**What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
<b>Your Total score</b>	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
<b>Your Worst score</b>	5	10	10	15	20	-
<b>Your Rating is</b>	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

### 1. Food Hygiene and Safety

Food hygiene standards are generally satisfactory and maintained. There is evidence of some non-compliance with legal requirements. Some lapses are evident however generally you have satisfactory food handling practices and procedures and adequate control measures to prevent cross-contamination are in place. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

#### Contamination risks

**Contravention** The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

- uncovered cutlery and clean glasses sited near wash hand basin at main counter. Dirty water from hand washing could splash onto these items.
- chopping board used for cutting hot foods sited next to the wash hand basin in main counter. Dirty water from hand washing could splash onto the chopping board

**Legal Requirement** At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption,

injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

### Hand-washing

**Contravention** The following indicated that hand-washing was not suitably managed::

- the wash hand basin was obstructed
- equipment was seen draining in the wash hand basin in rear kitchen area

**Legal Requirement** An adequate number of wash hand basins must be available for use, they must be suitably located and designated for cleaning hands.

## **2. Structure and Cleaning**

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

### Cleaning of Structure

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- floor/wall junctions
- around equipment feet
- walls particularly behind food preparation surfaces

## **3. Confidence in Management**

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. Your records are appropriate and generally maintained. Your staff are suitably supervised and trained. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

### Proving Your Arrangements are Working Well

**Contravention** The following are needed in order to demonstrate your food safety management system is working:

- cleaning schedule

### Traceability

**Observation** Your records were such that food could easily be traced back to its supplier.

### Training

**Observation** I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

### Allergens

**Observation** You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.

**Observation** You had clearly shown the presence of allergens in your food on your menu.

**Observation** You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.

**Observation** You had labelled your prepacked for direct sale (PPDS) food with the name of the food and the ingredients with the allergens emphasised.
