Proving Your Arrangements are Working Well

Contravention The following are needed in order to demonstrate your food safety management system is working:

 you had several folders which contained pages of SfBB and other food safety procedures. This made your HACCP difficult to follow and understand by staff.
 You need to amalgamate and review your documentation so it is easy to understand by your staff **Recommendation** Your SFBB pack should be used as intended so as to guarantee you are fully complying with your legal obligation to have a documented food safety management system in place.
