

## Public Protection (food & safety)

## Food Premises Inspection Report

Name of business:	Sanctuary Coffee Stop				
Address of food business:	St Albans Church Hall Grove Walk Norwich NR1 2QF				
Date of inspection:	29/04/2021				
Risk rating reference:	21/00051/FOOD				
Premises reference:	16/00026/FD_HS				
Type of premises:	Restaurant or cafe				
Areas inspected:	Main Kitchen, Storeroom				
Records examined:	Training Certificates/records, SFBB, Temperature				
	Control Records				
Details of samples procured:	None				
Summary of action taken:	Informal				
General description of business:	Coffee shop				

## **Relevant Legislation**

Food Safety Act 1990 (as amended) Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended) Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013 Health and Safety at Work etc. Act 1974 and related regulations Food Information Regulations 2014

#### What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with <u>straight away</u>.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next <u>2 months</u>.

Health and safety contraventions should be dealt with within <u>3 months</u> unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

# FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area				You Score					
Food Hygiene and Safety				0	5	10	15	20	25
Structure and Cleaning				0	5	10	15	20	25
Confidence in management & control systems				0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30		35 - 40		45 - 50		> 50
Your Worst score	5	10	10		15		20		-
Your Rating is	5	4		3		2	1		0

Your Food Hygiene Rating is 4 - a good standard

## 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. (Score 5)

## Hand-washing

Observation I was pleased to see handwashing was well managed.

#### Personal Hygiene

**Contravention** The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- staff were not wearing suitable protective clothing when I arrived. However aprons were put on in my presence
- jewellery/ watches worn when preparing food

Legal requirement All persons in food handling areas must wear suitable, clean, and where appropriate protective clothing <u>Temperature Control</u>

**Observation** I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

### Poor Practices

**Observation** The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- Soya milk was being stored beyond its 'Best Before' date of 7/12/20
- grated cheese had a label on it to check on 5 May. It states on the pack to use within 5 days after opening

**Guidance** It is permitted to sell food after its BEST BEFORE date, but becomes an offence if it is not of the nature, substance or quality demanded by the consumer. You must check the food and make sure your customers are aware that it is past the BEST BEFORE date..

**Recommendation** You should have a system to identify when open or prepared foods need to be used by or discarded, to ensure the food is fit for consumption. I recommend you apply labels which give a date that is 2 days after the day of production e.g. if food is opened on Monday it should be used by the end of Wednesday (an exception is rice which should not be kept longer than 24 hours)

## 2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)** 

## **Cleaning of Structure**

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- floor/wall junctions
- around equipment feet
- behind and under equipment
- walls particularly behind food preparation surfaces
- skirting boards
- cobwebs were seen to high areas

## Cleaning of Equipment and Food Contact Surfaces

**Contravention** The following items are dirty and must be cleaned::

- Interior bottom to freezer
- Bin and pedal

**Observation** You had dedicated equipment for the preparation of raw and ready-to-eat foods.

## Cleaning Chemicals / Materials / Equipment and Methods

**Observation** I was pleased to see that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

## **Maintenance**

**Contravention** The following had not been suitably maintained and must be repaired or replaced:

- Split seal to freezer
- Split seals to Polar fridge
- Bare wood structures. You need to seal/paint the wood to leave a smooth impervious surface that can be easily cleaned

## Facilities and Structural provision

**Observation** I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

## Pest Control

**Observation** I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

## 3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)** 

## Type of Food Safety Management System Required

**Observation** Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

**Observation** You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

**Observation** You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

### Safer Food Better Business/Food safety Management System that works

**Contravention** The Management sections in your Safer food Better Business (SFBB) pack are intended to demonstrate you are in day-to-day control of the hazards to food. The following Management sections were either missing, incomplete or not up-to-date:

- Add yourself to the staff training lists
- Cleaning schedule, you need to add all of your equipment to your cleaning schedule and the methods of cleaning

### **Traceability**

**Observation** Your records were such that food could easily be traced back to its supplier.

#### Waste Food and other Refuse

**Observation** You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

#### <u>Training</u>

**Recommendation** Catering staff should refresh their food hygiene knowledge every 3 years so that they stay up to date with current legislation and good practice. Booking details for this course are on our website: www.norwich.gov.uk

**Observation** I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Infection Control / Sickness / Exclusion Policy

**Guidance** Public Health England recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

## Allergens

**Observation** You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
