Food Premises Inspection Report

Name of business:	Wensum Junior School Breakfast And After School Club
Address of food business:	Wensum Junior School Turner Road, NR2 4HB
Date of inspection:	25/03/2026
Risk rating reference:	26/00290/FOOD
Premises reference:	17/00200/FOOD
Type of premises:	School club
Areas inspected:	Servery
Records examined:	Cleaning Schedule, SFBB, Temperature Control Records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Breakfast & afternoon school club

Relevant Legislation

Food Safety Act 1990 (as amended)
 Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)
 Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013
 Health and Safety at Work etc. Act 1974 and related regulations
 Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(5)**

Contamination risks

Contravention The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

- bagels in the freezer had not been covered or wrapped properly when not in use

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- freezer door seal

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(10)**

Type of Food Safety Management System Required

Contravention Your documented Food Safety Management System or Safer Food Better Business pack was not available for inspection. As a consequence, you could not demonstrate an effective system for managing food safety hazards.

Legal Requirement Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

Legal Requirement Ensure that your food safety management system is available on site so your staff can refer to your procedures and so that daily records of checks can be completed.

Information You can download a Safer Food Better Business pack and refill diary pages from the FSA website: www.food.gov.uk/business-industry/caterers/sfbb

Food Hazard Identification and Control

Information Before implementing a food safety management system such as Safer Food Better Business, basic good hygiene conditions and practices called prerequisites must be in place. Only then will your food safety management system be effective in ensuring the preparation of safe food.

Proving Your Arrangements are Working Well

Recommendation Your SFBB pack should be used as intended so as to guarantee you are fully complying with your legal obligation to have a documented food safety management system in place.

By using a normal diary, you were failing to SIGN OFF at the end of each day; had nowhere to record that opening and closing checks had been done; were not reminded to record NON CONFORMATIES and to review your management system every 4-weeks.
