Food Premises Inspection Report

Name of business:	Wedgewood Guest House
Address of food business:	Wedgewood Guest House 42 St Stephens Road Norwich Norfolk NR1 3RE
Date of inspection:	21/02/2018
Risk rating reference:	18/00139/FOOD
Premises reference:	15820/0042/0/000
Type of premises:	Bed and breakfast
Areas inspected:	Main Kitchen
Records examined:	SFBB, Training certificates / records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Bed and Breakfast

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30

Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-

Your Rating is	5	4	3	2	1	0
----------------	---	---	---	---	---	---

Your Food Hygiene Rating is 5 - a very good standard

1. Food Hygiene and Safety

Food Hygiene standards are excellent. You demonstrated full compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. **(Score 0)**

Contamination risks

Observation Contamination risks were controlled.

Observation I was pleased you could demonstrate effective E.coli 0157 control through the complete separation of raw and ready-to-eat food, the correct use of wash-hand basins and thorough hand washing, having dedicated equipment (including complex equipment) for raw and ready-to-eat foods, through 2-stage cleaning and the correct use of sanitisers, and by controlling the risks posed by soily vegetables.

Observation I was pleased to see:

- raw and cooked separation in storage and preparation was satisfactory
- foods were covered and dated, and perishable items used within a satisfactory length of time
- you make your own preserves and jam

Hand-washing

Observation Hand washing was managed well and wash-hand basins were well stocked with hand cleaning material.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were diligently monitoring temperatures.

Observation I was pleased to note:

- food is cooked fresh
- you monitor all temperatures, and were aware of critical temperatures

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Observation The kitchen had been well maintained and the standard of cleaning was exceptionally high.

Cleaning of Equipment and Food Contact Surfaces

Observation You had dedicated equipment for the preparation of raw and ready-to-eat foods.

Observation You had colour-coded equipment on which to prepare food.

Cleaning Chemicals / Materials / Equipment and Methods

Information Ensure you use a surface sanitiser that conforms to BS EN 1276:1997 or BS EN 13697:2001. This information should be available on the label or by contacting the manufacturer.

Information A surface sanitiser may be rendered ineffective if you are not following the correct dilution or allowing a sufficient time for the product to work (contact time). Always follow the instructions on the product label.

Contravention You use a sanitiser that is diluted on site. It was found to have 15 minutes contact time, but you had thought it was 30 seconds, I recommend you buy pre-diluted product that conforms to British Standard.

Recommendation That you buy a pre-diluted sanitiser, that meets the recommended British Standards, and has a short contact time and that paper towels be used to wipe the sanitiser off.

Facilities and Structural provision

Observation I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

Pest Control

Recommendation Ensure the Electric Fly Killer bulbs are regularly changed, as they deteriorate and become ineffective.

Observation I was pleased to note a Electric Fly Killer in kitchen.

3. Confidence in Management

A food safety management system is in place and you comply fully with the law. Hazards to food are understood properly controlled managed and reviewed. Your records are appropriate and being maintained. All your staff are suitably supervised and trained. You have a very good track record. **(Score 0)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

Observation You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Observation I was pleased to see that food handlers and/or managers had been trained to an appropriate level and evidence of their training was made available.

Infection Control / Sickness / Exclusion Policy

Guidance Public Health England recommends that food handlers known or suspected to be suffering from a food-borne infection or gastro-intestinal illness stay away from work until symptom-free for 48 hours.

Observation Policies were in place to prevent any infected food handler from contaminating food.

Allergens

Information Loose (also called non pre-packed) foods are:

- foods served at restaurants and canteens.
- take-away foods that are placed into containers and sold at the same premises.
- any foods sold loose, e.g. meat or cheese at a deli counter, unpackaged bread or pick and mix sweets (including individually wrapped sweets)

Information The 14 allergens are:

- cereals containing gluten
- crustaceans, for example prawns, crabs, lobster and crayfish
- eggs
- fish
- peanuts
- soybeans
- milk
- nuts, such as almonds, hazelnuts, walnuts, pecan nuts, Brazil nuts, pistachio, cashew and macadamia (Queensland) nuts
- celery (and celeriac)
- mustard
- sesame
- sulphur dioxide, which is a preservative found in some dried fruit
- lupin
- molluscs, for example clams, mussels, whelks, oysters, snails and squid

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.

Observation You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
