Introduction to the Report

The report has been divided into three sections representing the areas we score you against. Each section begins with a *summary* of what was observed. The score you have been given for each section is indicated. Details of how these scores relate to your overall food hygiene rating are shown in the table at the front of the report. You can use the table to see what factors have influenced your score; where you have done well and where improvements can still be made.

There may be an additional section covering health and safety concerns which fall outside the scope of the national food hygiene rating scheme.

Timescale for Compliance

All Notices must be complied with by the date on the Notice. If no Notice is served you must still deal with contraventions within a reasonable time. As a guide to compliance, contraventions to do with cleaning, temperature control and poor practice should be dealt with straight away. Those items which relate to structural repairs, training and the provision/review of your food safety management system should be completed within the next 2 months. Health and safety contraventions should be dealt with within 3 months unless otherwise indicated. Urgent matters must be dealt with straight away.

The Law

The report relates to the following legislation:

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19(1) of the Food Safety and Hygiene (England) Regulations 2013.

Health and Safety at Work Etc. Act 1974 and related regulations.

This report may include matters which do not comply with the law (**Contravention**) matters which are not required by the law but which we recommend as good practice

(**Recommendation**) guidance on best practice (**Information**) and, to balance the report, observations of current practice (**Observation**).

You may carry out alternative works to those in the report, but only if they are equally effective in securing full compliance with the law. Before undertaking alternative works, you are strongly advised to discuss the matter with me.

Please Note

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time. The report concentrates on the principle risks. If it fails to mention a particular item this does not mean you have necessarily complied with the law.
