Ltd has been included within the Group due to the nature and extent of activities carried out by the associate for the council.

An estimate of the pre-tax discount is accrued at the year-end within the Council's accounts. The company results are disclosed in Note 34 of the Council's single entity accounts.

Apart from the discount on charges, there is no other entitlement to NCC e.g. dividends or rights to retained profits and therefore no financial equity asset to be disclosed in the Group Accounts.

7. Three Score Open Space Management Ltd

This company has been set up to manage the open spaces around the Three Score development. The principle activity will be to maintain the open spaces on the Three Score site. Income to do this will be generated through homeowners paying over of an annual service charge to the company for the maintenance. This is incorporated within the contract to purchase any properties on the site.

The company has been set up initially as a subsidiary of NRL and NCC are registered as subscribers and have guarantee limit of £1 each should the company be wound up. NRL has been registered as being the Relevant Legal Entity with 75% ownership of the voting rights. NCC is named as an 'Other Registrable Person' again with 75% ownership of the voting rights (as it indirectly holds the voting rights as parent company of NRL). In the long term it is intended to hand the company over to the residents/stakeholders to manage at which point the ownership of the voting rights will be amended accordingly.

There are no material transactions in 2019/20 or 2018/19 therefore it is not included in the Group Accounts.

8. Norwich City New Co Ltd

Norwich City New Co Ltd was incorporated on 4 March 2019. The company has been set up to manage all private rental sector properties built by Norwich Regeneration Ltd (NRL) or those that the new company may purchase itself as a business opportunity.

Norwich City New Co Ltd is a limited liability company using the Council's powers to set up such a company under S1 and S4 of the Localism Act 2011 and S95 of the Local Government Act 2003. The company is limited by shares all of which are wholly owned by the Council, and the council will have full control of its activities via the approval of an annual Business Plan.

No transactions have occurred in the company in 2019/20, therefore the company will not be consolidated into the 2019/20 Consolidated Group Statements.

9. Basis of Consolidation

The financial statements of Norwich Regeneration Limited have been consolidated with those of Norwich City Council on a line by line basis which has eliminated balances, transactions, income and expenditure between the Council and the subsidiary.

Group Movement in Reserves Statement

	Council's usable Reserves	Subsidiary usable Reserves	Total Group usable Reserves	Council's unusable Reserves	Subsidiary unusable Reserves	Total Group unusable Reserves	Total Group Reserves

Notes to the Group Accounts

Group Boundary

Norwich Regeneration Limited was incorporated on 13 November 2015. On 7 October 2016, the Council transferred 3.35 hectares of land at Bowthorpe at full market value to its wholly owned subsidiary Norwich Regeneration Limited in exchange for 22,000 £100 shares in the company. It is a subsidiary for accounting purposes, and has been consolidated into the Council's group accounts.

The Council has determined its associate relationships as follows:

NPS Norwich Ltd	Associate	Consolidated
Norwich Norse (Environmental) Limited	Associate	Consolidated
Norwich Norse (Building) Limited	Associate	Consolidated

Accounting Policies

NRL has prepared 2019/20 accounts using accounting policies consistent with those applied by the Council, and no adjustments have been required to align accounting policies.

There is only one addition to the stated accounting policies for the Council which needs to be included for NRL. This is the accounting policy for Inventories. There is no stated policy on Inventories within the council's accounting policies as these are immaterial for the Council. However Inventories are material for NRL.

The accounting policy is that Inventories are measured at the lower of cost and net realisable value. The cost of inventories is assigned using the First In First Out (FIFO) costing formula. The policy is consistent for both the Council and NRL.

Both entities have a financial year end of 31 March. Disclosure notes have only been restated in the group accounts section where they are materially different from those of the Council's single entity accounts.

The Council operates a 5-year rolling programme of revaluations in relation to land and buildings except for revaluation of Housing Revenue Account Assets which is carried out on an annual basis. The only property, plant and equipment asset included in NRL's Balance Sheet at the 31 March 2020 is land held by the NRL which is as yet undeveloped. It has been valued at cost £0.259m. Property, plant and equipment for the single entity is measured at current value and revalued at least every five years, by the Council's external valuers NPS. The valuation cycle is shown in the table below and more details on the valuations can be found at note 14 to the single entity accounts.

