

Public Protection (food & safety)

Food Premises Inspection Report

Name of business:	Tasty House / A Flaming Chilli
Address of food business:	Stalls 172 - 173 Market Place, NR2 1NE
Date of inspection:	08/11/2025
Risk rating reference:	25/00831/FOOD
Premises reference:	17/00244/FD_HS
Type of premises:	Market Stall
Areas inspected:	All
Records examined:	SFBB
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Thai food market stall takeaway

Relevant Legislation

Food Safety Act 1990 (as amended)
 Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)
 Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013
 Health and Safety at Work etc. Act 1974 and related regulations
 Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(5)**

Contamination risks

Observation I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

Hand washing

Observation I was pleased to see hand washing was well managed.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Contravention The following evidence indicated there was a risk of bacteria growing on food:

- hot food was not being cooled to under 8°C quickly enough – cool within 1.5 hours.

Legal requirement Raw materials, ingredients, intermediate products and finished products likely to support the reproduction of pathogenic micro-organisms or the formation of toxins must not be kept at temperatures that might result in a risk to health

Unfit food

Contravention The following food was of a reduced quality and if sold may not be of the standard demanded by the consumer:

- mixed peppers were being stored beyond the 'Best before' date of 29/10

Guidance It is an offence to use food which is not of the nature, substance or quality demanded by the consumer. Food used passed its 'best before' date could be of a reduced quality so you must check it is OK before you use it.

Recommendation The best before date is the date until which the manufacturer of the food guarantees the quality of that product. I recommend you do not use food that is beyond the best before date and you check your goods regularly to ensure efficient stock rotation

Recommendation You should have a system to identify when open or prepared foods need to be used by or discarded, to ensure the food is fit for consumption. I recommend you apply labels which give a date that is 2 days after the day of production e.g. if food is opened on Monday it should be used by the end of Wednesday (an exception is cooked rice which should not be kept longer than 24 hours)

Poor Practices

Contravention The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- no date of when prepared on prepared foods in fridges

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- light switches

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- underneath towel dispenser
- underneath soap dispenser
- seals to fridges
- handle to fridge
- top to fridge door

Observation You had dedicated equipment for the preparation of raw and for ready-to-eat foods.

Cleaning Chemicals / Materials / Equipment and Methods

Observation I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- split seals to fridge
- damage to floor

Facilities and Structural provision

Observation I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(10)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Food Hazard Identification and Control

Contravention The following Safer Food Better Business SAFE METHODS are incomplete:

- cleaning schedule not filled in
- suppliers list not filled in
- allergen information not filled in
- opening and closing checks not done on day of my visit

Proving Your Arrangements are Working Well

Contravention You are not working to the following safe methods in your SFBB pack:

- cleaning schedule

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Infection Control / Sickness / Exclusion Policy

Guidance UK Health Security Agency recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Recommendation A Level 3 Award for Supervising Food Safety in Catering would be appropriate for your supervisory staff and those with managerial responsibility.

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.
