

## Public Protection (food & safety)

### Food Premises Inspection Report

Name of business:	Bella Italia Norwich Red Lion Street
Address of food business:	3 Red Lion Street Norwich NR1 3QF
Date of inspection:	09/02/2022
Risk rating reference:	22/00113/FOOD
Premises reference:	21/00023/FD_HS
Type of premises:	Restaurant or cafe
Areas inspected:	All
Records examined:	Pest Control Report, Cleaning Schedule, FSMS, Temperature Control Records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Restaurant. Part of national chain

#### **Relevant Legislation**

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

#### **What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law

## FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	<b>5</b>	10	15	20	25
Structure and Cleaning	0	5	<b>10</b>	15	20	25
Confidence in management & control systems	0	<b>5</b>	10	15	20	30
<b>Your Total score</b>	0 - 15	<b>20</b>	25 - 30	35 - 40	45 - 50	> 50
<b>Your Worst score</b>	5	<b>10</b>	10	15	20	-
<b>Your Rating is</b>	5	<b>4</b>	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

### 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

#### Contamination risks

**Observation** I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

#### Hand-washing

**Contravention** The following indicated that hand-washing was not suitably managed:

- a bottle of olive oil was seen in the wash hand basin at front of house bar

#### Unfit food

**Contravention** The following food was of a reduced quality and if sold may not be of the standard demanded by the consumer:

- salad items were found past their 'Best Before' dates.

## 2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

### Cleaning of Structure

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- floor/wall junctions
- around equipment feet
- high level cleaning

**Contravention** The following items could not be effectively cleaned and must be covered or made non-absorbent:

- chipped dented wooden architrave

### Maintenance

**Contravention** The following had not been suitably maintained and must be repaired or replaced:

- wall surfaces
- floor surfaces
- no working light to beer cellar. The room was very dark as a consequence without proper lighting. I was informed that to work within this room the door had to be propped open. This made proper cleaning and checking for signs of pests difficult. The ice machine was also located in this room and cleaning it properly would be difficult due to lack of proper lighting. There is also a health and safety risk working in poor lighting conditions i.e trip hazards

**Information** I was informed that a new light fitting for the the cellar was on order and due to be fitted shortly by a contractor.

## 3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. Your records are appropriate and generally maintained. Your staff are suitably supervised and trained. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

### Type of Food Safety Management System Required

**Observation** Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

**Observation** You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

**Observation** You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

**Observation** You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

### Training

**Contravention** The following evidence indicates there is a staff training need as food handlers:

- were using food that was passed its shelf life

### Allergens

**Observation** You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.

**Observation** You had clearly shown the presence of allergens in your food on your menu.

**Observation** You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
