Observation It was noted that you use dried citrus fruits in your cocktails that are produced locally for you. Your containers had not been dated/labelled. It was noted that the batch is small and is used relatively quickly ensuring freshness of the product.

Recommendation Labelling perishable food with the date is must be used or discarded will help you rotate your stock and demonstrates you have effective controls in place. With regards to the dried citrus fruits it is recommended that the date the batch was received by you is written on the container.
