Food Premises Inspection Report

Name of Business:	Lasagneria
Address of food business:	Stall 175, Market Place, Norwich, NR2 1NE
Date of Inspection:	15 December 2016
Risk Rating Reference	16/00737/FOOD
Premises Reference	16/00340/FD_HS
<hr/>	
Type of Premises:	Market Stall
Areas Inspected:	All
Records Examined:	SFBB, Cleaning schedule
Details of Samples Procured:	None
Summary of Action Taken:	Informal
General Description of business	Stall selling homemade traditional Lasagne

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19(1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Contravention The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt or foreign objects:

- wood splinters from wooden surfaces in the premises, you need to treat the wood to leave a smooth impervious surface that can be easily cleaned

Observation I was pleased you could demonstrate effective E.coli 0157 control through the complete separation of raw and ready-to-eat food, the correct use of wash-hand basins and thorough hand washing, having dedicated equipment (including complex equipment) for raw and ready-to-eat foods, through 2-stage cleaning and the correct use of sanitisers, and by controlling the risks posed by soiled vegetables.

Hand-washing

Contravention The following evidence indicated hand-washing was not suitably managed:

- there was no soap with the wash hand basin

Legal Requirement Wash hand basins must be provided with soap and hygienic hand drying facilities.

Information Proper hand-washing is essential in preventing the spread of E.coli 0157 and other harmful bacteria onto food and food contact surfaces. Please refer to the enclosed catering and retail guide 'E.coli - What you must do to keep your hands clean' for practical advice on keeping you and your customers safe.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were diligently monitoring temperatures.

Recommendation I recommend that you purchase probe wipes for your probe thermometer

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Cleaning of Structure

Contravention The following structural items could not be effectively cleaned and must be covered or made non-absorbent:

- wooden surfaces need to be treated to make a smooth impervious surface that can be easily cleaned

3. Confidence in Management

A food safety management system is in place and you comply fully with the law. Hazards to food are understood properly controlled managed and reviewed. Your records are appropriate and being maintained. All your staff are suitably supervised and trained. You have a very good track record. **(Score 0)**

Infection Control / Sickness / Exclusion Policy

Guidance Public Health England recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

Observation The kitchen had been well maintained and the standard of cleaning was exceptionally high.

Allergens in food

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.
