

**Public Protection (food & safety)**

**Food Premises Inspection Report**

Name of business:	Mr Chip Fish Bar And Chinese Takeaway
Address of food business:	11 Parmenter Road Norwich NR4 7DH
Date of inspection:	02/06/2021
Risk rating reference:	21/00086/FOOD
Premises reference:	21/00173/FD_HS
Type of premises:	Food take away premises
Areas inspected:	All
Records examined:	Temperature Control Records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Fish and chip shop with Chinese takeaway

**Relevant Legislation**

Food Safety Act 1990 (as amended)  
 Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)  
 Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013  
 Health and Safety at Work etc. Act 1974 and related regulations  
 Food Information Regulations 2014

**What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30

  

Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-

  

Your Rating is	5	4	3	2	1	0
----------------	---	---	---	---	---	---

Your Food Hygiene Rating is 4 - a good standard

### 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

#### Contamination risks

**Contravention** The following exposed ready-to-eat food and or its packaging to the risk of cross-contamination with foodborne bacteria from raw meat or unwashed fruits and vegetables:

- raw foods were stored above ready to eat foods
- same containers were being used for raw and ready-to-eat foods
- open cans storing food in fridge
- uncovered foods stored in fridge
- food i.e onions stored on the floor

**Legal requirement** Once opened, canned foods which is to be stored should be transferred to plastic covered containers, designed for the storage of food to prevent chemical contamination of the food

**Legal requirement** Food must be stored off the floor where it might be at risk of contamination

**Legal requirement** At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state

**Recommendation** Provide separate equipment and utensils for raw and ready to eat foods, which can be easily identified (colour coded) and stored and washed separately.

### Personal Hygiene

**Observation** I was pleased to see that standards of personal hygiene were high.

### Temperature Control

**Observation** I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

**Information** Pickled eggs and gherkins were noted stored at room temperature. The manufacture's recommendation is that such products are refrigerated once open

### Poor Practices

**Recommendation** I recommend that you label your own personal foods stored in your fridges and freezers. All food stored on the premises is considered to be available for use in the business and must comply with food safety requirements and needs to be labelled accordingly

## **2. Structure and Cleaning**

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

### Cleaning of Structure

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- floor/wall junctions
- flooring around equipment feet
- flooring next to chest freezer

### Cleaning of Equipment and Food Contact Surfaces

**Contravention** The following items are dirty and must be cleaned:

- fridge and freezer seals
- interior ceiling to Bifinett microwave
- interior to bottom ledge to upright freezer
- chest freezer needs defrosting
- remove protective film to double door fridge to aid easy cleaning
- remove protective film to the extraction canopy and shelf to sink
- floor cleaning container

**Information** Cardboard cannot be properly cleaned. Do not use it to cover the floor/ shelves of work surfaces in food rooms

### Cleaning Chemicals / Materials / Equipment and Methods

**Observation** I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

### Maintenance

**Contravention** The following had not been suitably maintained and must be repaired or replaced:

- damage to bottom of Fridgidaire fridge door
- bare wood used to cover drain in chip preparation room. You need to seal /paint the wood to leave a smooth impervious surface so it can be easily cleaned
- missing tile to ceiling
- lid missing to potato rumbler
- fluorescent bulb not working above wok station

### Facilities and Structural provision

**Observation** I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

**Recommendation** A plastic diffuser cover is recommended on all fluorescent strip lighting. These can be removed for cleaning and will help contain glass fragments in the event of a breakage

### Pest Control

**Observation** I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

## **3. Confidence in Management**

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

### Type of Food Safety Management System Required

**Contravention** You do not have a food safety management system. Implement Safer Food Better Business or an equivalent food safety management system.

**Recommendation** Choose Safer Food Better Business as your food safety management system. It is simple to implement and requires a minimum amount of record keeping.

**Recommendation** You can buy a printed copy of Safer Food Better Business or a diary refill pack via our website [www.norwich.gov.uk/sfbb](http://www.norwich.gov.uk/sfbb)

**Observation** You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

**Observation** You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

### Food Hazard Identification and Control

**Contravention** You have not identified these food hazards or the methods of control at critical points in your operation:

- cross-contamination

**Information** Before implementing a food safety management system such as Safer Food Better Business, basic good hygiene conditions and practices called prerequisites must be in place. Only then will your food safety management system be effective in ensuring the preparation of safe food.

### Traceability

**Observation** Your records were such that food could easily be traced back to its supplier.

### Waste Food and other Refuse

**Observation** You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

### Training

**Observation** I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

### Infection Control / Sickness / Exclusion Policy

**Guidance** Public Health England recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

**Observation** Policies were in place to prevent any infected food handler from contaminating food.

### Allergens

**Legal Requirement** Caterers must provide allergy information on all unpackaged food they sell. Catering businesses include restaurants, takeaways, deli counters, bakeries and sandwich bars etc. The potential for cross-contamination by allergens must also be made known to consumers. In addition food manufacturers must now label allergy causing ingredients on their pre-packed foods. You can obtain more information from the Trading Standards website [www.norfolk.gov.uk/abc](http://www.norfolk.gov.uk/abc)

**Information** The Food Standards Agency has produced a chart that you may find useful [www.food.gov.uk/sites/default/files/media/document/allergen-chart.pdf](http://www.food.gov.uk/sites/default/files/media/document/allergen-chart.pdf)

**Information** Allergen information could be written down on a chalk board or chart, or provided orally by a member of staff. Where the specific allergen information is not

provided upfront, clear signposting to where this information could be obtained must be provided.

**Information** The 14 allergens are:

- cereals containing gluten
- crustaceans, for example prawns, crabs, lobster and crayfish
- eggs
- fish
- peanuts
- soybeans
- milk
- nuts, such as almonds, hazelnuts, walnuts, pecan nuts, Brazil nuts, pistachio, cashew and macadamia (Queensland) nuts
- celery (and celeriac)
- mustard
- sesame
- sulphur dioxide, which is a preservative found in some dried fruit
- lupin
- molluscs, for example clams, mussels, whelks, oysters, snails and squid

**Information** The Food Information Regulations require that you know what allergens are in the food you provide. You can no longer claim you don't know what allergens are present. Neither can you simply state that all the foods you serve might contain an allergen:

- Be sure you know exactly what your allergens are
- Convey this information to your customers accurately and consistently

**Information** There are Level 2 Awards in Food Allergen Awareness on offer in Dereham. If you are interested contact 0800 689 3512

**Recommendation** Make a chart listing all your meals together with the 14 allergens (if present). Bring the chart to the attention of your customers and your staff.

**Observation** You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.
