

**Notes**

Do not scale from this drawing. All contractors must visit the site and be responsible for taking and checking dimensions. All construction information should be taken from figured dimensions only. Any discrepancies between drawings, specifications and site conditions must be brought to the attention of the supervising officer. This drawing & the works depicted are the copyright of JTP.

This drawing is prepared for the specific project stage in the Drawing Status section below and it is not intended to be used for any other purpose. Whilst all reasonable efforts are used to ensure drawings are accurate, JTP accept no liability for any reliance placed on, or use made of, this plan by anyone for purposes other than those stated in the Drawing Status below.

**Key**

- Application Boundary Line
- 1-2 stores (12.05m maximum ridge height)
- 1-2 stores (10.22m maximum ridge height)
- 2-3 stores (12.05m maximum ridge height)
- 2-4 stores (19.00m maximum ridge height)
- 3-6 stores (25.30m maximum ridge height)
- 6-8 stores (31.60m maximum ridge height)
- 8-11 stores (41.05m maximum ridge height)
- 11-14 stores (50.50m maximum ridge height)
- Scheduled Monument

**Notes**

The extent of the bulging height parameter envelop can deviate laterally +/-2m within the application boundary, subject to on-site and heritage constraints.

The height parameters set out in the Building Heights Parameter Plan are to maximum ridge heights and include parapet heights and lift/core overruns. The heights are set from existing ground levels, not a proposed Finished Floor Level and therefore account for any ground works that may need to be undertaken. Each of the parameter levels has been set at such a level to allow for flexibility to be introduced in roof line and the steepness of roof pitches in order to create variety and interest.
