Legal Requirement Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

Legal Requirement You must be able to demonstrate your documented food safety management system is in place, that you are following any procedures needed to control the safety of food and that there are sufficient records to demonstrate this.

Information Provided they have been trained in what to do, any member of staff can tick or initial the checkbox in the diary to indicate they have done the opening and closing checks or to record a problem and what they did about it. However, only the person in charge (the food business operator or FBO) should sign the diary to show that the pack has been followed that day. This signature has legal weight in that it shows the FBO has taken responsibility for the standards that day.
