

Public Protection (food & safety)

Food Premises Inspection Report

Name of business:	Spice Valley				
Address of food business:	Ground Floor				
	5 Magdalen Street				
	Norwich				
	NR3 1LE				
Date of inspection:	07/01/2019				
Risk rating reference:	19/00005/FOOD				
Premises reference:	18/00260/FD_HS				
Type of premises:	Restaurant				
Areas inspected:	All				
Records examined:	SFBB, Pest control report				
Details of samples procured:	None				
Summary of action taken:	Informal				
General description of	Indian restaurant				
business:					

Relevant Legislation

Food Safety Act 1990 (as amended) Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended) Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013 Health and Safety at Work etc. Act 1974 and related regulations Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with <u>straight away</u>.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next <u>2 months</u>.

Health and safety contraventions should be dealt with within <u>3 months</u> unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area				You Score					
Food Hygiene and Safety				0	5	10	15	20	25
Structure and Cleaning				0	5	10	15	20	25
Confidence in management & control systems				0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30		35 - 40		45 - 50		> 50
Your Worst score	5	10	10		15		20		-
Your Rating is	5	4		3	2	2	1		0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Contravention The following exposed ready-to-eat food and/or its packaging to the risk of cross-contamination with foodborne bacteria from raw meat or unwashed fruits and vegetables:

- raw food i.e meat was being stored next to ready-to-eat foods i.e prawns
- cooked foods i.e prawns were being stored on top of raw foods i.e chicken in the same container. You informed me that this was for staff use
- the same containers and utensils were being used for raw and cooked foods

Recommendation Provide separate equipment and utensils designated for use with either raw or ready-to-eat foods, which can be easily identified (e.g. colour coded) and stored and washed separately.

Legal requirement At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

Recommendation Chopping/cutting boards were being stored directly touching. Chopping/cutting boards must be stored in a rack properly divided to stop cross-contamination and to allow aeration

Information The FSA has issued guidance on controlling *E.coli* 0157 through:

- the complete separation of raw and ready-to-eat food
- the correct use of wash-hand basins and thorough handwashing
- having dedicated equipment (including complex equipment) for raw and ready-to-eat foods
- thorough 2-stage cleaning and the correct use of sanitisers and by controlling the risks posed by soil contaminated vegetables.

Visit: www.food.gov.uk for more information

Hand-washing

Contravention The following indicated that hand-washing was not suitably managed:

- there was no towel to the towel dispenser to the designated wash hand basin
- food debris was seen to the designated wash hand basin

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

Unfit food

Contravention The following foods were past the USE BY date and were thrown away:

 a bag of lettuce was being stored passed it's 'use by' date of 2/1 in the upright larder fridge

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. (Score 5)

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

• around the top rim to the chest freezer numbered four

Cleaning of Equipment and Food Contact Surfaces

Contravention The following surfaces and equipment were dirty and must be cleaned or replaced:

- the bottom interior to the hot cupboard
- you need to remove the protective film from equipment to aid easy cleaning

Cleaning Chemicals / Materials / Equipment and Methods

Observation I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- bare wood to shelf, this needs to be sealed or painted
- bare slats to the wall above the washing up sink these need to be sealed or painted to aid easy cleaning
- bare wood to the legs to work surface in the rice store
- edge to the work surface in the rice store needs to be sealed
- damp was seen to the bottom of the wall to the rice store
- handle was missing to the chest freezer numbered four
- flooring to the storeroom is not suitable, renew the floor so as to provide a surface that can be easily cleaned

Facilities and Structural provision

Observation I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

Pest Control

Contravention there was a gap to the rear door. Any gaps and holes to external doors, windows, pipes, drains etc. must be filled or covered with a solid, durable material in order to minimise pest entry points into food preparation and storage areas

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. You are progressing towards a written food safety management system. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Type of Food Safety Management System Required

Legal Requirement Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

Legal Requirement Ensure that your food safety management system is available on site so your staff can refer to your procedures and so that daily records of checks can be completed.

Information As you are a new business you have been given the benefit of the doubt despite your food safety management system not fully complying with the law. You must act on this now as your hygiene rating score will be reduced to a maximum of 1 if there is a similar situational at the next visit.

Food Hazard Identification and Control

Contravention The Safe Methods in your Safer Food Better Business (SFBB) pack are intended to show you have identified the hazards to food and what you must do to control them. The following Safe Methods were either missing from your SFBB pack or had not been completed appropriately:

- Cross-contamination
- Cleaning
- Chilling
- Cooking

Proving Your Arrangements are Working Well

Contravention The Management sections in your Safer food Better Business (SFBB) pack are intended to demonstrate you are in day-to-day control of the hazards to food. The following Management sections were either missing, incomplete or not up-to-date:

- Your contacts list
- staff training records

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of a registered waste carrier.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

<u>Allergens</u>

Legal Requirement Caterers must provide allergy information on all unpackaged food they sell. Catering businesses include restaurants, takeaways, deli counters, bakeries and sandwich bars etc. The potential for cross-contamination by allergens must also be made known to consumers. In addition food manufacturers must now label allergy causing ingredients on their pre-packed foods. You can obtain more information from the Trading Standards website www.norfolk.gov.uk/abc

Information There are Level 2 Awards in Food Allergen Awareness on offer in Dereham. If you are interested contact 0800 689 3512

Recommendation Make a chart listing all your meals together with the 14 allergens (if present). Bring the chart to the attention of your customers and your staff.
