Food Premises Inspection Report

Name of business:	Denmark Cafe
Address of food business:	162 Sprowston Road Norwich NR3 4JA
Date of inspection:	11/03/2026
Risk rating reference:	26/00235/FOOD
Premises reference:	11/00089/FD_HS
Type of premises:	Restaurant or cafe
Areas inspected:	Main Kitchen
Records examined:	Temperature Control Records, SFBB
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Café

Relevant Legislation

Food Safety Act 1990 (as amended)
 Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)
 Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013
 Health and Safety at Work etc. Act 1974 and related regulations
 Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. (5)

Hand-washing

Contravention The following indicated that hand-washing was not suitably managed:

- there was no suitably designated wash hand basin to the kitchen

Legal requirement Washbasins must be available, suitably located and designated for cleaning hands. Wash-hand basins must be provided with hot and cold (or mixed) running water. Soap and hand drying facilities must be located nearby.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Recommendation It is a government recommendation that eggs are stored in the fridge

Poor Practices

Contravention The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- no date on cooked mushrooms of when taken out of freezer

Guidance If you freeze high risk foods you must ensure that you freeze them before the USE BY date has passed. You must also have a good system to manage the food when you have defrosted it to ensure it is used before the USE BY date and when defrosted labelled with a date so that it is used within 2 days

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- flooring behind and under equipment

Cleaning of Equipment and Food Contact Surfaces

Observation You had dedicated equipment for the preparation of raw and for ready-to-eat foods.

Observation You had colour-coded equipment on which to prepare food.

Cleaning Chemicals / Materials / Equipment and Methods

Observation I was pleased to see that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- split seals to chest freezer

Facilities and Structural provision

Contravention The following facilities were inadequate or absent and must be provided or improved:

- there are insufficient or inadequate handwashing facilities

Legal requirement An adequate number of washbasins must be available, suitably located and designated for cleaning hands. Wash-hand basins must be provided with hot and cold (or suitably mixed) running water.

Pest Control

Observation I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(10)**

Type of Food Safety Management System Required

Observation You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Safer Food Better Business that works

Contravention You are not working to the following safe methods in your SFBB pack:

- cleaning schedule as more attention is needed to cleaning

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Recommendation Catering staff should refresh their food hygiene knowledge every 3 years so that they stay up to date with current legislation and good practice. Booking details for this course are on our website: www.norwich.gov.uk

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Allergens

Observation You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
