

Public Protection (food & safety)**Food Premises Inspection Report**

Name of business:	TGI Friday's
Address of food business:	Unit 5A Wherry Road Norwich NR1 1WX
Date of inspection:	07/11/2024
Risk rating reference:	24/00481/FOOD
Premises reference:	24/00280/FD_HS
Type of premises:	Restaurant or cafe
Areas inspected:	All
Records examined:	Third Party Audit, FSMS, Temperature Control Records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Restaurant, part of national chain.

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law . You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements** .

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

Contamination risks

Contravention The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

- fraying material sited under counter mounted tin opener.

Hand-washing

Contravention The following indicated that hand-washing was not suitably managed::

- no means for hygienically drying hands was available
- it takes a very long time for hot water to be produced at the wash hand basin tap

Legal Requirement Wash hand basins must be provided with hot and cold running water and suitable drainage; soap and a hygienic way to dry hands.

Legal Requirement An adequate number of wash hand basins must be available for use, they must be suitably located and designated for cleaning hands.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Observation I was pleased to see you were able to limit bacterial growth and/or survival by applying appropriate temperature controls at points critical to food safety and that you were monitoring temperatures.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are of a generally satisfactory standard but there are some repairs and/or improvements which are required in order for you to comply with the law. Pest control and waste disposal provisions are adequate. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- floor/wall junctions
- high level cleaning
- ingrained dirt to floor at threshold into beer cellar.
- damaged panel to redundant/broken freezer in main kitchen.
- missing trim to floor threshold into main dining area from main kitchen. This was also creating a dirt trap.
- loose metal shelf above wash hand basin in main kitchen.

Contravention The following items could not be effectively cleaned and must be covered, made non-absorbent or replaced:

- chipped dented wooden architrave

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- external surfaces of ice machine in main kitchen. There appeared to be a build up of lime-scale .

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- coving loose at wall/floor junction near wash up area
- silicon sealant damaged

- loose sealant to base of walk-in fridge where meets the floor.
- rust to external base of walk-in chiller
- rust to wheels to moveable equipment.

3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. Your records are appropriate and generally maintained. Your staff are suitably supervised and trained. **(Score 5)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were date labelling perishable foods appropriately and could demonstrate effective control over food spoilage organisms.

Observation You had colour-coded equipment and effective separation between raw and ready-to-eat food at all stages in your operation.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked/hot-held food and could demonstrate effective systems for controlling bacterial growth and survival.

Proving Your Arrangements are Working Well

Contravention The following are needed in order to demonstrate your food safety management system is working:

- maintenance recording. One of the maintenance issues was also causing a trip hazard within the kitchen. The damaged metal panel to freezer was propped in place using a rolled up piece of plastic.

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.

Observation You had clearly shown the presence of allergens in your food on your menu.

Observation You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
