Areas inspected:	All
Records examined:	None
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Convenience store specialising in European food

#### Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

#### What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## **FOOD SAFETY**

### **How we calculate your Food Hygiene Rating:**

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30

  

<b>Your Total score</b>	<b>0 - 15</b>	20	25 - 30	35 - 40	45 - 50	> 50
<b>Your Worst score</b>	5	10	10	15	20	-

  

<b>Your Rating is</b>	5	<b>4</b>	3	2	1	0
-----------------------	---	----------	---	---	---	---

Your Food Hygiene Rating is 4 - a good standard

### **1. Food Hygiene and Safety**

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

#### **Personal Hygiene**

**Observation** I was pleased to see that standards of personal hygiene were high.

#### **Unfit food**

**Observation** Good stock control of food observed at the time of inspection, clear signs regarding food on sale as near best before date and food separated from sale that was to be returned to supplier.

## 2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all excellent and you demonstrated full compliance with the law. There is evidence of effective pest control and procedures are in place to rectify any problems as they arise. There is good provision for waste disposal. **(Score 0)**

### Cleaning Chemicals / Materials / Equipment and Methods

**Observation** I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

### Maintenance

**Observation** You are maintaining the premises in good condition.

### Facilities and Structural provision

**Observation** I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

## 3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

### Type of Food Safety Management System Required

**Contravention** You do not have a food safety management system. Implement Safer Food Better Business or an equivalent food safety management system.:

**Information** You can download a Safer Food Better Business pack and refill diary pages from the FSA website: [www.food.gov.uk/business-industry/caterers/sfbb](http://www.food.gov.uk/business-industry/caterers/sfbb)

**Information** If you want to keep everything on your computer or tablet an electronic version of the Safer Food Better Business pack is also available on the FSA website [www.food.gov.uk/business-industry/caterers/sfbb](http://www.food.gov.uk/business-industry/caterers/sfbb) However, do make sure staff have access to it at all times when working.

**Information** The absence of any documentation has resulted in a poor score for confidence in management and this, in turn, has had an adverse effect on your Food Hygiene Rating.

**Information** As you are a new business you have been given the benefit of the doubt despite your food safety management system not fully complying with the law. You must act on this now as your hygiene rating score will be reduced to a maximum of 1 if there is a similar situational at the next visit.

**Contravention** The following matters are needed in order to demonstrate your food safety management system is working as it should:

- daily records
- temperature records
- cleaning schedule
- suppliers lists
- probe calibration records
- staff training records
- dealing with customer complaints
- pest control records
- shelf life stability records
- maintenance recording

It was apparent at the time of my visit that you have a good cleaning schedule in place and temperature checks, stock rotation, use by and best before dates etc you were mindful of, but you need to document these activities and produce a food hygiene management system.

### Training

**Recommendation** A Level 2 Award in Food Safety in Catering or its equivalent (a 6-hour course leading to the award of a recognised certificate in food hygiene) would be appropriate for your food handlers. Booking details for the equivalent CIEH course are on our web site: [www.norwich.gov.uk](http://www.norwich.gov.uk)
