# **Food Premises Inspection Report**

Name of business: Hello Norfolk/Mama Bake

Address of food business: 10 St Edmunds Wharf Norwich NR3 1GU

Date of inspection: 14/01/2020 Risk rating reference: 20/00078/FOOD Premises reference: 19/00092/FD\_HS

Type of premises: Home Caterer

Areas inspected: All

Records examined: Food Safety Management System

Details of samples procured: None Summary of action taken: Informal

General description of Home caterer, low risk biscuits.

business:

### **Relevant Legislation**

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food

Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

### What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with <u>straight away</u>.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

### **FOOD SAFETY**

# How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area				You Score					
Food Hygiene and Safety				0	5	10	15	20	25
Structure and Cleaning				0	5	10	15	20	25
Confidence in management & control systems				0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30		35 - 40		45 - 50		> 50
Your Worst score	5	10	10		15		20		-
	_				ſ			r	
Your Rating is	5	4	3		2		1		0

Your Food Hygiene Rating is 5 - a very good standard

### 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. (Score 5)

#### Contamination risks

**Legal Requirement** At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

**Observation** I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

### Hand-washing

**Legal Requirement** An adequate number of wash hand basins must be available for use, they must be suitably located and designated for cleaning hands.

**Information** Proper hand-washing is essential to prevent cross-contamination of E.coli 0157 and other harmful bacteria onto food and food contact surfaces. Hand washing should include the following steps:

- wet hands before applying soap
- good hand rubbing technique
- rinsing of hands
- hygienic drying.

**Observation** I was pleased to see hand washing was well managed.

**Recommendation** As your business expands you will need to ensure you have hand washing facilities available when you trade at outside events. This is relevant depending on what other facilities are available and whether you are handling open food.

# Personal Hygiene

**Legal Requirement** You must ensure that any member of staff that you know or suspect has (or is a carrier of) a food-borne disease or infection (including vomiting, diarrhoea, skin infection, sores and open wounds) is excluded from working in any food handling area until they have been symptom free for 48 hours or until medical clearance has been obtained.

**Legal Requirement** Washbasins must be available, suitably located and designated for cleaning hands. Wash-hand basins must be provided with hot and cold (or suitably mixed) running water. Soap and hand drying facilities must be located nearby.

**Legal Requirement** All persons in food handling areas must wear suitable, clean, and where appropriate protective clothing.

**Observation** I was pleased to see that standards of personal hygiene were high.

### Temperature Control

**Observation** You do not handle high risk foods

### Unfit food

**Recommendation** You should have a system to identify when open or prepared foods need to be used by or discarded, to ensure the food is fit for consumption.

**Observation** You were aware of use by and best before date legislation.

### 2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all excellent and you demonstrated full compliance with the law. There is evidence of effective pest control and

procedures are in place to rectify any problems as they arise. There is good provision for waste disposal. **(Score 0)**Cleaning of Structure

**Observation** The kitchen had been well maintained and the standard of cleaning was exceptionally high.

# Cleaning Chemicals / Materials / Equipment and Methods

**Information** You must ensure that the sanitisers you use are effective against bacteria. Ensure hat they meet the following standards BS EN 1276:1997 and 13697:2001.

**Guidance** Even when using a surface sanitiser you should be following the 'two-stage' cleaning method. Apply the sanitiser once to remove visible dirt and food debris and then a second time to ensure effective disinfection. Make sure you follow the correct contact time for the product.

**Observation** I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

### Facilities and Structural provision

**Observation** I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

### **Pest Control**

**Recommendation** Provide an electric fly killer.

### 3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. (Score 5)

### Type of Food Safety Management System Required

**Legal Requirement** Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- · Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

**Information** You can download a Safer Food Better Business pack and refill diary pages from the FSA website: www.food.gov.uk/business-industry/caterers/sfbb However some of this pack would not be applicable to your business.

**Observation** I was confident you had effective control over hazards to food.

**Observation** I left with you a basic Haccp for cake makers. This may be used solely, or as discussed you can down load the SFBB catering pack.

### **Traceability**

**Recommendation** That you keep clear records of stock batch codes and product type etc for traceability.

### Waste Food and other Refuse

**Observation** You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

# **Training**

**Legal Requirement** Food business operators must ensure that food handlers are supervised and instructed and/or trained in food hygiene matters to an appropriate level for the work they do.

**Information** You can obtain a list of the training courses we provide on our website www.norwich.gov.uk

**Information** There are Level 2 Awards in Food Allergen Awareness on offer in Dereham. If you are interested contact 0800 689 3512

**Recommendation** Catering staff should refresh their food hygiene knowledge every 3 years so that they stay up to date with current legislation and good practice. Booking details for this course are on our website: www.norwich.gov.uk

**Observation** I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

### Infection Control / Sickness / Exclusion Policy

**Guidance** Public Health England recommends that food handlers known or suspected to be suffering from a food-borne infection or gastro intestinal illness stay away from work until symptom-free for 48 hours.

**Observation** Policies were in place to prevent any infected food handler from contaminating food.

### Allergens

**Legal Requirement** Food manufacturers must label allergy causing ingredients on their pre-packed foods. If you use pre-packed foods as ingredients you need to include the allergens listed on them within your own list of allergens. For example, some

pre-packed spices you use will contain mustard which your customers will need to be made aware of.

**Information** Advise your customers how to get allergen information. You can display a sign along the lines of ASK OUR STAFF ABOUT ALLERGENS

**Information** The Food Standards Agency has produced a chart that you may find useful www.food.gov.uk/sites/default/files/media/document/allergen-chart.pdf it is recommended that you complete this. Bring this to your customers attention.

### **Information** The 14 allergens are:

- cereals containing gluten
- crustaceans, for example prawns, crabs, lobster and crayfish
- eggs
- fish
- peanuts
- soybeans
- milk
- nuts, such as almonds, hazelnuts, walnuts, pecan nuts, Brazil nuts, pistachio, cashew and macadamia (Queensland) nuts
- celery (and celeriac)
- mustard
- sesame
- sulphur dioxide, which is a preservative found in some dried fruit
- lupin
- molluscs, for example clams, mussels, whelks, oysters, snails and squid

**Information** The Food Information Regulations require that you know what allergens are in the food you provide. You can no longer claim you don?t know what allergens are present. Neither can you simply state that all the foods you serve might contain an allergen:

- Be sure you know exactly what your allergens are
- Convey this information to your customers accurately and consistently

**Recommendation** That you contact Norfolk County Council Trading Standards department for guidance about explaining allergens and date codes on your labels.

**Observation** Whilst you appeared knowledgable about allergens you did not have any formal paperwork to support this. Please see my comments above.
