Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

| Compliance Area | You Score | | | | | |
|--|-----------|----|---------|---------|---------|------|
| Food Hygiene and Safety | 0 | 5 | 10 | 15 | 20 | 25 |
| Structure and Cleaning | 0 | 5 | 10 | 15 | 20 | 25 |
| Confidence in management & control systems | 0 | 5 | 10 | 15 | 20 | 30 |
| Your Total score | 0 - 15 | 20 | 25 - 30 | 35 - 40 | 45 - 50 | > 50 |
| Your Worst score | 5 | 10 | 10 | 15 | 20 | - |
| Your Rating is | 5 | 4 | 3 | 2 | 1 | 0 |

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Hand-washing

Contravention The following indicated that hand-washing was not suitably managed::

- equipment was seen draining in the wash hand basin

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following items could not be effectively cleaned and must be covered, made non-absorbent or replaced:

- mdf or chipboard shelves
- unsealed wooden structures
- cut ends of plastic coated shelving

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. You are progressing towards a written food safety management system. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Type of Food Safety Management System Required

Contravention You do not have a food safety management system. Implement Safer Food Better Business or an equivalent food safety management system.:

Legal Requirement Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

Information As you are a new business you are permitted the flexibility of extra time to get your food safety management system up to the minimum legal requirements. You must act on this now as your food hygiene rating score may be reduced to a maximum of 1 if the food safety management system does not fully meet the legal standard by the time of the next statutory inspection.

Food Hazard Identification and Control

Contravention The following Safer Food Better Business SAFE METHODS are incomplete:

- although you had a copy of SFBB but it was not properly completed with numerous blank pages/sections. I acknowledged you had some fridge temperatures and a cleaning rota but these are not sufficient to comply with HACCP legal requirements

Infection Control / Sickness / Exclusion Policy

Observation Policies were in place to prevent any infected food handler from contaminating food.

Allergens

Legal Requirement Caterers must provide allergy information on all unpackaged food they sell. Catering businesses include restaurants, takeaways, deli counters, bakeries and sandwich bars etc. The potential for cross-contamination by allergens must also be made known to consumers. In addition food manufacturers must now label allergy causing ingredients on their pre-packed foods. You can obtain more information from the Trading Standards website www.norfolk.gov.uk/abc

Recommendation Make a chart listing all your meals together with the 14 allergens (if present). Bring the chart to the attention of your customers and your staff.
