

## **Public Protection (food & safety)**

#### **Food Premises Inspection Report**

Name of business: Kemp Butchers

Address of food business: 84 Catton Grove Road Norwich NR3 3AA

Date of inspection: 04/04/2023
Risk rating reference: 23/00316/FOOD
Premises reference: 03180/0084/0/000

Type of premises: Butcher retailing RTE foods

Areas inspected: All

Records examined: FSMS, Training Certificates/records, Temperature Control

Records

Details of samples procured: None Summary of action taken: Informal General description of business: Butchers

## **Relevant Legislation**

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food

Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

#### What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

#### **FOOD SAFETY**

# How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area				You Score					
Food Hygiene and Safety				0	5	10	15	20	25
Structure and Cleaning				0	5	10	15	20	25
Confidence in management & control systems				0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30		35 - 40		45 - 50		> 50
Your Worst score	5	10	10		15		20		-
		-							
Your Rating is	5	4	3		2		1		0

Your Food Hygiene Rating is 4 - a good standard

## 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. (Score 5)

#### Hand-washing

**Contravention** The following indicated that hand-washing was not suitably managed:

 the drainage to the wash hand basin was inadequate as it took a long time to drain

#### **Poor Practices**

**Contravention** The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- uncovered foods i.e meat and baguettes stored in chest freezers
- chinese rub was being stored beyond its 'Best before' date of Feb 2022

**Guidance** It is an offence to use food which is not of the nature, substance or quality demanded by the consumer. Food used passed it's 'best before' date could be of a reduced quality so you must check it is OK before you use it.

## 2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. (Score 10)

## Cleaning of Structure

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- flooring behind and under equipment
- wall/floor junctions
- wall behind chopping block
- walls behind chest freezers
- pipework

#### Cleaning of Equipment and Food Contact Surfaces

**Contravention** The following items are dirty and must be cleaned:

- build up of ice to chest freezers
- around interior tops to chest freezers
- handles to chest freezers
- seals to chest freezers
- step ladder
- rust seen to lid to chest freezer
- interior to mincer
- lid to food container
- frame to chopping block
- bin

### Maintenance

**Contravention** The following had not been suitably maintained and must be repaired or replaced:

• grill to side of chest freezer

#### 3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. (Score 5)

### Type of Food Safety Management System Required

**Observation** Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

**Observation** You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

**Observation** You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

**Observation** You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

## Hazard ID and control.

**Contravention** The following pre-requisites have not been met and prove your food safety management system is ineffective:

· cleaning and sanitation are poor

## Traceability

**Observation** Your records were such that food could easily be traced back to its supplier.

## Infection Control / Sickness / Exclusion Policy

**Guidance** UK Health Security Agency recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.
