Food Premises Inspection Report

Name of Business:	Mushy Pea Stall
Address of food business:	Stall 115, Market Place, NR2 1ND
Date of Inspection:	21/09/2017
Risk Rating Reference	17/00596/FOOD
Premises Reference	05/00330/FD_HS
Type of Premises:	Food take away premises
Areas Inspected:	All
Records Examined:	SFBB, Temperature control records, Training certificates / records
Details of Samples Procured:	None
Summary of Action Taken:	Informal
General Description of business:	Market stall serving cooked food to consumers in the local area

Relevant Legislation

Food Safety Act 1990 (as amended)
Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)
Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013
Health and Safety at Work etc. Act 1974 and related regulations
Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 5 - a very good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Recommendation To further improve food hygiene and safety I would suggest the following:

- food handlers wear hats or hair covering

Hand-washing

Observation Hand washing was managed well and wash-hand basins were well stocked with hand cleaning material.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were diligently monitoring temperatures.

Unfit food

Recommendation You should have a system to identify when open or prepared foods needs to be used by or discarded, to ensure the food is fit for consumption. I recommend you apply labels which give a day or date that is 2 days after the day of production e.g. if food is opened on Monday it should be used by the end of Wednesday.

Poor Practices

Observation The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration

- Open tin of burgers stored in the chiller draw. Once open, tinned food should be decanted into a food grade washable container. This is important because the metal on the inside of the tin will begin to rust once it is open and could contaminate the food.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following structural items were dirty and require more frequent and thorough cleaning:

- ceiling at high level
- the folder for the safer food better business pack

Cleaning Chemicals / Materials / Equipment and Methods

Observation I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. Food hazards are understood properly controlled managed and reviewed. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

Proving Your Arrangements are Working Well

Recommendation The safer food better business pack was difficult to refer to and was at risk of becoming muddled as the pages were loose. I recommend you secure them in a new folder.

Observation I was pleased too see a diary is being kept with notes of chilled cooked temperature records, cleaning and stock control.

Training

Observation I was pleased to see that food handlers and/or managers had been trained to an appropriate level and evidence of their training was made available.
