

Public Protection (food & safety)

Food Premises Inspection Report

Name of business:	The Oak Tree
Address of food business:	59 Ipswich Road Norwich NR4 6LA
Date of inspection:	30/04/2019
Risk rating reference:	19/00392/FOOD
Premises reference:	15/00326/FD_HS
Type of premises:	Public House with catering
Areas inspected:	Main Kitchen, Storeroom
Records examined:	FSMS, Cleaning schedule, Temperature control records, Pest control report
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Public House with Catering

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Contravention The following exposed ready-to-eat food and or its packaging to the risk of cross-contamination with foodborne bacteria from raw meat or unwashed fruits and vegetables:

- raw foods i.e eggs were being stored next to ready-to-eat foods i.e cream and coleslaw in the fridge in the cellar

Observation I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

Hand-washing

Observation I was pleased to see handwashing was well managed.
Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

Poor Practices

Contravention The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration::

- dent to can of mushy peas

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- floor wall junctions
- pipework to the wash hand basin
- flooring underneath equipment

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- can opener
- electric sockets
- interior bottom to meat fridge
- drawer to griddle
- seals to starter freezer
- ridge to top of door to starters fridge
- blade to the table top can opener

- seals to sweet freezer

Cleaning Chemicals / Materials / Equipment and Methods

Observation I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- hot tap loose to both wash hand basins
- door to microwave
- split seals to starter fridges
- split seals to ice cream freezer
- rust to interior of cupboard where boards and plastic containers are housed

Pest Control

Observation You have a pest control contract in place and there is no evidence of pest activity on the premises.

3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. Food hazards are understood properly controlled managed and reviewed. Your records are appropriate and generally maintained. Your staff are suitably supervised and trained. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

Observation You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Food Hazard Identification and Control

Contravention You have not identified these food hazards or the methods of control at critical points in your operation:

- cross-contamination
- raw foods stored next to ready-to-eat foods

Proving Your Arrangements are Working Well

Contravention You are not working to the following safe methods in your SFBB pack

- cleaning/clear and clean as you go
- add your can opener to your cleaning schedule

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available. However more training is needed in cleaning

Infection Control / Sickness / Exclusion Policy

Guidance Public Health England recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

Observation Policies were in place to prevent any infected food handler from contaminating food.

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.

Observation You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
