### **Food Premises Inspection Report**

Name of Business: Co-op Foodstore

Address of food business: Norwich Railway Station, Station Approach, Norwich

NR1 1EF

Date of Inspection: 17/02/2017
Risk Rating Reference 17/00065/FOOD
Premises Reference 07/00355/FD\_HS

Type of Premises: Grocery/supermarket

Areas Inspected: All

Records Examined: FSMS, Temperature control records, Pest control report,

Training certificates / records

Details of Samples Procured: None Summary of Action Taken: Informal

General Description of business Retail with hot holding/bake off

# **Relevant Legislation**

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended) Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19(1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

### What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next <u>2 months</u>.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

### **FOOD SAFETY**

## How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1.food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area				You Score					
Food Hygiene and Safety				0	5	10	15	20	25
Structure and Cleaning				0	5	10	15	20	25
Confidence in management & control systems				0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30		35 - 40		45 - 50		> 50
Your Worst score	5	10	10		15		20		-
Your Rating is	5	4	3		2		1		0

Your Food Hygiene Rating is 4 - a good standard

#### 1. Food Hygiene and Safety

Food Hygiene standards are excellent. You demonstrated full compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. (Score 0)

#### Temperature Control

**Observation** I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were diligently monitoring temperatures.

## 2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. (Score 10)

#### Cleaning of Structure

**Contravention** The following structural items were dirty and require more frequent and thorough cleaning:

- The floor in the stock room
- The area under the stock shelving requires additional cleaning due to dust and debris build up

**Contravention** The following structural items could not be effectively cleaned and must be covered or made non-absorbent:

- Floor tiles missing from rear stock room
- Exposed brick work by rear door / shedding debris
- A gap under and between the double doors to the stock room which could allow pest access
- Some painted walls need a repaint to facilitate cleaning

## 3. Confidence in Management

A food safety management system is in place and you comply fully with the law. Hazards to food are understood properly controlled managed and reviewed. Your records are appropriate and being maintained. All your staff are suitably supervised and trained. You have a very good track record. (Score 0)

# **Training**

**Observation** I was pleased to see that food handlers and/or managers had been trained to an appropriate level and evidence of their training was made available.
