Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Observation I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

Hand-washing

Contravention The following indicated that hand-washing was not suitably managed::

- equipment was seen draining in the dedicated wash hand basin

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste

disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- floor surfaces
- splits or holes in flooring
- broken window to exterior door

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. All the significant food hazards are understood and controls are in place. Your records are appropriate and generally maintained but some deficiencies were identified. You are progressing towards a written food safety management system. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Type of Food Safety Management System Required

Legal Requirement Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

Information You can download a Safer Food Better Business pack and refill diary pages from the FSA website: www.food.gov.uk/business-industry/caterers/sfbb

Information If you want to keep everything on your computer or tablet an electronic version of the Safer Food Better Business pack is also available on the FSA website www.food.gov.uk/business-industry/caterers/sfbb However, do make sure staff have access to it at all times when working.

Information Contact us for details of our Safer Food Better Business workshops on 01603 212747 or visit our webpage www.norwich.gov.uk

Recommendation MyHACCP is a free web tool that will guide you through the process of developing a food safety management system based on Hazard Analysis and Critical Control Point (HACCP) www.myhaccp.food.gov.uk

Recommendation You can buy a printed copy of Safer Food Better Business or a diary refill pack via our website www.norwich.gov.uk/sfbb

Proving Your Arrangements are Working Well

Contravention You are not working to the following safe methods in your SFBB pack:

- 4-weekly checks

Contravention The following are needed in order to demonstrate your food safety management system is working:

- suppliers lists
- staff training records
- you must complete all the safe methods in the SFBB pack. If you do not carry out a certain practise within the pack you need to write n/a not applicable where it needs to be filled in. You must not leave it blank.

Information: As requested I have indicated in this report how you can source a new SFBB pack.

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Allergens

Information Allergen information could be written down on a chalk board or chart, or provided orally by a member of staff. Where the specific allergen information is not provided upfront, clear signposting to where this information could be obtained must be provided.

Information The Food Information Regulations require that you know what allergens are in the food you provide. You can no longer claim you don't know what allergens are present. Neither can you simply state that all the foods you serve might contain an allergen:

- Be sure you know exactly what your allergens are
- Convey this information to your customers accurately and consistently

Recommendation Make a chart listing all your meals together with the 14 allergens (if present). Bring the chart to the attention of your customers and your staff.

Recommendation Add allergy information to your menu
