

**Public Protection (food & safety)**

**Food Premises Inspection Report**

Name of business:	Brasov Taste Of Romania
Address of food business:	Norwich In Car Entertainment 47 Dereham Road Norwich NR2 4HZ
Date of inspection:	16/05/2019
Risk rating reference:	19/00436/FOOD
Premises reference:	19/00156/FD_HS
Type of premises:	Restaurant/cafe
Areas inspected:	All
Records examined:	Temperature control records, Training certificates / records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Romanian restaurant serving local community

**Relevant Legislation**

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

**What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	<b>5</b>	10	15	20	25
Structure and Cleaning	0	<b>5</b>	10	15	20	25
Confidence in management & control systems	0	5	<b>10</b>	15	20	30
<b>Your Total score</b>	0 - 15	<b>20</b>	25 - 30	35 - 40	45 - 50	> 50
<b>Your Worst score</b>	5	<b>10</b>	10	15	20	-
<b>Your Rating is</b>	5	<b>4</b>	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

### 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

#### Contamination risks

**Observation** I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

#### Hand-washing

**Contravention** The following indicated that hand-washing was not suitably managed:

- the hot water supply was too hot for comfortable hand washing
- the hot water supply would 'cut out' when turned on, only allowing a brief supply of hot water to wash hands. You later attended to this by having an engineer adjust the unit and adjusting the boiler settings. The hot water boiler had only recently been installed.

## Temperature Control

**Contravention** The following evidence indicated there was a risk of bacteria growing on food:

- the temperature of the upright fridge in side storage room was running at 10.9 degree's celsius. You need to adjust the unit so foods are stored below 8 degree's celsius, ideally between 1-5 degree's. You informed me that an engineer has been called and an appointment booked to adjust the fridge in the next few days.

## **2. Structure and Cleaning**

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

### Cleaning of Structure

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- high level cleaning in rear store as cobwebs were seen
- wood threshold into rear store room.

**Contravention** The following items could not be effectively cleaned and must be covered or made non-absorbent:

- unsealed wooden structures including door threshold into side store room containing upright fridge.

### Facilities and Structural provision

**Contravention** The following facilities were inadequate and must be improved::

- the hot water boiler was 'tripping' when hot water was turned on at the wash hand basin and large washing up sinks. This was later fixed by an engineer later that day.

**Observation** I was pleased to note that you have a large commercial dishwasher to be able to adequately wash and sterilise equipment.

## **3. Confidence in Management**

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. All the significant food hazards are understood and controls are in place. You are progressing towards a written food safety management system. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

## Type of Food Safety Management System Required

**Contravention** You do not have a food safety management system. Implement Safer Food Better Business or an equivalent food safety management system.

**Legal Requirement** Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

**Information** You can download a Safer Food Better Business pack and refill diary pages from the FSA website: [www.food.gov.uk/business-industry/caterers/sfbb](http://www.food.gov.uk/business-industry/caterers/sfbb)

**Information** As you are a new business you have been given the benefit of the doubt despite your food safety management system not fully complying with the law. You must act on this now as your hygiene rating score will be reduced to a maximum of 1 if there is a similar situational at the next visit.

**Recommendation** Choose Safer Food Better Business as your food safety management system. It is simple to implement and requires a minimum amount of record keeping.

**Recommendation** You can buy a printed copy of Safer Food Better Business or a diary refill pack via our website [www.norwich.gov.uk/sfbb](http://www.norwich.gov.uk/sfbb)

**Observation** You later had on the premises a copy of Safer Food Better Business (SFBB) but it was from a another food business. This therefore could not be used for your business as it contained incorrect information regarding your business operation and activities. I am pleased to note that you are booked on a Safer Food Better Business course.

## Traceability

**Observation** Your records were such that food could easily be traced back to its supplier.

## Training

**Observation** I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

## Allergens

**Contravention** You are failing to manage allergens properly::

- you have not identified the allergens present in the food you prepare
- you do not have a system for informing customers about the presence of

- allergens in the food you prepare
- you are not informing customers about the risk of cross contamination with allergens.

**Legal Requirement** Caterers must provide allergy information on all unpackaged food they sell. Catering businesses include restaurants, takeaways, deli counters, bakeries and sandwich bars etc. The potential for cross-contamination by allergens must also be made known to consumers. In addition food manufacturers must now label allergy causing ingredients on their pre-packed foods. You can obtain more information from the Trading Standards website [www.norfolk.gov.uk/abc](http://www.norfolk.gov.uk/abc)

**Information** Advise your customers how to get allergen information. You can display a sign along the lines of ASK OUR STAFF ABOUT ALLERGENS

**Information** The Food Standards Agency has produced a chart that you may find useful [www.food.gov.uk/sites/default/files/media/document/allergen-chart.pdf](http://www.food.gov.uk/sites/default/files/media/document/allergen-chart.pdf)

**Information** Allergen information could be written down on a chalk board or chart, or provided orally by a member of staff. Where the specific allergen information is not provided up front, clear sign posting to where this information could be obtained must be provided.

**Information** The 14 allergens are:

- cereals containing gluten
- crustaceans, for example prawns, crabs, lobster and crayfish
- eggs
- fish
- peanuts
- soybeans
- milk
- nuts, such as almonds, hazelnuts, walnuts, pecan nuts, Brazil nuts, pistachio, cashew and macadamia (Queensland) nuts
- celery (and celeriac)
- mustard
- sesame
- sulphur dioxide, which is a preservative found in some dried fruit
- lupin
- molluscs, for example clams, mussels, whelks, oysters, snails and squid

**Information** The Food Information Regulations require that you know what allergens are in the food you provide. You can no longer claim you don't know what allergens are present. Neither can you simply state that all the foods you serve might contain an allergen:

- Be sure you know exactly what your allergens are
- Convey this information to your customers accurately and consistently

**Recommendation** Make a chart listing all your meals together with the 14 allergens (if present). Bring the chart to the attention of your customers and your staff.

**Recommendation** Add allergy information to your menu
