Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Contravention Food was not protected from general sources of contamination:

- open uncovered foods i.e butter stored in the fridge

Legal requirement At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state

Hand-washing

Observation I was pleased to see handwashing was well managed.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

Poor Practices

Contravention The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- open foods stored in the fridge with no dates of when they were opened

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- rear door
- fly screen to windows
- flooring underneath equipment

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- shelving to fridge
- seals to fridge/freezer
- handle to fridge
- fridge door
- wheels/legs to equipment
- knife sharpener
- interior bottom to vegetable fridge
- interior shelving to cupboards
- shelving to table

Cleaning Chemicals / Materials / Equipment and Methods

Contravention The following evidence demonstrated your cleaning materials, equipment and methods were not sufficient to control the spread of harmful bacteria between surfaces:

- the sanitisers are not to BS EN 1276:1997 13697:2001 Standards

Information Ensure you use a surface sanitiser that conforms to BS EN 1276:1997 or BS EN 13697:2001. This information should be available on the label or by contacting the manufacturer.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- damage to top of fridge
- split seals to fridge
- door to fridge rusty
- damage to walls

Pest Control

Observation I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Contravention The following matters demonstrate your Food Safety management system is not working as it should:

- cleaning schedule is needed, you need to add all equipment to your cleaning schedule
- more attention is needed to cleaning

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Infection Control / Sickness / Exclusion Policy

Guidance UK Health Security Agency recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Recommendation Catering staff should refresh their food hygiene knowledge every 3 years so that they stay up to date with current legislation and good practice. Booking details for this course are on our website: www.norwich.gov.uk
