Food Premises Inspection Report

Name of business:	Spring Milecross
Address of food business:	Norman Community Centre Bignold Road Norwich NR3 2QZ
Date of inspection:	16/03/2020
Risk rating reference:	20/00115/food
Premises reference:	04/00145/FD_HS
Type of premises:	Childrens nursery
Areas inspected:	Main Kitchen
Records examined:	Training Certificates/records, Cleaning Schedule, Temperature Control Records, FSMS
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Nursery serving 3 month to 5 year olds, max 64 children

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30

Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-

Your Rating is	5	4	3	2	1	0
----------------	---	---	---	---	---	---

Your Food Hygiene Rating is 5 - a very good standard

Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Guidance The FSA (visit www.food.gov.uk for more information) has issued guidance on controlling E.coli 0157 through:

- * the complete separation of raw and ready-to-eat food
- * the correct use of wash-hand basins and thorough hand washing
- * having dedicated equipment (including complex equipment) for raw and ready-to-eat foods
- * through 2-stage cleaning and the correct use of sanitisers
- * and by controlling the risks posed by soily vegetables.

Observation I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

Recommendation To further meet E coli guidance it is recommended you designate a surface entirely for raw meat. As discussed this could be a trolley.

Hand-washing

Legal Requirement Wash hand basins must be provided with hot and cold running water and suitable drainage; soap and a hygienic way to dry hands.

Information Proper hand-washing is essential to prevent cross-contamination of E.coli 0157 and other harmful bacteria onto food and food contact surfaces. Handwashing should include the following steps:

- wet hands before applying soap
-
- good hand rubbing technique
-
- rinsing of hands
-
- hygienic drying

Information We have a handwashing demonstration kit which you might like to borrow in order to demonstrate the principles of correct hand washing to your staff. Contact the Duty Officer on 01603 212747 for more information.

Recommendation For extra protection against cross contamination use a liquid soap with disinfectant properties conforming to the European standard BS EN 1499: 1997. This information should be available on the product label or may be obtained from the supplier or manufacturer.

Recommendation After washing hands food handlers should turn the taps off using paper towel to prevent them from re contaminating their hands

Observation I was pleased to see hand washing was well managed.

Personal Hygiene

Legal Requirement You must ensure that any member of staff that you know or suspect has (or is a carrier of) a food-borne disease or infection (including vomiting, diarrhoea, skin infection, sores and open wounds) is excluded from working in any food handling area until they have been symptom free for 48 hours or until medical clearance has been obtained.

Legal Requirement All persons in food handling areas must wear suitable, clean, and where appropriate protective clothing.

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Contravention The following evidence indicated there was a risk of bacteria growing on food::

- no formal monitoring of high risk food delivered to the business. There is a document for this.

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

Observation No reheating is carried out.

Structure and Cleaning

The structure, facilities and standard of cleaning and maintenance are all excellent and you demonstrated full compliance with the law. You have effective pest control. Procedures are in place to rectify any problems as they arise. There is good provision for waste disposal. **(Score 0)**

Cleaning of Structure

Observation The kitchen had been well maintained and the standard of cleaning was exceptionally high.

Cleaning of Equipment and Food Contact Surfaces

Information Please refer to www.food.gov.uk/business-guidance/e-coli-cross-contamination-guidance

Observation You had dedicated equipment for the preparation of raw and ready-to-eat foods.

Cleaning Chemicals / Materials / Equipment and Methods

Information A surface sanitiser may be rendered ineffective if you are not following the correct dilutions or allowing a sufficient time for the product to work (CONTACT TIME). Always follow the instructions on the product label.

Information You must ensure that the sanitisers you use are effective against bacteria. Ensure that they meet the following standards BS EN 1276:1997 and 13697:2001.

Observation I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

Maintenance

Observation You are maintaining the premises in good condition.

Facilities and Structural provision

Observation I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

Observation You have a dishwasher and double sink.

Pest Control

Observation I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

Confidence in Management and Control Systems

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. Food hazards are understood, properly controlled, managed and reviewed. Your records are appropriate and generally maintained. Your staff are suitably supervised and trained. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

Observation You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Proving Your Arrangements are Working Well

Contravention The following matters are needed in order to demonstrate your food safety management system is working as it should::

- Incoming delivery control form not completed

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available. Stand in staff are also trained.

The main cook has undertaken level 3, and allergen training.

Infection Control / Sickness / Exclusion Policy

Observation Policies were in place to prevent any infected food handler from contaminating food.

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.

Observation You had clearly shown the presence of allergens in your food on your menu.

Observation You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
