Food Premises Inspection Report

Name of business:	Flour & Bean
Address of food business:	The Bakehouse Group Ltd 135 Colman Road NR4 7HA
Date of inspection:	21/03/2018
Risk rating reference:	18/00361/FOOD
Premises reference:	07/00019/FD_HS
Type of premises:	Bakers with cafe
Areas inspected:	Servery, Shop floor, Main Kitchen, Storeroom
Records examined:	SFBB, Temperature control records, Pest control report, Training certificates / records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Bakers with cafe

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section is divided into three areas which you are scored against for the hygiene rating:

1. Food hygiene and safety procedures
2. Structural requirements
3. Confidence in management/control procedures

Your Food Hygiene Rating is 5 - a very good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Observation I was pleased you could demonstrate effective E.coli 0157 control through the complete separation of raw and ready-to-eat food, the correct use of wash-hand basins and thorough handwashing, having dedicated equipment (including complex equipment) for raw and ready-to-eat foods, through 2-stage cleaning and the correct use of sanitisers, and by controlling the risks posed by soily vegetables.

Observation you had introduced separate boxes for the use of raw meat and one for allergens

Hand-washing

Observation Hand washing was managed well and wash-hand basins were well stocked with hand cleaning material.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were diligently monitoring temperatures.

Unfit food

Contravention The following food was unfit (and was seized or destroyed in my presence) because it was either; past its use by date; did not conform to food safety requirements; was not produced, prepared or processed in accordance with the regulations; or, in the case of fresh meat, its origin could not be determined:

- a bag of prepared salad was beyond its 'use by' date of 20/3 (See photo below)

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following structural items were dirty and require more frequent and thorough cleaning:

- the grid to the fan in the walk in fridge
- condensational mould was seen to the sky lights

Cleaning of Equipment and Food Contact Surfaces

Contravention The following surfaces and equipment in contact with food were dirty and/or could not be cleaned and require cleaning or discarding:

- underneath the soap dispenser in the shop

Maintenance

Contravention The following items had not been suitably maintained and must be repaired or replaced:

- the legs to the finishing table had flaking paint to it
- flaking paint to the wall in the shop (See photo below)

Pest Control

Observation there was a gap to the rear door allowing pests access to the premises. This must be adapted to prevent access

3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. Your records are appropriate and generally maintained. Your staff are suitably supervised and trained. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of a registered waste carrier.

Training

Observation I was pleased to see that food handlers and/or managers had been trained to an appropriate level and evidence of their training was made available.

Infection Control / Sickness / Exclusion Policy

Observation Policies were in place to prevent any infected food handler from contaminating food.

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.
