

### Public Protection (food & safety)

#### Food Premises Inspection Report

| Name of business:                | The Amigos                    |
|----------------------------------|-------------------------------|
| Address of food business:        | 120 Hall Road Norwich NR1 3HP |
| Date of inspection:              | 12/05/2021                    |
| Risk rating reference:           | 21/00068/FOOD                 |
| Premises reference:              | 20/00250/FD HS                |
| Type of premises:                | Food take away premises       |
| Areas inspected:                 | Servery, Main Kitchen         |
| Records examined:                | SFBB                          |
| Details of samples procured:     | None                          |
| Summary of action taken:         | Informal                      |
| 5                                |                               |
| General description of business: | Takeaway                      |

#### **Relevant Legislation**

Food Safety Act 1990 (as amended) Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended) Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013 Health and Safety at Work etc. Act 1974 and related regulations Food Information Regulations 2014

#### What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with <u>straight away</u>.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next <u>2 months</u>.

Health and safety contraventions should be dealt with within <u>3 months</u> unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

# FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

| Compliance Area                            |        |    |         | You Score |         |    |         |    |      |
|--|--------|----|---------|-----------|---------|----|---------|----|------|
| Food Hygiene and Safety                    |        |    | 0       | 5         | 10      | 15 | 20      | 25 |      |
| Structure and Cleaning                     |        |    | 0       | 5         | 10      | 15 | 20      | 25 |      |
| Confidence in management & control systems |        |    | 0       | 5         | 10      | 15 | 20      | 30 |      |
| Your Total score                           | 0 - 15 | 20 | 25 - 30 |           | 35 - 40 |    | 45 - 50 |    | > 50 |
| Your Worst score                           | 5      | 10 | 10      |           | 15      |    | 20      |    | -    |
| Your Rating is                             | 5      | 4  |         | 3         |         | 2  | 1       |    | 0    |

Your Food Hygiene Rating is 3 - a generally satisfactory standard

## 1. Food Hygiene and Safety

Food hygiene standards are generally satisfactory and maintained. There is evidence of some non-compliance with legal requirements. Some lapses are evident however generally you have satisfactory food handling practices and procedures and adequate control measures to prevent cross-contamination are in place. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)** 

0 1 2 3 4 5

## Contamination risks

**Contravention** Food was not protected from general sources of contamination:

- food was not covered in the fridge
- cheese slices in the walk-in fridge not covered

**Contravention** The following exposed ready-to-eat food and/or its packaging to the risk of cross-contamination with <u>E. coli</u> 0157 and other pathogenic bacteria from raw meat or unwashed raw vegetables:

• raw foods i.e burgers were being stored next to ready-to-eat foods i.e cheese (grated and burger slices) and garlic mayonnaise

**Contravention** You could not demonstrate effective disinfection of equipment and utensils used for both raw and ready-to-eat foods, either by heat or an adequate dishwasher cycle. Separate equipment and utensils must be provided. Such equipment should be easily identifiable (e.g. colour coded) and must be stored and washed separately.:

 tongs used for raw foods and ready-to-eat foods were being stored touching at the griddle

**Legal requirement** At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

**Recommendation** Provide separate equipment and utensils for raw and ready to eat foods, which can be easily identified (colour coded) and stored and washed separately.

Information The FSA has issued guidance on controlling *E.coli* 0157 through:

- the complete separation of raw and ready-to-eat food
- the correct use of wash-hand basins and thorough handwashing
- having dedicated equipment (including complex equipment) for raw and ready-to-eat foods
- thorough 2-stage cleaning and the correct use of sanitisers
- and by controlling the risks posed by soil contaminated vegetables.

Visit: <u>www.food.gov.uk</u> for more information

### Personal Hygiene

**Contravention** The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- staff were not wearing suitable protective clothing
- a food handler was seen wearing a ring
- best hand-washing practices were not observed

**Legal requirement** All persons in food handling areas must wear suitable, clean, and where appropriate protective clothing

**Information** Regular hand washing is important for personal cleanliness. Remind all food handlers of the need to wash their hands before starting or returning to work, and specifically:

- After using the toilet;
- After handling rubbish;

- After smoking;
- After taking a break;
- After handling raw food

### Temperature Control

**Contravention** The following evidence indicated there was a risk of bacteria growing on food:

• cold foods i.e prepared salads were being stored above 8°C

**Legal requirement** Raw materials, ingredients, intermediate products and finished products likely to support the reproduction of pathogenic micro-organisms or the formation of toxins must not be kept at temperatures that might result in a risk to health.

