

Public Protection (food & safety)

Food Premises Inspection Report

Name of business:	Reds Convenience Stores
Address of food business:	35 St Benedicts Street Norwich NR2 4PF
Date of inspection:	02/09/2023
Risk rating reference:	23/00665/FOOD
Premises reference:	15340/0035/0/000
Type of premises:	Convenience Store
Areas inspected:	All
Records examined:	Temperature Control Records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Convenience store with bake off

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Observation I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

Hand-washing

Contravention The following indicated that hand-washing was not suitably managed:

- No soap was available.

Legal Requirement Wash hand basins must be provided with hot and cold running water and suitable drainage; soap and a hygienic way to dry hands.

Information Proper hand-washing is essential to prevent cross-contamination of E.coli 0157 and other harmful bacteria onto food and food contact surfaces. Handwashing should include the following steps:

- wet hands before applying soap
- good hand rubbing technique
- rinsing of hands
- hygienic drying

Information Handwashing is required:

- * before handling ready-to-eat food
- * after touching raw food and its packaging, including unwashed fruit and vegetables
- * after a break/smoking
- * after going to the toilet
- * after cleaning
- * after removing waste
- * after blowing your nose

Observation At the start of my visit, there was no hand soap at the wash hand basin. I was pleased to note that you later provided a bottle of hand soap at the wash hand basin. Ensure you always have an adequate supply of hand soap at your premises.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- Behind and under equipment.

Contravention The following items could not be effectively cleaned and must be covered, made non-absorbent or replaced:

- High level wall covering with flaking plaster/paint.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- High level wall covering within food preparation room in poor condition.
- Two fluorescent light fittings in rear store/food preparation room not working.

Facilities and Structural provision

Contravention The following facilities were inadequate and must be improved:

- The lighting in the food preparation area was insufficient for safe food preparation and cleaning. Replace the non-working lights.

Pest Control

Observation I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Type of Food Safety Management System Required

Contravention You do not have a food safety management system. Implement Safer Food Better Business or an equivalent food safety management system:

Legal Requirement Food business operators must put in place, implement and maintain a permanent procedure or procedures based on HACCP principles:

- Identify hazards to food.
- Identify the critical limits (what is acceptable and unacceptable).
- Monitor critical control points to ensure critical limits are met.
- Keep appropriate records to demonstrate control measures are effective.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Food Hazard Identification and Control

Contravention The following pre-requisites have not been met and this means that your food safety management system will be ineffective:

- cleaning is inadequate
- maintenance is inadequate
- staff hygiene is inadequate

Contravention You have not identified these food hazards or the methods of control at critical points in your operation:

- bacteria growing on food

- bacteria surviving in cooked food
- cross-contamination

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Infection Control / Sickness / Exclusion Policy

Guidance UK Health Security Agency recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

Observation Policies were in place to prevent any infected food handler from contaminating food.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Recommendation Catering staff should refresh their food hygiene knowledge every 3 years so that they stay up to date with current legislation and good practice. Booking details for this course are on our website: www.norwich.gov.uk

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Allergens

Observation You had clearly shown the presence of allergens in your food on your menu.

Observation You had identified the presence of allergens in your prepacked food and had brought this to the attention of your customers
