Food Premises Inspection Report

Name of business:	Bread Source At Norwich Cathedral
Address of food business:	The Refectory The Close ,NR1 4DH
Date of inspection:	02/07/2026
Risk rating reference:	26/00493/FOOD
Premises reference:	22/00228/FD_HS
Type of premises:	Restaurant or cafe
Areas inspected:	External Store, Main Kitchen, Storeroom, Servery
Records examined:	Temperature Control Records, Cleaning Schedule, SFBB
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Café with mobile unit

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 3 - a generally satisfactory standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(5)**

Contamination risks

Contravention The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

- damaged equipment is in use that could shed broken particles

Hand washing

Contravention The following indicated that hand-washing was not suitably managed:

- There was no hand wash basin available for staff in the mobile unit, only hand sanitiser.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(10)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- wash-up area taps
- wash hand basin
- walls particularly behind food preparation surfaces
- high level cleaning
- hand contact surfaces such as light switches and door handles
- floor wall junctions
- ceiling
- behind and under equipment
- around equipment feet

Cleaning of Equipment and Food Contact Surfaces

Observation You had colour-coded equipment on which to prepare food.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- paint work worn or peeling
- wall surfaces damaged
- floor surfaces damaged

Facilities and Structural provision

Contravention The following facilities were inadequate and must be improved:

- insufficient or poorly sited wash hand basins
- insufficient number of sinks

Pest Control

Observation You have a pest control contract in place and there is no evidence of pest activity on the premises.

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(10)**

Type of Food Safety Management System Required

Observation You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Food Hazard Identification and Control

Contravention The following pre-requisites have not been met and this means that your food safety management system will be ineffective:

- hand-wash basin provision - the premises structure is unsuitable
- cleaning and sanitation are poor in areas

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.
