

Public Protection (food & safety)

Food Premises Inspection Report

Name of business:	White Lion
Address of food business:	73 Oak Street Norwich NR3 3AQ
Date of inspection:	03/06/2023
Risk rating reference:	23/00466/FOOD
Premises reference:	19/00232/FD_HS
Type of premises:	Public House with catering
Areas inspected:	None
Records examined:	Cleaning Schedule, SFBB, Temperature Control Records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Public House with catering

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 5 - a very good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Hand-washing

Observation I was pleased to see handwashing was well managed.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

Unfit food

Contravention Cooked rice was being kept for longer than 24 hours. Cooked rice must be refrigerated to below 8 °C Celsius and used or thrown away after 24 hours.

Legal Requirement Any food which is found at your food premises is presumed to be intended for sale and must comply with the law.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- electric fly killer and tray
- floor wall junctions
- high level cleaning
- mastic joints behind sinks

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- The surface to the kitchen ceiling covering which needed to be refreshed.
- One of two bulbs in the insect killer equipment was not working.
- Broken/missing cover to blue roll dispenser.
- Damaged ceiling in garage.
- Mastic sealant to wash hand basin.

Facilities and Structural provision

Contravention The following facilities were inadequate and must be improved:

- One grease filter was missing from the canopy.

Pest Control

Contravention Pest proofing is inadequate particularly in the following areas:

- Large gap to low level area of garage/general store door. The door must be pest proofed in order to prevent pest access.

Observation I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

Type of Food Safety Management System Required

Observation You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

Observation You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Food Hazard Identification and Control

Contravention The following pre-requisites have not been met and this means that your food safety management system will be ineffective:

- Cleaning is inadequate.
- Maintenance is inadequate.

Information Before implementing a food safety management system such as Safer Food Better Business, basic good hygiene conditions and practices called prerequisites must be in place. Only then will your food safety management system be effective in ensuring the preparation of safe food.

Proving Your Arrangements are Working Well

Contravention You are not working to the following safe methods in your SFBB pack:

- cleaning schedule
- maintenance

Recommendation Your SFBB pack should be used as intended so as to guarantee you are fully complying with your legal obligation to have a documented food safety management system in place.

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Infection Control / Sickness / Exclusion Policy

Observation Policies were in place to prevent any infected food handler from contaminating food.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Legal Requirement Food business operators must ensure that food handlers are supervised and instructed and/or trained in food hygiene matters to an appropriate level for the work they do.

Recommendation Catering staff should refresh their food hygiene knowledge every 3 years so that they stay up to date with current legislation and good practice. Booking details for this course are on our website: www.norwich.gov.uk

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.
