**Food Premises Inspection Report**

Name of business:	The Real Greek
Address of food business:	409 Chapelfield Plain Chapelfield Norwich NR2 1SZ
Date of inspection:	07/08/2023
Risk rating reference:	23/00594/FOOD
Premises reference:	21/00175/FD_HS
Type of premises:	Restaurant or cafe
Areas inspected:	Storeroom, Dry Store, Main Kitchen
Records examined:	Pest Control Report, Cleaning Schedule, Training Certificates/records, Temperature Control Records, FSMS
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Greek Restaurant

**Relevant Legislation**

Food Safety Act 1990 (as amended)  
Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)  
Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013  
Health and Safety at Work etc. Act 1974 and related regulations  
Food Information Regulations 2014

**What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
<b>Your Total score</b>	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
<b>Your Worst score</b>	5	10	10	15	20	-
<b>Your Rating is</b>	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

### 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

#### Contamination risks

**Contravention** The following exposed ready-to-eat food and or its packaging to the risk of cross-contamination with foodborne bacteria from raw meat or unwashed fruits and vegetables:

- yellow cutting boards were badly worn and need replacing

**Recommendation** I recommend these are replaced more frequently

#### Hand-washing

**Information** Proper hand-washing is essential to prevent cross-contamination of E.coli 0157 and other harmful bacteria onto food and food contact surfaces. Handwashing should include the following steps:

- wet hands before applying soap
- good hand rubbing technique
- rinsing of hands
- hygienic drying

## Personal Hygiene

**Contravention** The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- food handlers were wearing jewellery i.e friendship bands, These can harbour bacteria

## **2. Structure and Cleaning**

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

### Cleaning of Structure

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- floor/wall junctions
- flooring behind and under equipment
- mastic to sinks
- WC

**Recommendation** Your cleaning schedule is there to remind you to clean before an item becomes visibly dirty. If an item is dirty when you go to clean it, increase the frequency of cleaning. This way items will stay looking clean

### Cleaning of Equipment and Food Contact Surfaces

**Contravention** The following items are dirty and must be cleaned:

- interior bottom to fridge
- interior to ice machine
- hinges to fridge doors
- handles to fridges
- wheels to equipment
- legs to equipment
- door to walk-in freezer

### Cleaning Chemicals / Materials / Equipment and Methods

**Observation** I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

### Maintenance

**Contravention** The following had not been suitably maintained and must be repaired or replaced:

- glass shelf liner to shelving in bar
- split seals to fridge

### Facilities and Structural provision

**Observation** I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

### Pest Control

**Observation** You have a pest control contract in place and there is no evidence of pest activity on the premises.

## **3. Confidence in Management**

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

### Type of Food Safety Management System Required

**Observation** Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

**Observation** You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

**Observation** You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

**Contravention** You are not working to the following safe methods in your SFBB pack:

- cleaning schedule

**Observation** You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

#### Traceability

**Observation** Your records were such that food could easily be traced back to its supplier.

#### Waste Food and other Refuse

**Observation** You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

#### Training

**Observation** I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

#### Allergens

**Observation** You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.
