Food Premises Inspection Report

Name of business:	Costa Coffee
Address of food business:	2 - 8 London Street Norwich NR2 1LH
Date of inspection:	04/03/2026
Risk rating reference:	26/00181/FOOD
Premises reference:	21/00366/FD_HS
Type of premises:	Restaurant or cafe
Areas inspected:	Basement, Servery
Records examined:	FSMS
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Café/Restaurant

Relevant Legislation

Food Safety Act 1990 (as amended)
 Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)
 Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013
 Health and Safety at Work etc. Act 1974 and related regulations
 Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(5)**

Handwashing

Observation I was pleased to see handwashing was well managed.

Personal Hygiene

Contravention The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- jewellery/ watches worn when preparing food

Legal Requirement You must ensure that any member of staff that you know or suspect has (or is a carrier of) a food-borne disease or infection (including vomiting, diarrhoea, skin infection, sores and open wounds) is excluded from working in any food handling area until they have been symptom free for 48 hours or until medical clearance has been obtained.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(10)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- flooring behind and under equipment
- wall

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- interior bottom to fridge
- wheels to equipment

Cleaning Chemicals / Materials / Equipment and Methods

Observation I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

Facilities and Structural provision

Observation I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

Pest Control

Contravention Pest proofing is inadequate particularly in the following areas:

- bar flies to sink in servery indicating poor cleaning

3. Confidence in Management

A food safety management system is in place, and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. **(5)**

Type of Food Safety Management System Required

Observation You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Infection Control / Sickness / Exclusion Policy

Observation Policies were in place to prevent any infected food handler from contaminating food.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Allergens

Recommendation I recommend that you use separate tongs for the cakes to avoid cross-contamination of allergens