VALUATION CYCLE '000s	Council dwellings	Other Land & Buildings	Community assets	Infrastructure	Vehicles, Plant, & Equipment	AUC	Surplus properties	Total PPE
Valued at historical cost	-	259	11,923	1,561	3,745	606	-	18,094

Receipts in Advance	4,336	1,661
Other entities & individuals	2,506	3,004
Total Short Term Creditors	35,110	31,013

Glossary of Terms

Accounting Period

The period of time covered by the accounts, normally a period of twelve months, that commences on 1 April for local authority accounts. The end of the accounting period, i.e. 31 March, is the balance sheet date.

Accrual

A sum included in the final accounts attributable to the accounting period but for which payment has yet to be made or income received.

Amortisation

A measure of the consumption of the value of intangible assets, based on the remaining economic life.

Asset

An item having a value measurable in monetary terms. Assets can either be defined as fixed or current. A fixed asset has use and value for more than one year where a current asset (e.g. stocks or short-term debtors) can readily be converted into cash.

Audit of Accounts

An independent examination of the Council's financial affairs, which ensures that the relevant legal obligations and codes of practice have been followed.

Balance Sheet

A financial statement that summarises the Council's assets, liabilities and other balances at the end of the accounting period.

Billing Authority

A local authority charged by statute with the responsibility for the collection of and accounting for council tax, NNDR and residual community charge. These in the main are district council's, such as Norwich, and unitary authorities.

Budget

A financial statement that expresses the council's service delivery plans in monetary terms. This covers as a minimum the same period as the financial year but increasingly council's are preparing medium-term financial plans covering 3 to 5 years.

Capital Expenditure

Expenditure to acquire fixed assets that will be used in providing services beyond the current accounting period or expenditure that adds value to an existing fixed asset.

Capital Financing

The raising of money to pay for capital expenditure. There are various methods of financing capital expenditure including borrowing, direct revenue financing, usable capital receipts, capital grants, capital contributions and revenue reserves.

Capital Financing Requirement

The capital financing requirement reflects the Council's underlying need to borrow for a capital purpose.

Capital Programme

The capital schemes the council intends to carry out over a specified time period, often within a 6 to 10 year timeframe.

Capital Receipt

The proceeds from the disposal of land and other assets. Proportions of capital receipts can be used to finance new capital expenditure, within rules set down by the government, but they cannot be used for revenue purposes.

Cash Equivalents

Investments that mature in 90 days or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

Chartered Institute Of Public Finance and Accountancy (CIPFA)

The principal accountancy body dealing with local government finance.

CIPFA Code of Practice on Local Authority Accounting

This specifies the principles and practices of accounting to be followed when preparing the Statement of Accounts. It constitutes "proper accounting practice" and is recognised as such by statute.

Collection Fund

A separate fund maintained by a billing authority which records the expenditure and income relating to council tax, NNDR and residual community charges.

Community Assets

Assets that the Council intends to hold in perpetuity, that have no determinable useful life and that may have restrictions in their disposal. Examples of community assets are parks.

Comprehensive Income and Expenditure Statement

This statement reports the net cost for the year of all the functions for which the Council is responsible, and demonstrates how that cost has been financed from general government grants, and income from local taxpayers. It brings together expenditure and income relating to all the local authority's functions.

Consistency

The concept that the accounting treatment of like items within an accounting period, and from one period to the next one is the same.

Contingent Liability

A possible obligation arising from past events, whose existence will be confirmed only by the occurrence of one or more uncertain future events, that are not wholly within the Council's control.

Creditor

Amounts owed by the Council for work done, goods received or services rendered before the end of the accounting period but for which payments have not been made by the end of that accounting period.

Debtor

Amounts due to the Council for work done, goods received or services rendered before the end of the accounting period but for which payments have not been received by the end of that accounting period.

Depreciation

The measure of the cost or revalued amount of the benefits of a fixed asset that have been consumed during the accounting period.

Effective Rate of Interest

The rate of interest that will discount the estimated cash flows over the life of a financial instrument to the amount in the balance at initial measurement.

Exceptional Items

Material items which derive from events or transactions that fall within the ordinary activities of the Council, and which need to be disclosed separately, by virtue of their size or incidence, such that the financial statements give a true and fair view.

Fair Value

The amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Finance Lease

A lease which transfers substantially all of the risks and rewards of ownership of a fixed asset to the lessee. Not the same as an Operating Lease (q.v.).

