What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 5 - a very good standard

1. Food Hygiene and Safety

Food Hygiene standards are excellent. You demonstrated full compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. **(Score 0)**

Contamination risks

Observation Contamination risks were controlled

Hand-washing

Observation Hand washing was managed well and wash-hand basins were well stocked with hand cleaning material.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were diligently monitoring temperatures.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Observation The kitchen had been well maintained and the standard of cleaning was exceptionally high.

Facilities and Structural provision

Contravention The following facilities were inadequate or absent and must be provided or improved:

- a window was open during my inspection which would allow access by pests i.e. flies. I noted fly-screens were fitted but were not being used.

3. Confidence in Management

A food safety management system is in place and you comply fully with the law. Hazards to food are understood properly controlled managed and reviewed. Your records are appropriate and being maintained. All your staff are suitably supervised and trained. You have a very good track record. **(Score 0)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

Observation You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Training

Observation I was pleased to see that food handlers and/or managers had been trained to an appropriate level and evidence of their training was made available.

Allergens

Observation I was pleased to note that you had ingredient allergens listed in your prepared foods. However staff were unable to find allergen information for packed lunches i.e tuna and mayonnaise sandwiches.
