business:

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended) Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food

Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with <u>straight away</u>.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next <u>2 months</u>.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area				You Score						
Food Hygiene and Safety					5	10	15	20	25	
Structure and Cleaning					5 10		15	20	25	
Confidence in management & control systems					5 10		15	20	30	
Your Total score	0 - 15	20	21	5 - 30 35 - 40		- 40	45 - 50		> 50	
Your Worst score	5	10		10	15		20		- 00	
Tour Worst Score	3	10		10	10		20		•	
Your Rating is	5	4		3	2	2	1		0	

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. (Score 5)

Contamination risks

Contravention The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

• not fully allergen aware of products handled, stored and cooked on mobile

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. (Score 5)

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- vents fitted to ceiling
- wall/floor joints
- taps to wash hand facilities
- inside cupboards
- front of main griddle

Pest Control

Observation I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. All the significant food hazards are understood and controls are in place. Your records are appropriate and generally maintained but some deficiencies were identified. You have a satisfactory track record. The contraventions require your attention; although not critical to food safety they may become so if not addressed. (Score 10)

Proving Your Arrangements are Working Well

Contravention The following matters are needed in order to demonstrate your food safety management system is working as it should::

 your safer food better business pack (SFBB) was very untidy with many loose and out dated/duplicated sections. The SFBB pack in its current state was very difficult to follow. I noted that you had sourced new inserts to update the current SFBB pack from Coventry City Council but these were all still blank. I took your verbal assurance that the SFBB pack will be attended to in the few days.

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Infection Control / Sickness / Exclusion Policy

Observation Policies were in place to prevent any infected food handler from contaminating food.

Allergens

Contravention You are failing to manage allergens properly:

- You have not identified the allergens present in the food you prepare
- You do not have a system for informing customers about the presence of allergens in the food you prepare
- You are not informing customers about the risk of cross contamination with allergens

Recommendation Make a chart listing all your meals together with the 14 allergens (if present). Bring the chart to the attention of your customers and your staff.

Recommendation Add allergy information to your menu
