

Public Protection (food & safety)

Food Premises Inspection Report

Name of business:	Coach & Horses
Address of food business:	Coach And Horses 82 Thorpe Road Norwich NR1 1BA
Date of inspection:	25/08/2022
Risk rating reference:	22/00455/FOOD
Premises reference:	16900/0082/1/000
Type of premises:	Public House/Bar
Areas inspected:	Main Kitchen, Storeroom, Cellar, Other
Records examined:	Pest Control Report, Temperature Control Records, Cleaning Schedule, SFBB
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Public House with catering and a brewery

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30

Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-

Your Rating is	5	4	3	2	1	0
----------------	---	---	---	---	---	---

Your Food Hygiene Rating is 5 - a very good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Contravention You could not demonstrate effective heat disinfection of the food equipment and utensils you use for handling both raw and ready-to-eat foods.:

- using same tongs for use with raw and ready-to-eat foods. I took your word that you had ordered tongs with red handles for use with raw foods

Legal requirement At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

Information The FSA has issued guidance on controlling *E.coli* 0157 through:

- the complete separation of raw and ready-to-eat food
- the correct use of wash-hand basins and thorough handwashing
- having dedicated equipment (including complex equipment) for raw and ready-to-eat foods
- thorough 2-stage cleaning and the correct use of sanitisers
- and by controlling the risks posed by soil contaminated vegetables.

Visit: www.food.gov.uk for more information

Guidance If equipment and utensils (for example chopping boards, containers and tongs) are to be used for raw and RTE foods, they should be disinfected by heat or an adequate dishwasher cycle (able to reach 82°C for 15 seconds) between uses.

Guidance If adequate heat disinfection (such as a dishwasher or plunge sink) is not possible, separate equipment and utensils should be used for handling raw and RTE foods. Such equipment should be easily identifiable (colour coded) and must be stored and washed separately.

Hand-washing

Contravention The following evidence indicated hand-washing was not suitably managed:

- wash hand basin was obstructed

Personal Hygiene

Contravention The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- staff were not wearing suitable protective clothing

Legal Requirement All persons in food handling areas must wear suitable, clean, and where appropriate protective clothing.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste

disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- around equipment feet
- flooring underneath equipment
- wall to brewery

Contravention The following items could not be effectively cleaned and must be covered, made non-absorbent or replaced:

- mdf or chipboard shelves

Observation The kitchen had been well maintained and the standard of cleaning was good.

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- legs and wheels to equipment
- interior bottom to fridge
- seals to fridges and freezers
- bin to upstairs storeroom
- plastic curtain to brewery

Cleaning Chemicals / Materials / Equipment and Methods

Observation I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- holes to wall in kitchen
- split seals to fridge/freezer
- damage to wall in cellar

Facilities and Structural provision

Observation I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

Pest Control

Observation I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

Type of Food Safety Management System Required

Observation You were monitoring (and recording) the temperatures of your fridges and freezers well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Food Hazard Identification and Control

Contravention You have not identified these food hazards or the methods of control at critical points in your operation:

- cross-contamination

Proving Your Arrangements are Working Well

Contravention The Management sections in your Safer food Better Business (SFBB) pack are intended to demonstrate you are in day-to-day control of the hazards to food. The following Management sections were either missing, incomplete or not up-to-date:

- opening and closing checks not completed at time of inspection

Contravention You are not working to the following safe methods in your SFBB pack:

- cross contamination/ physical or chemical contamination

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.
