## **East Norwich Partnership**

## **Tuesday 12th May 2020 (2-4pm)**

## **Attendees**

- Graham Nelson (GN) Norwich City Council (NCC)
- Judith Davison (JD)(NCC)
- Tracy Armitage (TA) (NCC)
- Darryl Flay (DF) (Fuel Properties)
- Adam Gaymer (Fuel Properties).
- David Harvey (DH) (Harvey & Co)
- Akis Chrisovelides (AC)(SPC)
- Richard Cubitt (RC) (SPC)
- Ken Dytor (KD)(Urban Catalyst)
- Paul Shadarevian (PS) (Urban Catalyst)
- Andy Teague (AT) (Cushman and Wakefield)
- Matthew Trigg (MT)(RWE)
- Ben Quarrie (BQ)(National Grid)
- Charles Amies (CA) (Homes England)(HE)
- Simon Hughes (SH)(Norfolk CC)
- Matt Tracey (MT) (Norfolk CC)
- Helen Corina (HC) (Norfolk CC)
- Laura Waters (LW)(LEP)
- Cally Smith (CS) (Broads Authority)(BA)
- Cheryl Peel (CP) (BA)
- Paul Harris (PH) (South Norfolk Council / Broadland Council)
- Neven Sidor (NS) (Grisham Architects)

## **Apologies**

- Paul Kitson (Homes England)
- Jayshree Patel (Homes England)
- Andre Serruys (SPC)
- Helen Mellors (South Norfolk Council / Broadland Council)
- Phil Courtier (South Norfolk Council / Broadland Council)
- Jonathon Green (NPS / Norfolk County Council)
- Charles Whitworth (Cushman and Wakefield)

Agenda item		Action
1	Welcome / apologies	
	GN opened the meeting and welcomed all participants to the first meeting of the East Norwich Partnership. There appears to be broad consensus among partners to work jointly to ensure comprehensive redevelopment. He stressed that it is important to keep momentum going with this project.	
2	Update since last meeting	

JD presented an update of progress since the previous meeting on 31 January. This includes a series of 1-2-1 meetings between GN/JD and the key private sector partners: overall there has been positive feedback and a willingness to work in partnership. NCC has also met with Wolong, site owners of Laurence Scott to update them about the partnership and emerging masterplan. In terms of public sector partners, NCC has held a number of meetings with Homes England who are positively engaged in the process, and has also been in contact with the other public sector partners. NCC is also working on the procurement process for the masterplan. GN provided an update on the GNLP likely timescales.  3 Draft Terms of Reference  JD presented an overview of the draft Terms of Reference (ToR) document  RC – stated Network Rail should be involved from the outset. JD responded that it was agreed at the last meeting that a robust Partnership needed to be in place before making contact.  SH – Raised the question of publicity and matters of commercial sensitivity GN – from local authority point of view we are subject to FOI Act.  GN - Emphasised the need for transparency given the process is intended to inform the GNLP process/ planning policy for East Norwich. There would need to be ways at the appropriate times to handle matters that are commercially sensitive. Information subject to FOI  JD – responded to question regarding the £0.5m cost estimate, confirming this was derived with input from HE and having regard to comparable exercises conducted elsewhere (eg. York Central)  PH queried the role of local members involvement / sign off in the process. GN noted that each public authority will be expected to report through their own processes as they see fit, otherwise it would make the process erry unwieldy.  PH - Queried role of the Reference Group. Trowse Parish Council highlighted as well as their intention to commence a Neighbourhood Plan.  CS - also queried the role of the Reference Group in ToR and to in ToR and to in ToR and t

Neighbourhood Plan. Reference Group
The sign differed to a total burdence return and the sign of the and to
,
Society and the Norfolk Boat Owners Association members
RC - need to include Carrow Yacht Club in relation to access   accordingly
arrangements.
AC - Queried the £0.5m cost and whether this was all to be
spent externally?
GN – External costs of Masterplan process plus Project
Management role (for cost effectiveness may be new
temporary role created within the organisation)
AC - concern over reference within the document to strategic highway network being fixed as a constraint from the outset.

