**Relevant Legislation**

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

**What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
<b>Your Total score</b>	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
<b>Your Worst score</b>	5	10	10	15	20	-
<b>Your Rating is</b>	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

### 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

#### Contamination risks

**Contravention** The following exposed ready-to-eat food and or its packaging to the risk of cross-contamination with foodborne bacteria from raw meat or unwashed fruits and vegetables:

- raw foods i.e bacon and sausages were being stored above and next to ready-to-eat foods i.e cheese, milk and cooked sausages

#### Hand-washing

**Observation** I was pleased to see handwashing was well managed.

#### Personal Hygiene

**Observation** I was pleased to see that standards of personal hygiene were high.

## Temperature Control

**Observation** I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

## **2. Structure and Cleaning**

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

### Cleaning of Structure

**Contravention** The following items could not be effectively cleaned and must be covered or made non-absorbent:

- exposed areas of bare and unfinished plaster on walls

### Cleaning of Equipment and Food Contact Surfaces

**Contravention** The following surfaces and equipment in contact with food were dirty and/or could not be cleaned and require cleaning or discarding:

- interior top to chest freezer

### Facilities and Structural provision

**Legal Requirement** Keep door to wc closed at all times. I recommend that you fit a self closure devise to the door

## **3. Confidence in Management**

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

### Type of Food Safety Management System Required

**Contravention** You are a low risk business and do not have a food safety management system or what you have in place is not suitable given the food risks associated with your business. You still require a minimum amount of documentation. This might include your hygiene rules, pest control reports, a staff illness and exclusion policy, a cleaning schedule, date coding, temperature checks of display chillers, and handover diary etc.:

**Information** As you are a new business you have been given the benefit of the doubt despite your food safety management system not fully complying with the law. You must act on this now as your hygiene rating score will be reduced to a maximum of 1 if there is a similar situational at the next visit.

**Recommendation** Choose Safer Food Better Business as your food safety management system. It is simple to implement and requires a minimum amount of record keeping.

**Observation** You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

### Traceability

**Observation** Your records were such that food could easily be traced back to its supplier.

### Infection Control / Sickness / Exclusion Policy

**Guidance** Public Health England recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.
