Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food

Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with <u>straight away</u>.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next <u>2 months</u>.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area				You Score								
Food Hygiene and Safety					5	10	15	20	25			
Structure and Cleaning					5	10	15	20	25			
Confidence in management & control systems					5	10	15	20	30			
Your Total score	0 - 15	20	25 - 30		35 - 40		45 - 50		> 50			
Your Worst score	5	10	10		15		20		-			
		Г										
Your Rating is	5	4	3		2		1		0			

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. (Score 5)

Contamination risks

Contravention The following exposed ready-to-eat food and or its packaging to the risk of cross-contamination with foodborne bacteria from raw meat or unwashed fruits and vegetables:

worn chopping boards

Observation I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are

adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. (Score 10)

Cleaning of Structure

Contravention The following items could not be effectively cleaned and must be covered, made non-absorbent or replaced:

- ceiling
- chipped dented wooden architrave
- raw plugs and drill holes in wall
- walls
- fly-sreens were dirty.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- floor surfaces damaged
- coving loose at wall floor junction
- wall surfaces damaged
- paintwork worn or peeling
- small water leak to light-well in main food preparation area. I was pleased to
 note that you had organised that we be accompanied by a representative of the
 department responsible to repairing/maintenance of the kitchens. I was informed
 that the water leak from the light well is programmed to be repaired shortly.
- rust to feet of equipment

3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. Your staff are suitably supervised and trained. Your records are appropriate and generally maintained. You have a good track record. There are some minor contraventions which require your attention. (Score 5)

Type of Food Safety Management System Required

Legal Requirement Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

Proving Your Arrangements are Working Well

Contravention The following are needed in order to demonstrate your food safety management system is working:

you had no adequate written system for using gloves for food handling tasks.

You need to draw up a simple list of 'do's and dont's' on how /when staff should be wearing protective gloves i.e when they should be worn, changed between differing food handling tasks, replaced, disposed off. And, the instruction to never wash hands whilst still wearing gloves for example.

Allergens

Observation You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
