### What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with <u>straight away</u>.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next <u>2 months</u>.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

Your Food Hygiene Rating is 5 - a very good standard

### 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. (Score 5)

#### Contamination risks

Observation I was pleased to see that contamination risks were controlled

### Hand-washing

**Observation** Hand washing was managed well and wash-hand basins were well stocked with hand cleaning material.

## Personal Hygiene

**Legal requirement** in order to prevent contamination of foodstuffs, personal items such as mobile phones must not be stored in a food room

### **Poor Practices**

**Observation** The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration

- eggs were being stored at ambient temperatures, it is a government recommendation that eggs are stored in the fridge
- mushroom were being stored passed their 'best before' date 17/12.

**Guidance** It is an offence to sell food which is not of the nature, substance or quality demanded by the consumer. Food used passed it's 'best before' date could be of a reduced quality so you must check it is OK before you use it.
