What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 5 - a very good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Recommendation To further improve food hygiene safety I would suggest the following:
Clean and disinfect scoops used to weigh product.

Hand-washing

Observation Hand washing was managed well and wash-hand basins were well stocked with hand cleaning material.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were diligently monitoring temperatures.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Equipment and Food Contact Surfaces

Recommendation Use a disinfectant to clean the scoop handles to reduce any risk of contamination.

Cleaning Chemicals / Materials / Equipment and Methods

Observation I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

Facilities and Structural provision

Observation I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

3. Confidence in Management

A food safety management system is in place and you comply fully with the law. Hazards to food are understood properly controlled managed and reviewed. Your records are appropriate and being maintained. All your staff are suitably supervised and trained. You have a very good track record. **(Score 0)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Proving Your Arrangements are Working Well

Observation Three small bottles of juice and one goats cheese were on display for sale and had passed their best before date.

Once brought to the attention of staff the products were removed from sale.

Information You are able to sell items passed the best before date, however you must bring this to the attention of customers.

Traceability

Observation You have a good system to record batch codes of items you package and your scales were calibrated every 6 months.

Training

Observation I was pleased to see that food handlers and/or managers had been trained to an appropriate level and evidence of their training was made available.

Infection Control / Sickness / Exclusion Policy

Observation Policies were in place to prevent any infected food handlers from contaminating food.

Allergens

Observation You had identified the presence of allergens in your open food and had brought this to the attention of your customers.
