## What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with <u>straight away</u>.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next <u>2 months</u>.

Health and safety contraventions should be dealt with within <u>3 months</u> unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

# FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

| Compliance Area                            |        |    |         | You Score |         |    |         |    |      |  |
