None
Informal
Danish eatery

### **Relevant Legislation**

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food

Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

#### What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next <u>2 months</u>.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

#### **FOOD SAFETY**

#### How we calculate your Food Hygiene Rating:

The food safety section is divided into three areas which you are scored against for the hygiene rating:

- 1. Food hygiene and safety procedures
- 2. Structural requirements
- 3. Confidence in management/control procedures

Your Food Hygiene Rating is 5 - a very good standard

# 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. (Score 5)

### Contamination risks

**Contravention** Food was not protected from general sources of contamination:

food was not covered in the fridge

#### Hand-washing

**Observation** I was pleased to see handwashing was well managed.

#### Personal Hygiene

**Contravention** The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- food handlers were wearing watches
- personal belongings stored on rack

**Legal requirement** in order to prevent contamination of foodstuffs, outdoor clothing and personal belongings must not be stored in a food room. A locker or similar cupboard, plastic lidded box would be a suitable means of storing these items

#### Temperature Control

**Observation** I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

#### **Poor Practices**

**Contravention** The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- old labels still on tubs re: chocolate and almond, this could cause a allergen contamination problem. Ensure old labels are removed during washing before being used for other ingredients
- cardboard boxes were being used to store food in the fridges, use plastic lidded containers that can be easily cleaned

**Recommendation** Keep door to wc lobby closed at all times. I recommend you provide the door with a self closing device

# 2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. (Score 5)

# Cleaning of Structure

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- flooring around equipment feet
- flooring behind and under equipment

**Recommendation** I recommend you tile or white rock the wall next to the wash hand basin which can be easily cleaned

#### Cleaning of Equipment and Food Contact Surfaces

**Contravention** The following items are dirty and must be cleaned:

lids to flour containers

#### Cleaning Chemicals / Materials / Equipment and Methods

**Observation** I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

#### Maintenance

**Contravention** The following had not been suitably maintained and must be repaired or replaced:

• floor surface in front of the washing up sink

## Facilities and Structural provision

**Observation** I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

# **Pest Control**

**Observation** I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

# 3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. (Score 5)

#### Type of Food Safety Management System Required

**Observation** Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

**Observation** You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

**Observation** You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Safer Food Better Business/Food safety management system that works

**Contravention** The Management sections in your Safer food Better Business (SFBB) pack are intended to demonstrate you are in day-to-day control of the hazards to food. The following Management sections were either missing, incomplete or not up-to-date

- cleaning schedule needs to include all equipment
- daily diary

#### Traceability

**Observation** Your records were such that food could easily be traced back to its supplier.

# Waste Food and other Refuse

**Observation** You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

# **Training**

**Observation** I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

# Infection Control / Sickness / Exclusion Policy

**Guidance** Public Health England recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

### <u>Allergens</u>

**Observation** You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
