

# Food Premises Inspection Report

Name of business:	Lakenham Primary School
Address of food business:	Lakenham Primary School City Road Norwich NR1 2HL
Date of inspection:	08/09/2021
Risk rating reference:	21/00220/FOOD
Premises reference:	18/00094/FD_HS
Type of premises:	Catering
Areas inspected:	All
Records examined:	None
Details of samples procured:	None
Summary of action taken:	Informal
General description of	School kitchen serving local children
business:	-

### **Relevant Legislation**

Food Safety Act 1990 (as amended) Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended) Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013 Health and Safety at Work etc. Act 1974 and related regulations Food Information Regulations 2014

### What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with <u>straight away</u>.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next <u>2 months</u>.

Health and safety contraventions should be dealt with within <u>3 months</u> unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

# FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area				You Score					
Food Hygiene and Safety				5	10	15	20	25	
Structure and Cleaning				5	10	15	20	25	
Confidence in management & control systems				5	10	15	20	30	
0.45	20	01	- 00	05 40		45 50			
0 - 15	20	25	25 - 30		• 40	45 - 50		> 50	
5	10	10		15		20		-	
5	4		3	2	2	1		0

Your Food Hygiene Rating is 4 - a good standard

### Contamination risks

**Contravention** The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

• uncovered deserts at main counter.

**Recommendation** Provide separate equipment and utensils designated for use with either raw or ready-to-eat foods, which can be easily identified (e.g. colour coded) and stored and washed separately.

#### Personal Hygiene

**Observation** I was pleased to see that standards of personal hygiene were high.

### <u>Unfit food</u>

**Contravention** The following food was unfit (and was seized or destroyed in my presence) because it was past its use by date

• packet of ready to eat Salad.

**Legal Requirement** Any food which is found at your food premises is presumed to be intended for sale and must comply with the law.

### Cleaning of Structure

**Observation** The kitchen had been well maintained and the standard of cleaning was exceptionally high.

#### Maintenance

**Contravention** The following had not been suitably maintained and must be repaired or replaced:

• damaged black trim to base of chiller at main counter.

#### Type of Food Safety Management System Required

**Contravention** You do not have a food safety management system. Implement Safer Food Better Business or an equivalent food safety management system.

**Information** I acknowledge that there were some temperature recording for hot and cold food and hand written fridge and freezer temperatures records but these are not sufficient to support having a fully operational food safety management system based on HACCP principles.

I was informed that the kitchen and cooking production had only recently become in house and you are in the process of implementing a new HACCP plan. Documentation to be used was shown to me but it had not been started or staff trained on its implementation.

**Legal Requirement** Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

**Information** As you are a new business you have been given the benefit of the doubt despite your food safety management system not fully complying with the law. You must act on this now as your hygiene rating score will be reduced to a maximum of 1 if there is a similar situational at the next visit.

**Recommendation** Choose Safer Food Better Business as your food safety management system. It is simple to implement and requires a minimum amount of record keeping.

**Recommendation** MyHACCP is a free web tool that will guide you through the process of developing a food safety management system based on Hazard Analysis and Critical Control Point (HACCP) www.myhaccp.food.gov.uk

**Recommendation** You can buy a printed copy of Safer Food Better Business or a diary refill pack via our website www.norwich.gov.uk/sfbb

# **Traceability**

**Observation** Your records were such that food could easily be traced back to its supplier.

#### Training

**Observation** I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

#### Allergens

Information The 14 allergens are:

- cereals containing gluten
- crustaceans, for example prawns, crabs, lobster and crayfish
- eggs
- fish
- peanuts
- soybeans
- milk
- nuts, such as almonds, hazelnuts, walnuts, pecan nuts, Brazil nuts, pistachio, cashew and macadamia (Queensland) nuts
- celery (and celeriac)
- mustard
- sesame
- sulphur dioxide, which is a preservative found in some dried fruit
- lupin
- molluscs, for example clams, mussels, whelks, oysters, snails and squid

**Recommendation** Make a chart listing all your meals together with the 14 allergens (if present). Bring the chart to the attention of your customers and your staff.

Recommendation Add allergy information to your menu