Financial Instruments

Any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another. The term 'financial instrument' covers both financial assets (e.g. bank deposits and investments), and financial liabilities (e.g. trade payables and borrowings).

Financial Reporting Standard (FRS)

Financial Reporting Standards cover particular aspects of accounting practice, and set out the correct accounting treatment, for example, of depreciation. Compliance with these standards is normally mandatory and any departure from them must be disclosed and explained.

Fixed Assets

Tangible assets that yield benefits to the Council, and to the services it provides, for a period of more than one year.

Housing Revenue Account

A separate account to the General Fund, which includes the expenditure and income arising from the provision of housing accommodation owned by the Council.

Impairment

The term used where the estimated recoverable amount from an asset is less than the amortised cost at which the asset is being carried on the balance sheet.

Infrastructure Assets

Fixed assets belonging to the Council which do not necessarily have a resale value (e.g. highways), and for which a useful life-span cannot be readily assessed.

Intangible Fixed Assets

These are assets which do not have a physical substance, e.g. software licences, but which yield benefits to the Council and the services it provides, for a period of more than one year.

Minimum Revenue Provision

MRP is a charge to the revenue account in relation to capital expenditure financed from borrowing or credit arrangements

Movement in Reserves Statement

This statement precedes the Comprehensive Income and Expenditure Statement. It takes into account items, in addition to the Income and Expenditure Account surplus or deficit, which are required by statute, and non-statutory proper practices, to be charged or credited to the General Fund, Housing Revenue Account & other reserves

Movement in Reserves Statement – Housing Revenue Account

This statement follows the Housing Revenue Account Income and Expenditure Statement. It takes into account items, in addition to the Income and Expenditure Account surplus or deficit, which are required by statute, and non-statutory proper practices, to be charged or credited to the Housing Revenue Account.

NNDR (National Non-Domestic Rate)

National Non-Domestic Rate is a standard rate in the pound, set by the government, on the assessed rateable value of properties used for business purposes.

Non-Current Asset

Tangible assets that yield benefits to the Council, and to the services it provides, for a period of more than one year.

Operating Lease

A lease where the ownership of the fixed asset remains with the lessor. Not the same as a Finance Lease (q.v.).

Outturn

Refers to actual income and expenditure or balances as opposed to budgeted amounts.

Precept

The amount which a local authority, which cannot level a council tax directly on the public, requires to be collected on its behalf. The major precepting authorities are Norfolk County Council and Norfolk Police Authority.

Provisions

Monies set aside for liabilities which are likely to be incurred, but where exact amounts or dates are uncertain.

Prudential Code

The Prudential Code, introduced in April 2004, sets out the arrangements for capital finance in local authorities. It constitutes 'proper accounting practice' and is recognised as such by statute.

Rateable Value

The annual assumed rental value of a property, which is used for business purposes.

Reserves

The accumulation of surpluses and deficits over past years. Reserves of a revenue nature can be spent or earmarked at the discretion of the Council. Reserves of a capital nature may have some restrictions placed on them as to their use.

Revenue Expenditure

Spending on day to day items, such as employees' pay, premises costs and supplies and services.

Revenue Expenditure Funded from Capital under Statute (REFCUS)

Expenditure which legislation allows to be classified as capital for funding purposes when it does not result in expenditure being carried on the Balance Sheet as a fixed asset. The purpose of this is to enable the expenditure to be funded from capital resources rather than be charged to the General Fund and impact on that years' council tax.

Revenue Support Grant

The main grant paid by central government to a local authority towards the costs of their services.

SERCOP (Service Reporting Code of Practice)

The Service Reporting Code of Practice provides guidance on the content and presentation of costs of service activities within the CIES. It constitutes 'proper accounting practice' and is recognised as such by statute.

Tangible Assets

See Fixed Assets (q.v.)

Transfer of Undertakings (Protection of Employment) Regulations (TUPE)

This protects employees' terms and conditions of employment when a business is transferred from one owner to another. Employees of the previous owner when the business changes hands automatically become employees of the new employer on the same terms and conditions.

Trust Funds

Funds administered by the Council for such purposes as prizes, charities and specific projects, usually as a result of individual legacies and donations.

Two Tier Authority

In most areas of England, local government functions are divided between two tiers of local authority, county council's, known as "upper tier" authorities and city, borough or district council's, known as "lower tier" authorities.
