

**Public Protection (food & safety)**

**Food Premises Inspection Report**

Name of business:	Cafe Norwich
Address of food business:	73 Magdalen Street Norwich NR3 1AA
Date of inspection:	11/03/2024
Risk rating reference:	24/00138/FOOD
Premises reference:	04/00113/FD_HS
Type of premises:	Restaurant or cafe
Areas inspected:	All
Records examined:	SFBB
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Café

**Relevant Legislation**

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

**What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
<b>Your Total score</b>	0 - 15	20	<b>25 - 30</b>	35 - 40	45 - 50	> 50
<b>Your Worst score</b>	5	10	<b>10</b>	15	20	-
<b>Your Rating is</b>	5	4	<b>3</b>	2	1	0

Your Food Hygiene Rating is 3 - a generally satisfactory standard

### 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

#### Contamination risks

**Contravention** You had not protected the articles and/or the equipment you use for ready-to-eat food from the contamination risk posed by raw food or its packaging.:

- blue-tac stored above where food is prepared, this could cause a contamination issue I recommend you use a tab grabber
- cutting boards stored touching on work surface

**Legal requirement** At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state

#### Hand-washing

**Observation** I was pleased to see handwashing facilities were available

### Personal Hygiene

**Contravention** The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- staff were not using the wash-hand basin regularly
- staff were not wearing suitable protective clothing

**Legal requirement** All persons in food handling areas must wear suitable, clean, and where appropriate protective clothing

**Information** Regular hand washing is important for personal cleanliness. Remind all food handlers of the need to wash their hands before starting or returning to work, and specifically:

- after using the toilet;
- after handling rubbish;
- after smoking;
- after taking a break;
- after handling raw food

**Information** There is a method for effective hand washing in your Safer Food Better Business pack

**Information** Taps can recontaminate hands after washing. First dry your hands with a clean paper towel and then use the towel to turn the tap off

### Poor Practices

**Contravention** The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- lettuce was being stored beyond its 'Best before' date of 4 March

**Guidance** It is an offence to use food which is not of the nature, substance or quality demanded by the consumer. Food used passed its 'best before' date could be of a reduced quality so you must check it is OK before you use it

## **2. Structure and Cleaning**

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

### Cleaning of Structure

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- around equipment feet
- floor/wall junctions
- behind and under equipment
- electric fly killer and tray
- extraction canopy
- skirting boards
- hand contact surfaces such as light switches and door handles
- electric sockets

### Cleaning of Equipment and Food Contact Surfaces

**Contravention** The following items are dirty and must be cleaned:

- seals to fridges/freezers
- interior around top to chest freezers
- interior bottom to fridge
- glass door to fridge
- bottom drawer to fridge
- interior to microwaves
- microwave doors
- build up of ice to chest freezers
- grill to chest freezer

### Cleaning Chemicals / Materials / Equipment and Methods

**Observation** I was pleased to see that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

### Maintenance

**Contravention** The following had not been suitably maintained and must be repaired or replaced:

- split seals to fridges
- edge to counter top

### Facilities and Structural provision

**Observation** I was pleased to see the premises had been well maintained and that adequate facilities had been provided.

### Pest Control

**Observation** I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

### **3. Confidence in Management**

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

#### **Type of Food Safety Management System Required**

**Observation** Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

#### **Food Hazard Identification and Control**

**Contravention** The Management sections in your Safer food Better Business (SFBB) pack are intended to demonstrate you are in day-to-day control of the hazards to food. The following Management sections were either missing, incomplete or not up-to-date:

- cleaning schedule
- training records / supplier lists
- contacts list

#### **Proving Your Arrangements are Working Well**

**Contravention** You are not working to the following safe methods in your SFBB pack:

- cleaning schedule
- opening and closing checks as you were storing food beyond its 'Best before' date
- it states in your pack that aprons are worn

#### **Traceability**

**Observation** Your records were such that food could easily be traced back to its supplier.

#### **Infection Control / Sickness / Exclusion Policy**

**Guidance** UK Health Security Agency recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

#### **Waste Food and other Refuse**

**Observation** You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

### Training

**Recommendation** Catering staff should refresh their food hygiene knowledge every 3 years so that they stay up to date with current legislation and good practice. Booking details for this course are on our website: [www.norwich.gov.uk](http://www.norwich.gov.uk)

**Recommendation** A Level 2 Award in Food Safety in Catering or its equivalent (a 6-hour course leading to the award of a recognised certificate in food hygiene) would be appropriate for your food handlers. Booking details for the equivalent CIEH course are on our website: [www.norwich.gov.uk](http://www.norwich.gov.uk)

**Recommendation** A Level 3 Award for Supervising Food Safety in Catering would be appropriate for your supervisory staff and those with managerial responsibility.

### Allergens

**Contravention** You are failing to manage allergens properly:

- You do not have a system to reliably identify allergens in the foods that you prepare

**Information** The Food Information Regulations require that you know what allergens are in the food you provide. You can no longer claim you don't know what allergens are present. Neither can you simply state that all the foods you serve might contain an allergen:

- Be sure you know exactly what your allergens are
- Convey this information to your customers accurately and consistently
