

Public Protection (food & safety)

Food Premises Inspection Report

Name of business:	Exploring
Address of food business:	5 - 6 Francis Way Bowthorpe Employment Area Norwich NR5 9JA
Date of inspection:	11/04/2024
Risk rating reference:	24/00180/FOOD
Premises reference:	23/00346/FD_HS
Type of premises:	Visitor centre
Areas inspected:	Main Kitchen
Records examined:	SFBB, Training Certificates/records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Science exploration centre

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Observation I was pleased to see you were able to demonstrate effective controls to prevent cross-contamination.

Hand-washing

Contravention The following indicated that hand-washing was not suitably managed:

- there was no wash hand basin

Legal requirement Washbasins must be available, suitably located and designated for cleaning hands. Wash-hand basins must be provided with hot and cold (or mixed) running water. Soap and hand drying facilities must be located nearby

Information Handwashing is required:

- before handling ready-to-eat food
- after touching raw food and its packaging, including unwashed fruit and vegetables
- after a break/smoking
- after going to the toilet
- after cleaning
- after removing waste
- after blowing your nose

Personal Hygiene

Contravention The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- staff were not wearing suitable protective clothing

Legal requirement All persons in food handling areas must wear suitable, clean, and where appropriate protective clothing

Temperature Control

Recommendation In addition to the visual checks you undertake, use a probe thermometer to check the core temperature of cooked and reheated foods. The temperature should reach 75°C for 30 seconds or an equivalent time/temperature combination, for example 80°C for 10 seconds.

Poor Practices

Contravention The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- no date labels on open foods of when opened in the fridge

Recommendation You should have a system to identify when open or prepared foods need to be used by or discarded, to ensure the food is fit for consumption. I recommend you apply labels which give a date that is 2 days after the day of production e.g. if food is opened on Monday it should be used by the end of Wednesday (an exception is cooked rice which should not be kept longer than 24 hours)

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Observation The kitchen had been well maintained and the standard of cleaning was good.

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- fridge and freezer seals

Cleaning Chemicals / Materials / Equipment and Methods

Observation I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

Maintenance

Observation You are maintaining the premises in good condition.

Facilities and Structural provision

Contravention The following facilities were inadequate and must be improved::

- insufficient number of sinks

Legal Requirement An adequate number of wash-hand basins must be available, suitably located and designated for cleaning hands. Wash-hand basins must be provided with hot and cold (or suitably mixed) running water.

3. Confidence in Management

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Proving Your Arrangements are Working Well

Contravention The Management sections in your Safer food Better Business (SFBB) pack are intended to demonstrate you are in day-to-day control of the hazards to food. The following Management sections were either missing, incomplete or not up-to-date:

- cleaning schedule
- food allergies

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Infection Control / Sickness / Exclusion Policy

Guidance UK Health Security Agency recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

Observation Policies were in place to prevent any infected food handler from contaminating food.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Recommendation A Level 2 Award in Food Safety in Catering or its equivalent (a 6-hour course leading to the award of a recognised certificate in food hygiene) would be appropriate for your food handlers. Booking details for the equivalent CIEH course are on our website: www.norwich.gov.uk

Recommendation A Level 3 Award for Supervising Food Safety in Catering would be appropriate for your supervisory staff and those with managerial responsibility.

Recommendation Catering staff should refresh their food hygiene knowledge every 3 years so that they stay up to date with current legislation and good practice. Booking details for this course are on our website: www.norwich.gov.uk

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Allergens

Contravention You are failing to manage allergens properly:

- You do not have a system for informing customers about the presence of allergens in the food you prepare
- You have not identified the allergens present in the food you prepare

Legal requirement Caterers must provide allergy information on all unpackaged food they sell. Catering businesses include restaurants, takeaways, deli counters, bakeries and sandwich bars etc. The potential for cross-contamination by allergens must also be made known to consumers. You can obtain more information from the Trading Standards website: www.norfolk.gov.uk/abc
