Food Premises Inspection Report

| | |
|----------------------------------|---|
| Name of business: | No 33 |
| Address of food business: | 33 Exchange Street Norwich NR2 1DP |
| Date of inspection: | 03/12/2022 |
| Risk rating reference: | 22/00654/FOOD |
| Premises reference: | 06/00067/FD_HS |
| Type of premises: | Restaurant or cafe |
| Areas inspected: | Basement, Storeroom, Main Kitchen |
| Records examined: | SFBB, Training Certificates/records, Supplier Audits, Temperature Control Records, Pest Control Report, Cleaning Schedule |
| Details of samples procured: | None |
| Summary of action taken: | Informal |
| General description of business: | Cafe with Restaurant |

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

| Compliance Area | You Score | | | | | |
|--|-----------|---|----|----|----|----|
| Food Hygiene and Safety | 0 | 5 | 10 | 15 | 20 | 25 |
| Structure and Cleaning | 0 | 5 | 10 | 15 | 20 | 25 |
| Confidence in management & control systems | 0 | 5 | 10 | 15 | 20 | 30 |

| | | | | | | |
|------------------|--------|----|---------|---------|---------|------|
| Your Total score | 0 - 15 | 20 | 25 - 30 | 35 - 40 | 45 - 50 | > 50 |
| Your Worst score | 5 | 10 | 10 | 15 | 20 | - |

| | | | | | | |
|----------------|---|---|---|---|---|---|
| Your Rating is | 5 | 4 | 3 | 2 | 1 | 0 |
|----------------|---|---|---|---|---|---|

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are generally satisfactory and maintained. There is evidence of some non-compliance with legal requirements. Some lapses are evident however generally you have satisfactory food handling practices and procedures and adequate control measures to prevent cross-contamination are in place. The contraventions require your attention; although not critical to food safety they may become so if not addressed.
(Score 10)

Contamination risks

Contravention The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

- The white chopping board was badly scored and can no longer be kept clean. If continued to be used, it could shed broken particles into food.

Legal Requirement At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

Hand-washing

Contravention The following indicated that handwashing was not suitably managed:

- staff were not seen washing their hands when I visited.

Guidance

Proper hand-washing is essential to prevent cross contamination of E.coli 0157 and other harmful bacteria onto food and food contact surfaces. Handwashing should include the following steps:

- wet hands before applying soap
- good hands rubbing technique
- rinsing of hands
- hygienic drying

Personal Hygiene

Contravention The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- staff were not wearing suitable protective clothing
- 4 of 5 food handlers not wearing overclothing

Legal Requirement All persons in food handling areas must wear suitable, clean, and where appropriate protective clothing.

Temperature Control

Contravention The following evidence indicated there was a risk of bacteria growing on food:

- Some food found in the fridge were past their used by date

Information All food products should be stored in accordance with the manufacturer instructions.

Unfit food

Legal Requirement Any food which is found at your food premises is presumed to be intended for sale and must comply with the law.

Recommendation You should have a system to identify when open or prepared foods need to be used by or discarded, to ensure the food is fit for consumption. I recommend you apply labels which give a date that is 2 days after the day of production e.g. if food

is opened on Monday it should be used by the end of Wednesday (an exception is cooked rice which should not be kept longer than 24 hours)

Poor Practices

Contravention The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- 4 of 5 food handlers not wearing suitable overclothing

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- Door seals to fridges and freezers

Recommendation Your cleaning schedule is there to remind you to clean before an item becomes dirty. If an item is dirty when you go to clean it, increase the frequency of cleaning.

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- fridge and freezer seals

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- damaged seal to stainless steel fridge
- ceiling and wall covering stained and discoloured

3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

Proving Your Arrangements are Working Well

Contravention You are not working to the following safe methods in your SFBB pack:

- cleaning schedule
- personal hygiene / handwashing

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of a registered waste carrier.

Training

Recommendation Catering staff should refresh their food hygiene knowledge every 3 years so that they stay up to date with current legislation and good practice. Booking details for this course are on our website: www.norwich.gov.uk

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.