	GN - Confirmed that the reference to the strategic road	
	network in this part of the city having limited capacity is a	
	factual statement. Need to link the development into the city	
	and not rely on creating additional capacity within the highway.	
	Although nothing in the brief to preclude this.	
	MT - Vision for the site is to deliver a highly sustainable	
	development in a highly sustainable location. Focus on	
	walking, cycling and public transport links	
	RC - Rail head should be included within scope of ToR	
	GN – Rail head designated as critical infrastructure. Re-	
	location complex and would introduce risk. Existence does not	
	preclude development and operators (LaFarge) would need to	
	be involved in the process.	
	AC – Queried whether the ToR was an internal document only.	
	GN – Intention that the ToR and the Masterplan Brief would be	
	•	
	appended to the report to Cabinet (10 June) and would	
	become public at that point	ID to gotiers
	SH - Raised the need to manage publicity and public/press	JD to action
	interest which might arise through the process	
	GN – Indicated that the ToR could be amended to include the	
	need for a Communications Plan	
	GN - confirmed further draft of the ToR would be circulated to	JD
	parties for comment by the end of the week, and comments will	
	be required back by the end of the following week (22 May).	
4	Draft masterplan brief	
	JD – presented an overview of the Draft masterplan framework	
	brief	
	AC – praised the overall content of the document. Raised	
	query regarding other sources of funding referred to in	
	document and whether these should be addressed earlier in	
	the process than Stage 2f and whether HE were prepared to	
	indicate early on what level of financial support they might	
	offer.	
	GN – It is understood that the delivery of East Norwich sites	
	will require some level of public subsidy. Indicated sources did	
	not just include HE, highlighting Town Funding (NCC making a	
	bid for £25m).	
	CA - Confirmed that HE intend to be involved throughout the	
	process and be an active partner. Needs to be a sequential	
	approach to the masterplan process but this not mean that	
	funding matters could not considered as they arise.	
	GN – highlighted that the partnership arrangement and	
	collaborative process create the best conditions for success in	
	securing public funding.	
	DF – remarked that draft brief is comprehensive. Queried	
	whether 'social value' should be identified as a key	
	driver/regeneration objective. Delivery of homes/community	
	spaces etc all capable of being measured.	JD – seek to
	GN – Agreed that if this was not yet included, then it should	include in next
	1.	draft
	be.  PH Expressed concern about the extent of viability work in	ulail
	PH – Expressed concern about the extent of viability work in Stage 1 given the intent that the process supports the next	
	Totage Tolven the intentinal the process SUDDOMS the next	İ
	stages of the GNLP process.	

•		
	JD – Confirmed that this matter had been discussed at some	
	length with HE	
	CA - Highlighted the need to ensure the quality of viability	
	information. If Stage 1 is too broad in scope there is the risk	
	that the information on viability may not be fit for purpose.	
	GN – Referred to the GNLP timetable and that the aim was to	
	ensure that the viability information would be available to	
	support the examination stage.	
	PH – Suggested a high level cost analysis would be helpful at	
	Stage 1	
	BQ – Queried the scope of the viability assessment ie both	
	infrastructure and site specific costs? He confirmed that he had	
	relevant information in relation to the latter	
	JD – Indicated would seek further input from HE in term of	JD – for
	defining more precisely the scope of the work and whether	consideration in
	high level assessment could be front loaded in Stage 1	next draft
	SH - Highlighted the need early in the process to understand	
	costs and how these are going to be divided out.	
	GN – Confirmed the importance of the masterplan process	JD - for
	resulting in a development approach for the sites which is	consideration in
	deliverable. Stage 1 of the brief should include some high level	the next draft
	indication of the viability of the sites.	
	RC - stated more information should be included about	JD - for
	planning history of Deal Ground and actions already taken to	consideration in
	facilitate delivery – eg removal of overhead power cables [GN	the next draft
	said yes to history inclusion].	the next drait
	CS - Raised the relationship of the sites with the water and the	JD – for
	opportunity this presents. Suggested inclusion within	consideration in
	Masterplan Framework a requirement for a Waterspace	next draft
	Framework	Hext diait
5	High level timescales and budget	
3	Thigh level timescales and budget	
	GN indicated need to think through sources of funding for	
	phase 2 and beyond. Towns Fund and Norfolk Business Rates	
	pot possibilities. Signs from govt. that investment in	
	infrastructure will form part of the post Covid response.	
	Indicated that NCC will be emailing individual parties regarding	
	financial contributions.	
	JD – presented overview of the High Level timescales and	
	budget paper	
	AC – Queried input of partners into the appointment process,	
	specifically would partners see tender documents from	
	applicants and have a say in who is appointed?	
	GN - Confirmed a panel would need to be established.	
	Significant funding partners would need a key say.	
	olgrinicant funding partitions would freed a key say.	
	BQ - Indicated that the ToR document should include decision	JD – for
	making process	consideration in
	GN – Confirmed that as the NCC would be the legal entity in	next draft
	relation to commissioning the masterplan work, decision	
	making would need to accord with the requirements of the	
	Constitution.	

	KD – queried the effect of the process on landowners selling sites/new owners and landowners 'going it alone' and progressing scheme for individual sites GN - Process is a carrot rather than a stick. The benefit of the process is to secure a strong partnership arrangement and a comprehensive development approach which will unlock funding. The resulting masterplan, and GNLP policy including SPD will act as a constraint on landowners	
	GN - Confirmed redrafts of both documents would be circulated by the end of the week as well as emails regarding funding contributions.	
6	Any other business	
	GN - asked for updates from landowners	
	AC - Indicated still looking at ways of proceeding with the existing consent.	
	DF - Indicated close to concluding the deal on Carrow Works. This has included agreement for remediation of the site and these works have commenced. Masterplan for the site hasn't really changed and going forward, looking to work up a scheme which can support the process.	
	SH - Carrow House taken off market. Not clear yet on timescale for getting the site back on the market.	
7	Date of next meeting	
	To be confirmed	Action JD
End	16.00
