Premises reference:	13/00293/FD_HS
Type of premises:	Retail shop
Areas inspected:	All
Records examined:	None
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Post Office selling prepacked food

Relevant Legislation

Food Safety Act 1990 (as amended)
Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)
Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013
Health and Safety at Work etc. Act 1974 and related regulations
Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 3 - a generally satisfactory standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Hand-washing

Contravention The following indicated that hand-washing was not suitably managed:

- there was no hot water to the wash hand basin
- wash hand basin was dirty
- no means for hygienically drying hands was available.

Legal Requirement Wash hand basins must be provided with soap and hygienic hand drying facilities.

Poor Practices

Contravention The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- food such as drinks in the bottles and cans were stored directly on the floor

Legal requirement food must be stored off of the floor where it might be at risk of contamination

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- wash hand basin.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- floor surfaces in the stock room
- missing large ceiling panel.

Facilities and Structural provision

Contravention The following facilities were inadequate and must be improved:

- no hot water.

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Type of Food Safety Management System Required

Contravention You are a low risk business and do not have a food safety management system or what you have in place is not suitable given the food risks associated with your business. You still require a minimum amount of documentation. This might include your hygiene rules, pest control reports, a staff illness and exclusion policy, a cleaning schedule, date coding, temperature checks of display chillers, and handover diary etc.

Legal Requirement Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

Information You can download a Safer Food Better Business pack and refill diary pages from the FSA website: www.food.gov.uk/business-industry/caterers/sfbb

Food Hazard Identification and Control

Contravention The following pre-requisites have not been met and this means that your food safety management system will be ineffective:

- Services and facilities are inadequate