**Legal requirement** The cold chain is not to be interrupted. However, limited periods outside temperature control are permitted, to accommodate the practicalities of handling during preparation, transport, storage, display and service of food, provided that it does not result in a risk to health.

## 2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)** 

### Cleaning of Structure

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- floor/wall junctions
- flooring around equipment feet
- flooring behind and under equipment
- interior to door of walk-in fridge
- top to chest freezer in walk-in fridge
- interior to rear door
- miscellaneous clutter due to poor housekeeping

**Recommendation** Housekeeping could be greatly improved. Remove redundant items and equipment from food rooms, tidy away miscellaneous objects into drawers and boxes and keep work surfaces and the floor clear for ease of cleaning and disinfection.

### Cleaning of Equipment and Food Contact Surfaces

**Contravention** The following items are dirty and must be cleaned::

- fridge and freezer seals
- interior bottom to fridge storing cheese
- microwave
- can opener
- food storage containers and lids
- cardboard used under pizza oven
- bin near rear door
- shelving to stainless steel tables
- side to upright freezer door
- handle to Fridgemaster door
- vent to griddle
- handle to pizza dough roller

### Cleaning Chemicals / Materials / Equipment and Methods

**Contravention** The following evidence demonstrated your cleaning materials, equipment and methods were not sufficient to control the spread of harmful bacteria between surfaces:

• the sanitisers are not to BS EN 1276:1997 13697:2001 Standards

**Information** Ensure you use a surface sanitiser that conforms to BS EN 1276:1997 or BS EN 13697:2001. This information should be available on the label or by contacting the manufacturer.

#### **Maintenance**

**Contravention** The following had not been suitably maintained and must be repaired or replaced:

- lid to table top pizza fridge
- flooring to walk-in fridge was in bad repair
- filters missing to extraction canopy
- paint damaged to rear door

### Pest Control

**Observation** I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

### 3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)** 

### Type of Food Safety Management System Required

**Contravention** The Safer Food Better Business pack you had belonged to the previous owner, the diary had not been filled in since March 2020. However i was informed that the new owner was ordering a new pack.

**Legal requirement** Your food safety management system must be available on site so that your staff can refer to procedures and record checks daily

### Food Hazard Identification and Control

**Contravention** You have not identified these food hazards or the methods of control at critical points in your operation:

- bacteria growing on food
- cross-contamination

### **Traceability**

**Observation** Your records were such that food could easily be traced back to its supplier.

### Waste Food and other Refuse

**Observation** You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

### Training

**Contravention** The following evidence indicates there is a staff training need as food handlers:

- food handlers were not wearing sufficient protective clothing
- were not washing their hands often enough
- were using poor food storage practices
- were using poor cross contamination practices
- did not know how long to stay off work after illness.
- were not cleaning properly
- did not appreciate allergen risks

**Recommendation** A Level 2 Award in Food Safety in Catering or its equivalent (a 6-hour course leading to the award of a recognised certificate in food hygiene) would be appropriate for your food handlers. Booking details for the equivalent CIEH course are on our website: www.norwich.gov.uk

### Infection Control / Sickness / Exclusion Policy

**Guidance** Public Health England recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

#### <u>Allergens</u>

**Contravention** You are failing to manage allergens properly:

• you have not identified the allergens present in the food you prepare

**Legal Requirement** Caterers must provide allergy information on all unpackaged food they sell. Catering businesses include restaurants, takeaways, deli counters, bakeries and sandwich bars etc. The potential for cross-contamination by allergens must also be made known to consumers. In addition food manufacturers must now label allergy causing ingredients on their pre-packed foods. You can obtain more information from the Trading Standards website www.norfolk.gov.uk/abc

#### Information The 14 allergens are:

- cereals containing gluten
- crustaceans, for example prawns, crabs, lobster and crayfish
- eggs
- fish
- peanuts
- soybeans
- milk
- nuts, such as almonds, hazelnuts, walnuts, pecan nuts, Brazil nuts, pistachio, cashew and macadamia (Queensland) nuts
- celery (and celeriac)
- mustard
- sesame
- sulphur dioxide, which is a preservative found in some dried fruit
- lupin
- molluscs, for example clams, mussels, whelks, oysters, snails and squid

**Information** The Food Information Regulations require that you know what allergens are in the food you provide. You can no longer claim you don?t know what allergens

are present. Neither can you simply state that all the foods you serve might contain an allergen:

- Be sure you know exactly what your allergens are
- Convey this information to your customers accurately and consistently

**Information** There are Level 2 Awards in Food Allergen Awareness on offer in Dereham. If you are interested contact 0800 689 3512

**Recommendation** Make a chart listing all your meals together with the 14 allergens (if present). Bring the chart to the attention of your customers and your staff.
